Firmware	Z55S
Supported version	10.0 and 11.0
Operating system	Linux

Device#2765	
Model	LTO 6HH (HP)
Vendor	Oracle/SUN/STK
Device	Drives
Firmware	22GS
Supported version	10.0 and 11.0
Operating system	Linux

Device#2766	
Model	D2D G1 StoreOnce Series
Vendor	Hewlett Packard Enterprise
Device	VTLs
Notes	143 - Please visit https://www.hpe.com/Storage/StoreOnceSupportMatrix or https://h20272.www2.hpe.com/SPOCK/Pages/spock2Html.aspx?htmlFile=hw_storeever.html to view the HPE Compatibility Matrix for most current supported firmware revisions for specific drive/library/hba combinations.
Firmware	1.2.19

Supported version	10.0 and 11.0
Operating system	Linux

Device#2767	
Model	D2D G2 StoreOnce Series
Vendor	Hewlett Packard Enterprise
Device	VTLs
Notes	143 - Please visit https://www.hpe.com/Storage/StoreOnceSupportMatrix or https://h20272.www2.hpe.com/SPOCK/Pages/spock2Html.aspx?htmlFile=hw_storeever.html to view the HPE Compatibility Matrix for most current supported firmware revisions for specific drive/library/hba combinations.
Firmware	2.3.0 / 3.6.5
Supported version	10.0 and 11.0
Operating system	Linux

Device#2768	
Model	T120
Vendor	Spectra Logic
Device	Libraries
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	BlueScale12.7.03-20170726F
Supported version	10.0 and 11.0
Operating system	Linux

OS Notes	["084 - Supported on the following Linux platforms: RHEL 7.0 64-bit (x86_64) with kernel 3.10.x and glibc 2.17.x; RHEL 8.0 64-bit (x86_64) with kernel 4.18.x and glibc 2.28.x; SuSE Linux 11 Ent. Server 64-bit Edition with kernel 2.6.25 and glibc 2.9.x; SuSE Linux 12 Ent. Server 64-bit Edition with kernel 3.12.x and glibc 2.22.x; SuSE Linux 15 Ent. Server 64-bit Edition with kernel 4.12.x and glibc 2.28.x; Ubuntu 16.04LTS with kernel 5.11.x and glibc-2.23; Ubuntu 18.04LTS with kernel 5.15.x and glibc-2.31","187 - As of Commvault v11, IBM Lin_tape driver support has been added. Persistent reservation (SCSI3) requires 'options lin_tape tape_reserve_type=persistent' to be added to either /etc/modprobe.d/lin_tape.conf (RHEL 6 or higher) or /etc/modprobe.conf.local (older OS flavors) files. If SCSI2 reservation is used, remove 'options lin_tape tape_reserve_type=persistent' from lin_tape.conf or modprobe.conf.local and â€˜nReadWriteTestNoScsi3Reservation 1â€™ needs to be set under the MediaAgent Section of the Commvault registry. After modifications, restart of Commvault services is required."]

Device#2769	
Model	QLE26xx Series
Vendor	QLogic
Device	HBAs
Notes	166 - Entire QLE26xx Series includes: QLE2670, QLE2672
Firmware	v8.03.06
Supported version	10.0 and 11.0
Operating system	Linux

Device#2770	
Model	A8 T
Vendor	Imation
Device	VTLs
Firmware	1.33
Supported version	10.0 and 11.0
Operating system	Linux

Device#2771	
Model	Data Domain DD4xx VTL Series
Vendor	Dell EMC Data Domain

Device	VTLs
Notes	168 - All DataDomain emulated device types for this family of VTL are supported.
Firmware	4.3.3, 4.9.4.5
Supported version	10.0 and 11.0
Operating system	Linux

Device#2772	
Model	OceanStor VTL6900
Vendor	HuaWei
Device	VTLs
Firmware	V100R005
Supported version	10.0 and 11.0
Operating system	Linux
OS Notes	["084 - Supported on the following Linux platforms: RHEL 7.0 64-bit (x86_64) with kernel 3.10.x and glibc 2.17.x; RHEL 8.0 64-bit (x86_64) with kernel 4.18.x and glibc 2.28.x; SuSE Linux 11 Ent. Firmware	FA11
Supported version	10.0 and 11.0
Operating system	Linux

Device#2795	
Model	StoreEver Ultrium 15000 SAS (LTO7 HH)
Vendor	Hewlett Packard Enterprise
Device	Drives
Notes	181 - Support has been added as of Simpana 10.0 SP11 and forward.
Firmware	M571, N4Q1
Supported version	10.0 and 11.0
Operating system	Linux

Device#2796	
Model	StoreEver Ultrium 15750 FC (LTO7 FH)
Vendor	Hewlett Packard Enterprise
Device	Drives
Notes	181 - Support has been added as of Simpana 10.0 SP11 and forward.

Firmware	HB80
Supported version	10.0 and 11.0
Operating system	Linux

Device#2797	
Model	StoreEver Ultrium 15000 FC (LTO7 HH)
Vendor	Hewlett Packard Enterprise
Device	Drives
Notes	181 - Support has been added as of Simpana 10.0 SP11 and forward.
Firmware	M571, N4Q1
Supported version	10.0 and 11.0
Operating system	Linux

Device#2798	
Model	StoreEver Ultrium 6650 SAS (LTO6 FH)
Vendor	Hewlett Packard Enterprise
Device	Drives
Firmware	05ID
Supported version	10.0 and 11.0
Operating system	Linux

Device#2799	
Model	LTO 7 Half-Height
Vendor	Quantum
Device	Drives
Notes	181 - Support has been added as of Simpana 10.0 SP11 and forward.
Firmware	H5B3
Supported version	10.0 and 11.0
Operating system	Linux

Device#2800	
Model	StoreOnce 5xxx Series
Vendor	Hewlett Packard Enterprise
Device	VTLs
Notes	143 - Please visit https://www.hpe.com/Storage/StoreOnceSupportMatrix or https://h20272.www2.hpe.com/SPOCK/Pages/spock2Html.aspx?htmlFile=hw_storeever.html to view the HPE Compatibility Matrix for most current supported firmware revisions for specific drive/library/hba combinations.
Firmware	3.18.x
Supported version	10.0 and 11.0

Operating system	Linux

Device#2801	
Model	3592 EH8/E08 (TS1150)
Vendor	IBM
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Firmware	3.18.x
Supported version	10.0 and 11.0
Operating system	Linux

Device#2803	
Model	RDX
Vendor	IBM

Device	Drives
Firmware	3043 (USB int and ext), 1.6 (USB 3.0 int and ext)
Supported version	10.0 and 11.0
Operating system	Linux

Device#2804	
Model	RDX
Vendor	Hewlett Packard Enterprise
Device	Drives
Firmware	0170 (USB int and ext), 2.27 (USB 3.0 int and ext)
Supported version	10.0 and 11.0
Operating system	Linux

Device#2805	
Model	Virtual Storage Manager System 7
Vendor	Oracle/SUN/STK
Device	VTLs
Firmware	7.1.x
Supported version	10.0 and 11.0
Operating system	Linux

Device#2806	
Model	DR4000 / DR4100 / DR6000
Vendor	Dell
Device	VTLs

Firmware	1.4.0.0-A07
Supported version	10.0 and 11.0
Operating system	Linux

Device#2827	
Model	SL4000
Vendor	Oracle/SUN/STK
Device	Libraries
Firmware	1.0.0.66
Supported version	10.0 and 11.0
Operating system	Linux

Device#2828	
Model	StoreOnce 4xxx Series
Vendor	Hewlett Packard Enterprise
Device	VTLs
Notes	143 - Please visit https://www.hpe.com/Storage/StoreOnceSupportMatrix or https://h20272.www2.hpe.com/SPOCK/Pages/spock2Html.aspx?htmlFile=hw_storeever.html to view the HPE Compatibility Matrix for most current supported firmware revisions for specific drive/library/hba combinations.
Firmware	3.18.5
Supported version	11.0
Operating system	Linux

Device#2829	
Model	StoreOnce G4 Series
Vendor	Hewlett Packard Enterprise
Device	VTLs
Notes	143 - Please visit https://www.hpe.com/Storage/StoreOnceSupportMatrix or https://h20272.www2.hpe.com/SPOCK/Pages/spock2Html.aspx?htmlFile=hw_storeever.html to view the HPE Compatibility Matrix for most current supported firmware revisions for specific drive/library/hba combinations.
Firmware	4.1.0, 4.1.3
Supported version	11.0
Operating system	Linux

Device#2830	
Model	InfiniGuard B Series
Vendor	Infinidat
Device	VTLs
Notes	193 - VTL functionality supported.
Firmware	4.0.0

Supported version	11.0
Operating system	Linux

Device#2831	
Model	ExpressSAS H12xx
Vendor	ATTO
Device	HBAs
Firmware	2018_11_2
Supported version	10.0 and 11.0
Operating system	Linux
OS Notes	["084 - Supported on the following Linux platforms: RHEL 7.0 64-bit (x86_64) with kernel 3.10.x and glibc 2.17.x; RHEL 8.0 64-bit (x86_64) with kernel 4.18.x and glibc 2.28.x; SuSE Linux 11 Ent. Firmware	P371
Supported version	11.0
Operating system	Linux

Device#2852	
Model	VTL 2.0
Vendor	Commvault
Device	VTLs
Notes	208 - Supported as of v11.24. Commvault VTL 2.0 is a disk-based library, hosted on a standalone Linux server, that emulates traditional tape devices. Refer to BOL, Expert Documentation, for details to deploy.
Firmware	3.0.50.45
Supported version	11.0
Operating system	Linux

Device#2853	
Model	3584 (TS3500)
Vendor	IBM
Device	Libraries
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	G060
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#2854	
Model	StoreEver Ultrium 232 SCSI (LTO1)
Vendor	Hewlett Packard Enterprise
Device	Drives

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	P61D
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#2855	
Model	StoreEver Ultrium 215 SCSI (LTO1)
Vendor	Hewlett Packard Enterprise
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	N27D
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#2856	
Model	StoreEver Ultrium 230 SCSI (LTO1)
Vendor	Hewlett Packard Enterprise
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	E32D
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#2857	
Model	StoreEver Ultrium 448 SAS (LTO2)
Vendor	Hewlett Packard Enterprise
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.

Firmware	T65D
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#2858	
Model	StoreEver Ultrium 448 SCSI (LTO2)
Vendor	Hewlett Packard Enterprise
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	S65D
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#2859	
Model	StoreEver Ultrium 460 FC (LTO2)
Vendor	Hewlett Packard Enterprise
Device	Drives

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. Supported version	10.0 and 11.0
Operating system	Solaris SPARC

OS Notes	["110 - This device supported with MINIMUM Qinetix Release version 5.9 on the following Solaris platforms: Solaris 2.6, Solaris 7, Solaris 8, Solaris 9. This device supported with MINIMUM Qinetix Release version 6.1 on the following Solaris platforms: Solaris 10"]

Device#2935	
Model	QLA234x Series
Vendor	QLogic
Device	HBAs
Notes	067 - Entire QLA234x Series includes the QLA2340x, QLA2342x and QLA2344x.
Firmware	v1.54
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#2936	
Model	QLA4010x
Vendor	QLogic
Device	HBAs
Firmware	3.0.0.18
Supported version	10.0 and 11.0
Operating system	Solaris SPARC
OS Notes	["110 - This device supported with MINIMUM Qinetix Release version 5.9 on the following Solaris platforms: Solaris 2.6, Solaris 7, Solaris 8, Solaris 9. This device supported with MINIMUM Qinetix Release version 6.1 on the following Solaris platforms: Solaris 10"]

Device#2937	
Model	QLA405x Series
Vendor	QLogic
Device	HBAs
Notes	097 - Entire QLA405x Series includes: QLA4050, QLA4052
Firmware	v1.15 (3.0.01.53)
Supported version	10.0 and 11.0
Operating system	Solaris SPARC
OS Notes	["110 - This device supported with MINIMUM Qinetix Release version 5.9 on the following Solaris platforms: Solaris 2.6, Solaris 7, Solaris 8, Solaris 9. This device supported with MINIMUM Qinetix Release version 6.1 on the following Solaris platforms: Solaris 10"]

Device#2938	
Model	QLE25xx Series
Vendor	QLogic
Device	HBAs
Notes	149 - Entire QLE25xx Series includes: QLE2560, QLE2562, QLE2564
Firmware	v8.01.02
Supported version	10.0 and 11.0
Operating system	Solaris SPARC
OS Notes	["110 - This device supported with MINIMUM Qinetix Release version 5.9 on the following Solaris platforms: Solaris 2.6, Solaris 7, Solaris 8, Solaris 9. This device supported with MINIMUM Qinetix Release version 6.1 on the following Solaris platforms: Solaris 10"]

Device#2939	
Model	QSB234x Series
Vendor	QLogic
Device	HBAs
Notes	069 - Entire QSB234x Series includes the QSB2340x and QSB2342x.
Firmware	2.00.07
Supported version	10.0 and 11.0
Operating system	Solaris SPARC
OS Notes	["110 - This device supported with MINIMUM Qinetix Release version 5.9 on the following Solaris platforms: Solaris 2.6, Solaris 7, Solaris 8, Solaris 9. This device supported with MINIMUM Qinetix Release version 6.1 on the following Solaris platforms: Solaris 10"]

Device#2940	
Model	3D Series
Vendor	EMC
Device	VTLs

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	1.1
Supported version	10.0 and 11.0
Operating system	Solaris SPARC
OS Notes	["110 - This device supported with MINIMUM Qinetix Release version 5.9 on the following Solaris platforms: Solaris 2.6, Solaris 7, Solaris 8, Solaris 9. This device supported with MINIMUM Qinetix Release version 6.1 on the following Solaris platforms: Solaris 10"]

Device#2941	
Model	EMC Disk Library (EDL)
Vendor	EMC
Device	VTLs
Notes	058 - The EMC Disk Library series includes the following models: (EDL210_BA: FW 2.1.x); (EDL300, EDL310, EDL700, EDL710, EDL720, EDL740, EDL210_BA2: FW 3.1.x); (EDL4100, EDL4200, EDL4400, EDL4106, EDL4206, EDL4406: FW 3.2.x or 3.3.x); (EDL5100, EDL5200: FW 4.1.x)
Firmware	See Note for FW revisions.
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

OS Notes	["110 - This device supported with MINIMUM Qinetix Release version 5.9 on the following Solaris platforms: Solaris 2.6, Solaris 7, Solaris 8, Solaris 9. This device supported with MINIMUM Qinetix Release version 6.1 on the following Solaris platforms: Solaris 10"]

Device#2942	
Model	PV35F (Crossroads)
Vendor	Dell
Device	Bridges
Firmware	C9913D
Supported version	10.0 and 11.0
Operating system	Solaris SPARC
OS Notes	["110 - This device supported with MINIMUM Qinetix Release version 5.9 on the following Solaris platforms: Solaris 2.6, Solaris 7, Solaris 8, Solaris 9. This device supported with MINIMUM Qinetix Release version 6.1 on the following Solaris platforms: Solaris 10"]

Device#2943	
Model	Magnum Tape Drive (LTO-2)
Vendor	Exabyte
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. Model	TL895
Vendor	Hewlett Packard Enterprise
Device	Libraries
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	2.41
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#3015	
Model	3447
Vendor	IBM
Device	Libraries
Notes	004 - Manufacturer Discontinued
Firmware	1.61
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#3016	
Model	3502
Vendor	IBM
Device	Libraries
Notes	004 - Manufacturer Discontinued
Firmware	108v34; 314v34
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#3017	
Model	3572-TL (TS2900)
Vendor	IBM
Device	Libraries
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	0130
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#3018	
Model	3573-TL (TS3100-TS3200)

Vendor	IBM
Device	Libraries
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	F.01
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#3019	
Model	3575
Vendor	IBM
Device	Libraries
Notes	004 - Manufacturer Discontinued
Firmware	2.15
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#3020	
Model	3576-MTL (TS3310)
Vendor	IBM
Device	Libraries
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	710G.GS007
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#3021	
Model	3581
Vendor	IBM
Device	Libraries
Notes	004 - Manufacturer Discontinued
Firmware	I114
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#3022	
Model	3581 2U
Vendor	IBM
Device	Libraries

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	3.5
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#3023	
Model	3582
Vendor	IBM
Device	Libraries
Notes	004 - Manufacturer Discontinued
Firmware	310_005
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#3024	
Model	3583
Vendor	IBM
Device	Libraries
Notes	004 - Manufacturer Discontinued
Firmware	3.30.08; 6.13.0002
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#3025	
Model	4560-SLX
Vendor	IBM
Device	Libraries
Notes	004 - Manufacturer Discontinued
Firmware	4.29
Supported version	10.0 and 11.0

Operating system	Solaris SPARC

Device#3026	
Model	7337
Vendor	IBM
Device	Libraries
Notes	004 - Manufacturer Discontinued
Firmware	1.71
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#3027	
Model	FrankeNAS
Vendor	Idealstor
Device	Libraries
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Firmware	WP8A
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#3107	
Model	Diamond VTL
Vendor	ATTO
Device	VTLs
Notes	004 - Manufacturer Discontinued
Firmware	0001
Supported version	10.0 and 11.0
Operating system	Solaris SPARC
OS Notes	["110 - This device supported with MINIMUM Qinetix Release version 5.9 on the following Solaris platforms: Solaris 2.6, Solaris 7, Solaris 8, Solaris 9. This device supported with MINIMUM Qinetix Release version 6.1 on the following Solaris platforms: Solaris 10"]

Device#3108	
Model	StoreWay Virtuo Family
Vendor	Bull
Device	VTLs
Firmware	7.1
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

OS Notes	["110 - This device supported with MINIMUM Qinetix Release version 5.9 on the following Solaris platforms: Solaris 2.6, Solaris 7, Solaris 8, Solaris 9. This device supported with MINIMUM Qinetix Release version 6.1 on the following Solaris platforms: Solaris 10"]

Device#3109	
Model	Data Domain VTL
Vendor	Dell EMC Data Domain
Device	VTLs
Notes	115 - DataDomain VTL Software option is supported on the follwing platorms: DDX Array Series, Appliance Series, Gateway Series.
Firmware	6.1.x.x, 6.2.x.x , 7.1.x.x
Supported version	10.0 and 11.0
Operating system	Solaris SPARC
OS Notes	["110 - This device supported with MINIMUM Qinetix Release version 5.9 on the following Solaris platforms: Solaris 2.6, Solaris 7, Solaris 8, Solaris 9. This device supported with MINIMUM Qinetix Release version 6.1 on the following Solaris platforms: Solaris 10"]

Device#3110	
Model	StoreOnce G3 Series
Vendor	Hewlett Packard Enterprise
Device	VTLs
Notes	143 - Please visit https://www.hpe.com/Storage/StoreOnceSupportMatrix or https://h20272.www2.hpe.com/SPOCK/Pages/spock2Html.aspx?htmlFile=hw_storeever.html to view the HPE Compatibility Matrix for most current supported firmware revisions for specific drive/library/hba combinations.
Firmware	3.13.x
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#3111	
Model	VLS 12x00 Series
Vendor	Hewlett Packard Enterprise
Device	VTLs

Notes	143 - Please visit https://www.hpe.com/Storage/StoreOnceSupportMatrix or https://h20272.www2.hpe.com/SPOCK/Pages/spock2Html.aspx?htmlFile=hw_storeever.html to view the HPE Compatibility Matrix for most current supported firmware revisions for specific drive/library/hba combinations.
Firmware	6.1.0
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#3112	
Model	VLS 6x00 Series
Vendor	Hewlett Packard Enterprise
Device	VTLs

Firmware	6.1.0
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#3114	
Model	TS7510
Vendor	IBM

Device	VTLs
Firmware	v1.1 Build 1143 (update-ve114311)
Supported version	10.0 and 11.0
Operating system	Solaris SPARC
OS Notes	["110 - This device supported with MINIMUM Qinetix Release version 5.9 on the following Solaris platforms: Solaris 2.6, Solaris 7, Solaris 8, Solaris 9. This device supported with MINIMUM Qinetix Release version 6.1 on the following Solaris platforms: Solaris 10"]

Device#3115	
Model	TS7520
Vendor	IBM
Device	VTLs
Firmware	update-ve1382upto34-SP06
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#3116	
Model	TS7530
Vendor	IBM
Device	VTLs
Firmware	update-ve150715
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#3117	
Model	TS7650
Vendor	IBM
Device	VTLs
Firmware	3.3.0; 3.4.0
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#3118	
Model	NetApp VTL
Vendor	NetApp
Device	VTLs
Notes	102 - Supprt for the VTLs ShadowCopy functionality is added in Galaxy 7.0.
Firmware	5.6.3
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

OS Notes	["110 - This device supported with MINIMUM Qinetix Release version 5.9 on the following Solaris platforms: Solaris 2.6, Solaris 7, Solaris 8, Solaris 9. This device supported with MINIMUM Qinetix Release version 6.1 on the following Solaris platforms: Solaris 10"]

Device#3119	
Model	REO Series
Vendor	Overland Storage
Device	VTLs
Firmware	5.0.3.17
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#3120	
Model	DX Series
Vendor	Quantum
Device	VTLs
Notes	145 - The following minimum firmware revisions are necessary on the VTL to correct performance issues for hardware deduplication when used with Simpana 8.0: DXi7500 DXi6500 The fix for those are in release 1.4 of the fw. DXi4500 The fix for those are in release 1.3.1 of the fw. DXi2500-D The fix for those are in release 1.1.1.4_25 DXi3500 DXi5500 The fix for those are in release 1.7.3.1 of the fw
Firmware	1.7.3.1
Supported version	10.0 and 11.0
Operating system	Solaris SPARC
OS Notes	["110 - This device supported with MINIMUM Qinetix Release version 5.9 on the following Solaris platforms: Solaris 2.6, Solaris 7, Solaris 8, Solaris 9. This device supported with MINIMUM Qinetix Release version 6.1 on the following Solaris platforms: Solaris 10"]

Device#3121	
Model	DXi 6700/6802 Series
Vendor	Quantum

Device	VTLs
Notes	145 - The following minimum firmware revisions are necessary on the VTL to correct performance issues for hardware deduplication when used with Simpana 8.0: DXi7500 DXi6500 The fix for those are in release 1.4 of the fw. Device#3129	
Model	10000
Vendor	Crossroads
Device	Bridges
Notes	002 - Entire Series/Family Supported
Firmware	4.03.1
Supported version	10.0 and 11.0
Operating system	Solaris SPARC
OS Notes	["110 - This device supported with MINIMUM Qinetix Release version 5.9 on the following Solaris platforms: Solaris 2.6, Solaris 7, Solaris 8, Solaris 9. This device supported with MINIMUM Qinetix Release version 6.1 on the following Solaris platforms: Solaris 10"]

Device#3130	
Model	4x50
Vendor	Crossroads
Device	Bridges
Notes	002 - Entire Series/Family Supported
Firmware	2009j
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

OS Notes	["110 - This device supported with MINIMUM Qinetix Release version 5.9 on the following Solaris platforms: Solaris 2.6, Solaris 7, Solaris 8, Solaris 9. This device supported with MINIMUM Qinetix Release version 6.1 on the following Solaris platforms: Solaris 10"]

Device#3131	
Model	8000
Vendor	Crossroads
Device	Bridges
Notes	002 - Entire Series/Family Supported
Firmware	4.03AI
Supported version	10.0 and 11.0
Operating system	Solaris SPARC
OS Notes	["110 - This device supported with MINIMUM Qinetix Release version 5.9 on the following Solaris platforms: Solaris 2.6, Solaris 7, Solaris 8, Solaris 9. This device supported with MINIMUM Qinetix Release version 6.1 on the following Solaris platforms: Solaris 10"]

Device#3132	
Model	F-QIP
Vendor	Spectra Logic
Device	Bridges
Notes	029 - Internal FCO bridge designed for Spectralogic Gator Series libraries
Firmware	7.8.4.0
Supported version	10.0 and 11.0
Operating system	Solaris SPARC
OS Notes	["110 - This device supported with MINIMUM Qinetix Release version 5.9 on the following Solaris platforms: Solaris 2.6, Solaris 7, Solaris 8, Solaris 9. This device supported with MINIMUM Qinetix Release version 6.1 on the following Solaris platforms: Solaris 10"]

Device#3133	
Model	SN 3300
Vendor	Oracle/SUN/STK
Device	Bridges
Firmware	4.03.25
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#3134	
Model	StoreEver DAT72
Vendor	Hewlett Packard Enterprise
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	ZPBC
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#3135	
Model	DDS2
Vendor	Hewlett Packard Enterprise
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Supported version	10.0 and 11.0
Operating system	Solaris SPARC
OS Notes	["110 - This device supported with MINIMUM Qinetix Release version 5.9 on the following Solaris platforms: Solaris 2.6, Solaris 7, Solaris 8, Solaris 9. This device supported with MINIMUM Qinetix Release version 6.1 on the following Solaris platforms: Solaris 10"]

Device#3272	
Model	LTO 4 (HP Utrium)
Vendor	Oracle/SUN/STK
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	B63S
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#3273	
Model	LTO 5 (HP Ultrium)
Vendor	Oracle/SUN/STK
Device	Drives

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	IB5S
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#3274	
Model	IBM LTO 3
Vendor	Oracle/SUN/STK
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	93G0
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#3275	
Model	IBM LTO 4
Vendor	Oracle/SUN/STK
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	BBH4
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#3276	
Model	IBM LTO 5
Vendor	Oracle/SUN/STK
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.

Firmware	BBNH
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#3277	
Model	LTO 5HH (HP)
Vendor	Oracle/SUN/STK
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	Y5BS
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#3278	
Model	LTO 6HH (HP)
Vendor	Oracle/SUN/STK
Device	Drives
Firmware	22GS
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#3279	
Model	D2D G1 StoreOnce Series
Vendor	Hewlett Packard Enterprise
Device	VTLs

Notes	143 - Please visit https://www.hpe.com/Storage/StoreOnceSupportMatrix or https://h20272.www2.hpe.com/SPOCK/Pages/spock2Html.aspx?htmlFile=hw_storeever.html to view the HPE Compatibility Matrix for most current supported firmware revisions for specific drive/library/hba combinations.
Firmware	1.2.19
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#3280	
Model	D2D G2 StoreOnce Series
Vendor	Hewlett Packard Enterprise
Device	VTLs
Notes	143 - Please visit https://www.hpe.com/Storage/StoreOnceSupportMatrix or https://h20272.www2.hpe.com/SPOCK/Pages/spock2Html.aspx?htmlFile=hw_storeever.html to view the HPE Compatibility Matrix for most current supported firmware revisions for specific drive/library/hba combinations.
Firmware	2.3.0 / 3.6.5
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#3281	
Model	T120
Vendor	Spectra Logic
Device	Libraries
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	BlueScale12.7.03-20170726F
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#3282	
Model	Data Domain DD4xx VTL Series
Vendor	Dell EMC Data Domain
Device	VTLs
Notes	168 - All DataDomain emulated device types for this family of VTL are supported.

Firmware	4.3.3, 4.9.4.5
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#3283	
Model	StoreEver MSL 6480
Vendor	Hewlett Packard Enterprise
Device	Libraries
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	25MW
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#3286	
Model	DXi 4700 Series
Vendor	Quantum
Device	VTLs
Firmware	v3.4.0
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#3287	
Model	DXi 6900 series
Vendor	Quantum
Device	VTLs
Firmware	v3.4.0
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#3288	
Model	MultiStak
Vendor	BDT
Device	Libraries
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	2.80
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#3289	
Model	TL1000
Vendor	Dell
Device	Libraries

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	0130-3000
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#3290	
Model	ETERNUS LT260
Vendor	Fujitsu
Device	Libraries
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	7.30
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#3291	
Model	NEOxl 80
Vendor	Overland-Tandberg
Device	Libraries

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. Firmware	6.00
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#3293	
Model	T30A / T60A
Vendor	NEC
Device	Libraries
Notes	177 - Certified drive FW/driver revisions: IBM Ultrium-HH4 G9N7, Ultrium-HH5 G9N7, Ultrium-HH6 H4T5, Ultrium-HH7 H5B5
Firmware	0005
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#3294	
Model	ETERNUS LT270 S2
Vendor	Fujitsu
Device	Libraries
Firmware	V10L26
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#3295	
Model	3584 (TS4500)
Vendor	IBM
Device	Libraries
Firmware	1.8.0.2-A00
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#3296	
Model	HH LTO Gen 7
Vendor	IBM
Device	Drives
Notes	179 - Supported IBM LTO7 firmware revisions: Stand-alone (bridgebox): FA10 FH, FA11 HH Within libraries: TS4500 (3584): F981 TS3500 (3584): F981 TS3310 (3576): FA11 TS3200 (3573): FA11 TS3100 (3573): FA11 TS2900 (3572): FA11
Firmware	K4K1
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#3297

Model	ULT3580-HH7
Vendor	IBM
Device	Drives
Notes	179 - Supported IBM LTO7 firmware revisions: Stand-alone (bridgebox): FA10 FH, FA11 HH Within libraries: TS4500 (3584): F981 TS3500 (3584): F981 TS3310 (3576): FA11 TS3200 (3573): FA11 TS3100 (3573): FA11 TS2900 (3572): FA11
Firmware	J4D1
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#3298	
Model	ULT3580-TD7
Vendor	IBM
Device	Drives
Notes	179 - Supported IBM LTO7 firmware revisions: Stand-alone (bridgebox): FA10 FH, FA11 HH Within libraries: TS4500 (3584): F981 TS3500 (3584): F981 TS3310 (3576): FA11 TS3200 (3573): FA11 TS3100 (3573): FA11 TS2900 (3572): FA11
Firmware	FA10
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#3299	
Model	Ultrium-TD7
Vendor	IBM
Device	Drives
Notes	179 - Supported IBM LTO7 firmware revisions: Stand-alone (bridgebox): FA10 FH, FA11 HH Within libraries: TS4500 (3584): F981 TS3500 (3584): F981 TS3310 (3576): FA11 TS3200 (3573): FA11 TS3100 (3573): FA11 TS2900 (3572): FA11

Firmware	FA10
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#3300	
Model	Ultrium-HH7
Vendor	IBM
Device	Drives
Notes	179 - Supported IBM LTO7 firmware revisions: Stand-alone (bridgebox): FA10 FH, FA11 HH Within libraries: TS4500 (3584): F981 TS3500 (3584): F981 TS3310 (3576): FA11 TS3200 (3573): FA11 TS3100 (3573): FA11 TS2900 (3572): FA11
Firmware	J4D1
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#3301	
Model	PowerVault LTO7 (IBM SAS)
Vendor	Dell
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	FA11
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#3303	
Model	StoreEver Ultrium 15000 SAS (LTO7 HH)
Vendor	Hewlett Packard Enterprise
Device	Drives
Notes	181 - Support has been added as of Simpana 10.0 SP11 and forward.
Firmware	M571, N4Q1
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#3304	
Model	StoreEver Ultrium 15750 FC (LTO7 FH)
Vendor	Hewlett Packard Enterprise
Device	Drives
Notes	181 - Support has been added as of Simpana 10.0 SP11 and forward.
Firmware	HB80
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#3305	
Model	StoreEver Ultrium 15000 FC (LTO7 HH)
Vendor	Hewlett Packard Enterprise
Device	Drives
Notes	181 - Support has been added as of Simpana 10.0 SP11 and forward.
Firmware	M571, N4Q1
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#3306	
Model	StoreEver Ultrium 6650 SAS (LTO6 FH)
Vendor	Hewlett Packard Enterprise
Device	Drives
Firmware	05ID
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#3307	
Model	LTO 7 Half-Height
Vendor	Quantum
Device	Drives
Notes	181 - Support has been added as of Simpana 10.0 SP11 and forward.
Firmware	H5B3
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#3308	
Model	StoreOnce 5xxx Series
Vendor	Hewlett Packard Enterprise
Device	VTLs
Notes	143 - Please visit https://www.hpe.com/Storage/StoreOnceSupportMatrix or https://h20272.www2.hpe.com/SPOCK/Pages/spock2Html.aspx?htmlFile=hw_storeever.html to view the HPE Compatibility Matrix for most current supported firmware revisions for specific drive/library/hba combinations.
Firmware	3.18.x
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#3309

Model	3592 EH8/E08 (TS1150)
Vendor	IBM
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	1.5.0.0
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#3316	
Model	Backup Appliance B4260
Vendor	Infinidat
Device	VTLs
Notes	193 - VTL functionality supported.
Firmware	1.3.3.1
Supported version	11.0
Operating system	Solaris SPARC

Device#3317	
Model	HH LTO7 FC
Vendor	Tandberg
Device	Drives
Notes	076 - OEM from IBM.
Firmware	G9Q1
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#3318	
Model	HH LTO7 SAS
Vendor	Tandberg
Device	Drives
Notes	076 - OEM from IBM.
Firmware	G9Q1
Supported version	10.0 and 11.0

Operating system	Solaris SPARC

Device#3319	
Model	StoreEver MSL 3040
Vendor	Hewlett Packard Enterprise
Device	Libraries
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	3020
Supported version	11.0
Operating system	Solaris SPARC

Device#3320	
Model	LTO 8 Half-Height
Vendor	Quantum
Device	Drives
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	HB83
Supported version	11.0
Operating system	Solaris SPARC

Device#3321	
Model	PowerVault LTO8 (IBM SAS)
Vendor	Dell
Device	Drives
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	H9E3
Supported version	11.0
Operating system	Solaris SPARC

Device#3322	
Model	HH LTO Gen 8
Vendor	IBM
Device	Drives

Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	N9M1
Supported version	11.0
Operating system	Solaris SPARC
OS Notes	["084 - Supported on the following Linux platforms: RHEL 7.0 64-bit (x86_64) with kernel 3.10.x and glibc 2.17.x; RHEL 8.0 64-bit (x86_64) with kernel 4.18.x and glibc 2.28.x; SuSE Linux 11 Ent. Server 64-bit Edition with kernel 2.6.25 and glibc 2.9.x; SuSE Linux 12 Ent. Server 64-bit Edition with kernel 3.12.x and glibc 2.22.x; SuSE Linux 15 Ent. Server 64-bit Edition with kernel 4.12.x and glibc 2.28.x; Ubuntu 16.04LTS with kernel 5.11.x and glibc-2.23; Ubuntu 18.04LTS with kernel 5.15.x and glibc-2.31"]

Device#3323	
Model	Ultrium-TD8
Vendor	IBM
Device	Drives
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	HB83
Supported version	11.0
Operating system	Solaris SPARC

Device#3324	
Model	ULT3580-HH8
Vendor	IBM
Device	Drives
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	J4D1
Supported version	11.0
Operating system	Solaris SPARC

Device#3325

Model	ULT3580-TD8
Vendor	IBM
Device	Drives
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	HB83
Supported version	11.0
Operating system	Solaris SPARC

Device#3326	
Model	Ultrium-HH8
Vendor	IBM
Device	Drives
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	J4D1
Supported version	11.0
Operating system	Solaris SPARC

Device#3327	
Model	MultiStor
Vendor	BDT
Device	Libraries
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	1.1.1-0000
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#3328	
Model	NEOxl 40
Vendor	Overland-Tandberg
Device	Libraries

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	1.4.0
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#3329	
Model	Dell EMC ML3/ML3e
Vendor	Dell
Device	Libraries
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	1.4.0.0-A07
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#3330	
Model	SL4000
Vendor	Oracle/SUN/STK
Device	Libraries
Firmware	1.0.0.66
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#3331	
Model	LTO 7HH (IBM)
Vendor	Oracle/SUN/STK
Device	Drives
Firmware	FA11
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#3332	
Model	StoreOnce 4xxx Series
Vendor	Hewlett Packard Enterprise
Device	VTLs
Notes	143 - Please visit https://www.hpe.com/Storage/StoreOnceSupportMatrix or https://h20272.www2.hpe.com/SPOCK/Pages/spock2Html.aspx?htmlFile=hw_storeever.html to view the HPE Compatibility Matrix for most current supported firmware revisions for specific drive/library/hba combinations.
Firmware	3.18.5
Supported version	11.0
Operating system	Solaris SPARC

Device#3333	
Model	StoreOnce G4 Series
Vendor	Hewlett Packard Enterprise
Device	VTLs
Notes	143 - Please visit https://www.hpe.com/Storage/StoreOnceSupportMatrix or https://h20272.www2.hpe.com/SPOCK/Pages/spock2Html.aspx?htmlFile=hw_storeever.html to view the HPE Compatibility Matrix for most current supported firmware revisions for specific drive/library/hba combinations.
Firmware	4.1.0, 4.1.3
Supported version	11.0

Operating system	Solaris SPARC

Device#3334	
Model	InfiniGuard B Series
Vendor	Infinidat
Device	VTLs
Notes	193 - VTL functionality supported.
Firmware	4.0.0
Supported version	11.0
Operating system	Solaris SPARC

Device#3335	
Model	DXi 4800
Vendor	Quantum
Device	VTLs
Firmware	v4.1
Supported version	11.0
Operating system	Solaris SPARC

Device#3336	
Model	3592 60F (TS1160)
Vendor	IBM
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	544F
Supported version	11.0
Operating system	Solaris SPARC

Device#3337	
Model	DXi 9000

Vendor	Quantum
Device	VTLs
Firmware	v4.1
Supported version	11.0
Operating system	Solaris SPARC

Device#3338	
Model	ETERNUS LT140
Vendor	Fujitsu
Device	Libraries
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	1.0.0-A000
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#3339	
Model	Spectra Stack
Vendor	Spectra Logic
Device	Libraries
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	BlueVision1.80-20181123F
Supported version	11.0
Operating system	Solaris SPARC

Device#3340	
Model	LPe16xxx Series
Vendor	Emulex
Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	12.2.299.11
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#3341	
Model	LPe31xxx Series
Vendor	Emulex
Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	12.2.299.14

Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#3342	
Model	LPe35xxx Series
Vendor	Emulex
Device	HBAs
Notes	084 - Supported on the following Linux platforms: RHEL 7.0 64-bit (x86_64) with kernel 3.10.x and glibc 2.17.x; RHEL 8.0 64-bit (x86_64) with kernel 4.18.x and glibc 2.28.x; SuSE Linux 11 Ent. Server 64-bit Edition with kernel 2.6.25 and glibc 2.9.x; SuSE Linux 12 Ent. Server 64-bit Edition with kernel 3.12.x and glibc 2.22.x; SuSE Linux 15 Ent. Server 64-bit Edition with kernel 4.12.x and glibc 2.28.x; Ubuntu 16.04LTS with kernel 5.11.x and glibc-2.23; Ubuntu 18.04LTS with kernel 5.15.x and glibc-2.31
Firmware	12.2.299.14
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#3343	
Model	LPe32xxx Series
Vendor	Emulex
Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	12.2.299.14
Supported version	10.0 and 11.0
Operating system	Solaris SPARC

Device#3344	
Model	HH LTO Gen 9
Vendor	IBM
Device	Drives

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Firmware	P371
Supported version	11.0
Operating system	Solaris SPARC

Device#3351	
Model	VTL 2.0
Vendor	Commvault
Device	VTLs
Notes	208 - Supported as of v11.24. Commvault VTL 2.0 is a disk-based library, hosted on a standalone Linux server, that emulates traditional tape devices. Refer to BOL, Expert Documentation, for details to deploy.
Firmware	3.0.50.45
Supported version	11.0
Operating system	Solaris SPARC

Device#3352	
Model	3584 (TS3500)
Vendor	IBM
Device	Libraries
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	G060
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3353	
Model	StoreEver Ultrium 232 SCSI (LTO1)
Vendor	Hewlett Packard Enterprise
Device	Drives

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Operating system	Solaris x86

Device#3361	
Model	StoreEver Ultrium 920 SAS (LTO3 HH)
Vendor	Hewlett Packard Enterprise
Device	Drives

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	Q51D; C26D
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3362	
Model	StoreEver Ultrium 920 SCSI (LTO3 HH)
Vendor	Hewlett Packard Enterprise
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	D24W
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3363	
Model	StoreEver Ultrium 960 FC 2GB (LTO3 FH)
Vendor	Hewlett Packard Enterprise
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	L63W
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3364	
Model	StoreEver Ultrium 960 FC 4GB (LTO3 FH)
Vendor	Hewlett Packard Enterprise
Device	Drives

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	M63W
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3365	
Model	StoreEver Ultrium 960 SCSI (LTO3 FH)
Vendor	Hewlett Packard Enterprise
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. Firmware	A2C4
Supported version	10.0 and 11.0
Operating system	Solaris x86
OS Notes	["110 - This device supported with MINIMUM Qinetix Release version 5.9 on the following Solaris platforms: Solaris 2.6, Solaris 7, Solaris 8, Solaris 9. This device supported with MINIMUM Qinetix Release version 6.1 on the following Solaris platforms: Solaris 10"]

Device#3391	
Model	PV100T DAT72
Vendor	Dell
Device	Drives

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	A16J
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3392	
Model	PV100T DDS4
Vendor	Dell
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Operating system	Solaris x86
OS Notes	["004 - Manufacturer Discontinued"]

Device#3437	
Model	SAS 5/e
Vendor	Dell
Device	HBAs
Notes	118 - OEM from LSI Logic.
Firmware	00.10.51.00
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3438	
Model	QLA200 / QLA210
Vendor	QLogic
Device	HBAs
Firmware	v1.23
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3439	
Model	QLA230x Series
Vendor	QLogic
Device	HBAs

Notes	004 - Manufacturer Discontinued
Firmware	3.03.20
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3440	
Model	QLA231x Series
Vendor	QLogic
Device	HBAs
Notes	066 - Entire QLA231x Series includes the QLA2310x and QLA2312x.
Firmware	v1.54
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3441	
Model	QLA24xx Series
Vendor	QLogic
Device	HBAs
Notes	092 - Entire QLA24xx Series includes: QLA2440, QLA2460, QLA2462
Firmware	v8.01.02
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3442	
Model	QLA4010x
Vendor	QLogic
Device	HBAs
Firmware	3.0.0.18
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3443	
Model	QLA405x Series
Vendor	QLogic
Device	HBAs
Notes	097 - Entire QLA405x Series includes: QLA4050, QLA4052
Firmware	v1.15 (3.0.01.53)
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3444	
Model	QLE24xx Series
Vendor	QLogic
Device	HBAs

Notes	096 - Entire QLE24xx Series includes: QLE2440, QLE2460, QLE2462, QLE2464
Firmware	v8.01.02
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3445	
Model	QLE25xx Series
Vendor	QLogic
Device	HBAs
Notes	149 - Entire QLE25xx Series includes: QLE2560, QLE2562, QLE2564
Firmware	v8.01.02
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3446	
Model	3D Series
Vendor	EMC
Device	VTLs
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Firmware	WS82
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3457	
Model	DAT160 (SCSI)
Vendor	Quantum
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	WP82
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3458	
Model	DAT160 (USB)
Vendor	Quantum
Device	Drives

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	WU82
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3459	
Model	DAT72 (SATA)
Vendor	Quantum
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. Firmware	V45
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3600	
Model	LP10xxx Series
Vendor	Emulex
Device	HBAs
Notes	095 - Entire LP10xxx Series includes: LP10000, LP10000DC, LP1050, LP1050DC, LP10000ExDC, LP1050Ex
Firmware	1.92a5
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3601	
Model	LP11xxx Series
Vendor	Emulex
Device	HBAs
Notes	094 - Entire LP11xxx Series includes: LP11000, LP11002, LP1150
Firmware	2.82a4
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3602	
Model	LP8000
Vendor	Emulex
Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	3.93a0
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3603	
Model	LP9002
Vendor	Emulex
Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	WIN/Linux: 3.92a2; SOL: 3.93a0
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3604	
Model	LP9402DC
Vendor	Emulex

Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	3.93a0
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3605	
Model	LP9802
Vendor	Emulex
Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	1.92a1
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3606	
Model	LP9xxx Series
Vendor	Emulex
Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	1.92a1/3.93a0
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3607	
Model	LPe11xxx Series
Vendor	Emulex
Device	HBAs
Notes	093 - Entire LPe11xxx Series includes: LPe11000, LPe11002, LPe1150
Firmware	2.82a4
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3608	
Model	LPe12xxx Series
Vendor	Emulex
Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	2.02.a4
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3609	
Model	FalconStor VTL
Vendor	FalconStor

Device	VTLs
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Firmware	WP8A
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3612	
Model	Diamond VTL
Vendor	ATTO
Device	VTLs
Notes	004 - Manufacturer Discontinued
Firmware	0001
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3613	
Model	StoreWay Virtuo Family
Vendor	Bull
Device	VTLs
Firmware	7.1
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3614	
Model	Data Domain VTL
Vendor	Dell EMC Data Domain

Device	VTLs
Notes	115 - DataDomain VTL Software option is supported on the follwing platorms: DDX Array Series, Appliance Series, Gateway Series.
Firmware	6.1.x.x, 6.2.x.x , 7.1.x.x
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3615	
Model	StoreOnce G3 Series
Vendor	Hewlett Packard Enterprise
Device	VTLs
Notes	143 - Please visit https://www.hpe.com/Storage/StoreOnceSupportMatrix or https://h20272.www2.hpe.com/SPOCK/Pages/spock2Html.aspx?htmlFile=hw_storeever.html to view the HPE Compatibility Matrix for most current supported firmware revisions for specific drive/library/hba combinations.
Firmware	3.13.x
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3616	
Model	VLS 12x00 Series
Vendor	Hewlett Packard Enterprise
Device	VTLs
Notes	143 - Please visit https://www.hpe.com/Storage/StoreOnceSupportMatrix or https://h20272.www2.hpe.com/SPOCK/Pages/spock2Html.aspx?htmlFile=hw_storeever.html to view the HPE Compatibility Matrix for most current supported firmware revisions for specific drive/library/hba combinations.
Firmware	6.1.0
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3617	
Model	TS7510
Vendor	IBM
Device	VTLs
Firmware	v1.1 Build 1143 (update-ve114311)
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3618	
Model	TS7520
Vendor	IBM
Device	VTLs
Firmware	update-ve1382upto34-SP06
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3619	
Model	TS7530
Vendor	IBM
Device	VTLs
Firmware	update-ve150715
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3620	
Model	TS7650
Vendor	IBM
Device	VTLs
Firmware	3.3.0; 3.4.0
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3621	
Model	NetApp VTL
Vendor	NetApp
Device	VTLs
Notes	102 - Supprt for the VTLs ShadowCopy functionality is added in Galaxy 7.0.
Firmware	5.6.3
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3622	
Model	REO Series
Vendor	Overland Storage
Device	VTLs
Firmware	5.0.3.17
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3623	
Model	DX Series
Vendor	Quantum

Device	VTLs
Notes	145 - The following minimum firmware revisions are necessary on the VTL to correct performance issues for hardware deduplication when used with Simpana 8.0: DXi7500 DXi6500 The fix for those are in release 1.4 of the fw. DXi4500 The fix for those are in release 1.3.1 of the fw. DXi2500-D The fix for those are in release 1.1.1.4_25 DXi3500 DXi5500 The fix for those are in release 1.7.3.1 of the fw
Firmware	1.7.3.1
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3624	
Model	DXi 6700/6802 Series
Vendor	Quantum
Device	VTLs
Notes	145 - The following minimum firmware revisions are necessary on the VTL to correct performance issues for hardware deduplication when used with Simpana 8.0: DXi7500 DXi6500 The fix for those are in release 1.4 of the fw. DXi4500 The fix for those are in release 1.3.1 of the fw. DXi2500-D The fix for those are in release 1.1.1.4_25 DXi3500 DXi5500 The fix for those are in release 1.7.3.1 of the fw
Firmware	v2.2_68, v2.3.0
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3625	
Model	DXi 7500
Vendor	Quantum
Device	VTLs

Notes	145 - The following minimum firmware revisions are necessary on the VTL to correct performance issues for hardware deduplication when used with Simpana 8.0: DXi7500 DXi6500 The fix for those are in release 1.4 of the fw. DXi4500 The fix for those are in release 1.3.1 of the fw. DXi2500-D The fix for those are in release 1.1.1.4_25 DXi3500 DXi5500 The fix for those are in release 1.7.3.1 of the fw
Firmware	v2.1
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3626	
Model	DXi 3500/5500
Vendor	Quantum
Device	VTLs
Notes	145 - The following minimum firmware revisions are necessary on the VTL to correct performance issues for hardware deduplication when used with Simpana 8.0: DXi7500 DXi6500 The fix for those are in release 1.4 of the fw. Firmware	1.7.3.1
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3627	
Model	S2100
Vendor	Sepaton
Device	VTLs
Firmware	2.0.4
Supported version	10.0 and 11.0

Operating system	Solaris x86

Device#3628	
Model	DPS1000 Series
Vendor	Tandberg
Device	VTLs
Firmware	1.5.1
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3629	
Model	230-HV
Vendor	ATTO
Device	Bridges
Notes	004 - Manufacturer Discontinued
Firmware	2.10
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3630	
Model	2300L
Vendor	ATTO
Device	Bridges
Notes	004 - Manufacturer Discontinued
Firmware	2.31
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3631	
Model	2400
Vendor	ATTO
Device	Bridges
Firmware	2.41
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3632	
Model	10000
Vendor	Crossroads
Device	Bridges
Notes	002 - Entire Series/Family Supported
Firmware	4.03.1
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3633

Model	4x50
Vendor	Crossroads
Device	Bridges
Notes	002 - Entire Series/Family Supported
Firmware	2009j
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3634	
Model	8000
Vendor	Crossroads
Device	Bridges
Notes	002 - Entire Series/Family Supported
Firmware	4.03AI
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3635	
Model	F-QIP
Vendor	Spectra Logic
Device	Bridges
Notes	029 - Internal FCO bridge designed for Spectralogic Gator Series libraries
Firmware	7.8.4.0
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3636	
Model	DAT40 (C5683A)
Vendor	Hewlett Packard Enterprise
Device	Drives

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	C305
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3637	
Model	StoreEver DAT72
Vendor	Hewlett Packard Enterprise
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Firmware	0100
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3754	
Model	ACSLS
Vendor	Oracle/SUN/STK
Device	IP Controllers
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3755	
Model	SN6000
Vendor	Oracle/SUN/STK
Device	IP Controllers
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3756	
Model	DXi 8500 Series
Vendor	Quantum
Device	VTLs
Firmware	V2.1.2_85, v2.3.0
Supported version	10.0 and 11.0

Operating system	Solaris x86

Device#3757	
Model	nTier
Vendor	Spectra Logic
Device	VTLs
Firmware	5.2
Supported version	10.0 and 11.0
Operating system	Solaris x86

Model	StoreOnce 6xxx Series
Vendor	Hewlett Packard Enterprise
Device	VTLs
Notes	143 - Please visit https://www.hpe.com/Storage/StoreOnceSupportMatrix or https://h20272.www2.hpe.com/SPOCK/Pages/spock2Html.aspx?htmlFile=hw_storeever.html to view the HPE Compatibility Matrix for most current supported firmware revisions for specific drive/library/hba combinations.
Firmware	3.18.x(6600 and 6500)
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3774	
Model	SL150
Vendor	Oracle/SUN/STK
Device	Libraries

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	2.01; 2.25; 2.60
Supported version	10.0 and 11.0
Operating system	Solaris x86
OS Notes	["001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Firmware	35PW
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3779	
Model	Ultrium-HH6
Vendor	IBM
Device	Drives
Firmware	J451
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3780	
Model	ULT3580-HH6
Vendor	IBM
Device	Drives
Firmware	J451
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3781	
Model	HH LTO Gen 6
Vendor	IBM
Device	Drives
Firmware	K4M1
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3782

Model	PV114X LTO6 (IBM SAS)
Vendor	Dell
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Firmware	Z55S
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3795	
Model	LTO 6HH (HP)
Vendor	Oracle/SUN/STK
Device	Drives
Firmware	22GS
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3796	
Model	D2D G1 StoreOnce Series
Vendor	Hewlett Packard Enterprise
Device	VTLs
Notes	143 - Please visit https://www.hpe.com/Storage/StoreOnceSupportMatrix or https://h20272.www2.hpe.com/SPOCK/Pages/spock2Html.aspx?htmlFile=hw_storeever.html to view the HPE Compatibility Matrix for most current supported firmware revisions for specific drive/library/hba combinations.
Firmware	1.2.19
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3797	
Model	D2D G2 StoreOnce Series
Vendor	Hewlett Packard Enterprise
Device	VTLs
Notes	143 - Please visit https://www.hpe.com/Storage/StoreOnceSupportMatrix or https://h20272.www2.hpe.com/SPOCK/Pages/spock2Html.aspx?htmlFile=hw_storeever.html to view the HPE Compatibility Matrix for most current supported firmware revisions for specific drive/library/hba combinations.
Firmware	2.3.0 / 3.6.5
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3798	
Model	T120
Vendor	Spectra Logic

Device	Libraries
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	BlueScale12.7.03-20170726F
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3799	
Model	Data Domain DD4xx VTL Series
Vendor	Dell EMC Data Domain
Device	VTLs
Notes	168 - All DataDomain emulated device types for this family of VTL are supported.
Firmware	4.3.3, 4.9.4.5
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3800	
Model	StoreEver MSL 6480
Vendor	Hewlett Packard Enterprise
Device	Libraries
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Operating system	Solaris x86

Device#3814	
Model	HH LTO Gen 7
Vendor	IBM
Device	Drives
Notes	179 - Supported IBM LTO7 firmware revisions: Stand-alone (bridgebox): FA10 FH, FA11 HH Within libraries: TS4500 (3584): F981 TS3500 (3584): F981 TS3310 (3576): FA11 TS3200 (3573): FA11 TS3100 (3573): FA11 TS2900 (3572): FA11
Firmware	K4K1
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3815

Model	ULT3580-HH7
Vendor	IBM
Device	Drives
Notes	179 - Supported IBM LTO7 firmware revisions: Stand-alone (bridgebox): FA10 FH, FA11 HH Within libraries: TS4500 (3584): F981 TS3500 (3584): F981 TS3310 (3576): FA11 TS3200 (3573): FA11 TS3100 (3573): FA11 TS2900 (3572): FA11
Firmware	J4D1
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3816	
Model	ULT3580-TD7
Vendor	IBM
Device	Drives
Notes	179 - Supported IBM LTO7 firmware revisions: Stand-alone (bridgebox): FA10 FH, FA11 HH Within libraries: TS4500 (3584): F981 TS3500 (3584): F981 TS3310 (3576): FA11 TS3200 (3573): FA11 TS3100 (3573): FA11 TS2900 (3572): FA11
Firmware	FA10
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3817	
Model	Ultrium-TD7
Vendor	IBM
Device	Drives
Notes	179 - Supported IBM LTO7 firmware revisions: Stand-alone (bridgebox): FA10 FH, FA11 HH Within libraries: TS4500 (3584): F981 TS3500 (3584): F981 TS3310 (3576): FA11 TS3200 (3573): FA11 TS3100 (3573): FA11 TS2900 (3572): FA11

Firmware	FA10
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3818	
Model	Ultrium-HH7
Vendor	IBM
Device	Drives
Notes	179 - Supported IBM LTO7 firmware revisions: Stand-alone (bridgebox): FA10 FH, FA11 HH Within libraries: TS4500 (3584): F981 TS3500 (3584): F981 TS3310 (3576): FA11 TS3200 (3573): FA11 TS3100 (3573): FA11 TS2900 (3572): FA11
Firmware	J4D1
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3819	
Model	PowerVault LTO7 (IBM SAS)
Vendor	Dell
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	G341
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3820	
Model	PV114X LTO7 (IBM SAS)
Vendor	Dell
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	FA11
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3821	
Model	StoreEver Ultrium 15000 SAS (LTO7 HH)
Vendor	Hewlett Packard Enterprise
Device	Drives
Notes	181 - Support has been added as of Simpana 10.0 SP11 and forward.
Firmware	M571, N4Q1
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3822	
Model	StoreEver Ultrium 15750 FC (LTO7 FH)
Vendor	Hewlett Packard Enterprise
Device	Drives
Notes	181 - Support has been added as of Simpana 10.0 SP11 and forward.
Firmware	HB80
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3823	
Model	StoreEver Ultrium 15000 FC (LTO7 HH)
Vendor	Hewlett Packard Enterprise
Device	Drives
Notes	181 - Support has been added as of Simpana 10.0 SP11 and forward.
Firmware	M571, N4Q1
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3824	
Model	StoreEver Ultrium 6650 SAS (LTO6 FH)
Vendor	Hewlett Packard Enterprise
Device	Drives
Firmware	05ID
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3825	
Model	LTO 7 Half-Height
Vendor	Quantum
Device	Drives
Notes	181 - Support has been added as of Simpana 10.0 SP11 and forward.
Firmware	H5B3
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3826	
Model	StoreOnce 5xxx Series
Vendor	Hewlett Packard Enterprise
Device	VTLs
Notes	143 - Please visit https://www.hpe.com/Storage/StoreOnceSupportMatrix or https://h20272.www2.hpe.com/SPOCK/Pages/spock2Html.aspx?htmlFile=hw_storeever.html to view the HPE Compatibility Matrix for most current supported firmware revisions for specific drive/library/hba combinations.
Firmware	3.18.x
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3827

Model	3592 EH8/E08 (TS1150)
Vendor	IBM
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	460E
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3828	
Model	StoreOnce 3xxx Series
Vendor	Hewlett Packard Enterprise
Device	VTLs
Notes	143 - Please visit https://www.hpe.com/Storage/StoreOnceSupportMatrix or https://h20272.www2.hpe.com/SPOCK/Pages/spock2Html.aspx?htmlFile=hw_storeever.html to view the HPE Compatibility Matrix for most current supported firmware revisions for specific drive/library/hba combinations.
Firmware	3.18.x
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3829	
Model	Virtual Storage Manager System 7
Vendor	Oracle/SUN/STK
Device	VTLs
Firmware	7.1.x
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3830	
Model	Scalar i3
Vendor	Quantum
Device	Libraries
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. Firmware	1.5.0.0
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3834	
Model	Backup Appliance B4260
Vendor	Infinidat
Device	VTLs
Notes	193 - VTL functionality supported.
Firmware	1.3.3.1
Supported version	11.0
Operating system	Solaris x86

Device#3835	
Model	HH LTO7 FC
Vendor	Tandberg
Device	Drives
Notes	076 - OEM from IBM.
Firmware	G9Q1
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3836	
Model	HH LTO7 SAS
Vendor	Tandberg
Device	Drives
Notes	076 - OEM from IBM.
Firmware	G9Q1
Supported version	10.0 and 11.0

Operating system	Solaris x86

Device#3837	
Model	StoreEver MSL 3040
Vendor	Hewlett Packard Enterprise
Device	Libraries
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	3020
Supported version	11.0
Operating system	Solaris x86

Device#3838	
Model	PowerVault LTO8 (IBM SAS)
Vendor	Dell
Device	Drives
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	H9E3
Supported version	11.0
Operating system	Solaris x86

Device#3839	
Model	HH LTO Gen 8
Vendor	IBM
Device	Drives
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	N9M1
Supported version	11.0
Operating system	Solaris x86

Device#3840	
Model	Ultrium-TD8
Vendor	IBM
Device	Drives

Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	HB83
Supported version	11.0
Operating system	Solaris x86

Device#3841	
Model	ULT3580-HH8
Vendor	IBM
Device	Drives
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	J4D1
Supported version	11.0
Operating system	Solaris x86

Device#3842	
Model	ULT3580-TD8
Vendor	IBM
Device	Drives
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	HB83
Supported version	11.0
Operating system	Solaris x86

Device#3843	
Model	Ultrium-HH8
Vendor	IBM
Device	Drives
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	J4D1
Supported version	11.0
Operating system	Solaris x86

Device#3844	
Model	MultiStor
Vendor	BDT
Device	Libraries
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	1.1.1-0000
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3845	
Model	NEOxl 40
Vendor	Overland-Tandberg
Device	Libraries
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	1.4.0
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3846	
Model	Dell EMC ML3/ML3e
Vendor	Dell
Device	Libraries

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	1.4.0.0-A07
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3847	
Model	SL4000
Vendor	Oracle/SUN/STK
Device	Libraries
Firmware	1.0.0.66
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3848	
Model	LTO 7HH (IBM)
Vendor	Oracle/SUN/STK
Device	Drives
Firmware	FA11
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3849	
Model	StoreOnce 4xxx Series
Vendor	Hewlett Packard Enterprise
Device	VTLs

Notes	143 - Please visit https://www.hpe.com/Storage/StoreOnceSupportMatrix or https://h20272.www2.hpe.com/SPOCK/Pages/spock2Html.aspx?htmlFile=hw_storeever.html to view the HPE Compatibility Matrix for most current supported firmware revisions for specific drive/library/hba combinations.
Firmware	3.18.5
Supported version	11.0
Operating system	Solaris x86

Device#3850	
Model	StoreOnce G4 Series
Vendor	Hewlett Packard Enterprise
Device	VTLs
Notes	143 - Please visit https://www.hpe.com/Storage/StoreOnceSupportMatrix or https://h20272.www2.hpe.com/SPOCK/Pages/spock2Html.aspx?htmlFile=hw_storeever.html to view the HPE Compatibility Matrix for most current supported firmware revisions for specific drive/library/hba combinations.
Firmware	4.1.0, 4.1.3
Supported version	11.0
Operating system	Solaris x86

Device#3851	
Model	InfiniGuard B Series
Vendor	Infinidat
Device	VTLs
Notes	193 - VTL functionality supported.
Firmware	4.0.0
Supported version	11.0
Operating system	Solaris x86

Device#3852	
Model	DXi 4800
Vendor	Quantum
Device	VTLs
Firmware	v4.1
Supported version	11.0
Operating system	Solaris x86

Device#3853	
Model	3592 60F (TS1160)

Vendor	IBM
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	544F
Supported version	11.0
Operating system	Solaris x86

Device#3854	
Model	DXi 9000
Vendor	Quantum
Device	VTLs
Firmware	v4.1
Supported version	11.0
Operating system	Solaris x86

Device#3855	
Model	ETERNUS LT140
Vendor	Fujitsu
Device	Libraries
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	1.0.0-A000
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3856	
Model	Spectra Stack

Vendor	Spectra Logic
Device	Libraries
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	BlueVision1.80-20181123F
Supported version	11.0
Operating system	Solaris x86

Device#3857	
Model	LPe31xxx Series
Vendor	Emulex
Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	12.2.299.14
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3858	
Model	LPe35xxx Series
Vendor	Emulex
Device	HBAs
Notes	084 - Supported on the following Linux platforms: RHEL 7.0 64-bit (x86_64) with kernel 3.10.x and glibc 2.17.x; RHEL 8.0 64-bit (x86_64) with kernel 4.18.x and glibc 2.28.x; SuSE Linux 11 Ent. Server 64-bit Edition with kernel 2.6.25 and glibc 2.9.x; SuSE Linux 12 Ent. Server 64-bit Edition with kernel 3.12.x and glibc 2.22.x; SuSE Linux 15 Ent. Server 64-bit Edition with kernel 4.12.x and glibc 2.28.x; Ubuntu 16.04LTS with kernel 5.11.x and glibc-2.23; Ubuntu 18.04LTS with kernel 5.15.x and glibc-2.31
Firmware	12.2.299.14
Supported version	10.0 and 11.0
Operating system	Solaris x86

Device#3859	
Model	LPe32xxx Series
Vendor	Emulex
Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	12.2.299.14
Supported version	10.0 and 11.0

Operating system	Solaris x86

Device#3860	
Model	HH LTO Gen 9
Vendor	IBM
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.

Firmware	NCA1
Supported version	11.0
Operating system	Solaris x86

Device#3865	
Model	StoreEver Ultrium 45000 FC & SAS (LTO-9 HH)
Vendor	Hewlett Packard Enterprise
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	NCA1
Supported version	11.0
Operating system	Solaris x86

Device#3866	
Model	LTO 9 Half-Height
Vendor	Quantum
Device	Drives

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	P371
Supported version	11.0
Operating system	Solaris x86

Device#3867	
Model	VTL 2.0
Vendor	Commvault
Device	VTLs
Notes	208 - Supported as of v11.24. Commvault VTL 2.0 is a disk-based library, hosted on a standalone Linux server, that emulates traditional tape devices. Refer to BOL, Expert Documentation, for details to deploy.
Firmware	3.0.50.45
Supported version	11.0
Operating system	Solaris x86

Device#3868	
Model	3584 (TS3500)
Vendor	IBM
Device	Libraries
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	G060
Supported version	10.0 and 11.0
Operating system	AIX

OS Notes	["132 - V10 MA support includes AIX versions 5.3, 6.1 and 7.1. V11 MA support includes AIX versions 6.1, 7.1 and 7.2. Please refer to BOL documentation MediaAgent System Requirements for full listing."]

Device#3869	
Model	StoreEver Ultrium 232 SCSI (LTO1)
Vendor	Hewlett Packard Enterprise
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.

Firmware	BBH4
Supported version	10.0 and 11.0
Operating system	AIX

Device#4285	
Model	IBM LTO 5
Vendor	Oracle/SUN/STK
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Firmware	Z55S
Supported version	10.0 and 11.0
Operating system	AIX

Device#4288	
Model	LTO 6HH (HP)
Vendor	Oracle/SUN/STK
Device	Drives
Firmware	22GS
Supported version	10.0 and 11.0
Operating system	AIX

Device#4289	
Model	D2D G1 StoreOnce Series
Vendor	Hewlett Packard Enterprise
Device	VTLs
Notes	143 - Please visit https://www.hpe.com/Storage/StoreOnceSupportMatrix or https://h20272.www2.hpe.com/SPOCK/Pages/spock2Html.aspx?htmlFile=hw_storeever.html to view the HPE Compatibility Matrix for most current supported firmware revisions for specific drive/library/hba combinations.
Firmware	1.2.19
Supported version	10.0 and 11.0
Operating system	AIX

Device#4290	
Model	D2D G2 StoreOnce Series
Vendor	Hewlett Packard Enterprise
Device	VTLs
Notes	143 - Please visit https://www.hpe.com/Storage/StoreOnceSupportMatrix or https://h20272.www2.hpe.com/SPOCK/Pages/spock2Html.aspx?htmlFile=hw_storeever.html to view the HPE Compatibility Matrix for most current supported firmware revisions for specific drive/library/hba combinations.
Firmware	2.3.0 / 3.6.5
Supported version	10.0 and 11.0
Operating system	AIX

Device#4291	
Model	T120
Vendor	Spectra Logic
Device	Libraries

Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	BlueScale12.7.03-20170726F
Supported version	10.0 and 11.0
Operating system	AIX
OS Notes	["132 - V10 MA support includes AIX versions 5.3, 6.1 and 7.1. V11 MA support includes AIX versions 6.1, 7.1 and 7.2. Please refer to BOL documentation MediaAgent System Requirements for full listing."]

Device#4292	
Model	Data Domain DD4xx VTL Series
Vendor	Dell EMC Data Domain
Device	VTLs
Notes	168 - All DataDomain emulated device types for this family of VTL are supported.
Firmware	4.3.3, 4.9.4.5
Supported version	10.0 and 11.0
Operating system	AIX

Device#4293	
Model	OceanStor VTL6900
Vendor	HuaWei
Device	VTLs
Firmware	V100R005
Supported version	10.0 and 11.0
Operating system	AIX
OS Notes	["132 - V10 MA support includes AIX versions 5.3, 6.1 and 7.1. V11 MA support includes AIX versions 6.1, 7.1 and 7.2. Please refer to BOL documentation MediaAgent System Requirements for full listing."]

Vendor	IBM
Device	Libraries
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	1.5.0.0
Supported version	10.0 and 11.0
Operating system	AIX

Device#4329	
Model	Backup Appliance B4260
Vendor	Infinidat
Device	VTLs
Notes	193 - VTL functionality supported.
Firmware	1.3.3.1
Supported version	11.0
Operating system	AIX

Device#4330	
Model	HH LTO7 FC
Vendor	Tandberg
Device	Drives
Notes	076 - OEM from IBM.
Firmware	G9Q1
Supported version	10.0 and 11.0
Operating system	AIX

Device#4331	
Model	HH LTO7 SAS

Vendor	Tandberg
Device	Drives
Notes	076 - OEM from IBM.
Firmware	G9Q1
Supported version	10.0 and 11.0
Operating system	AIX

Device#4332	
Model	StoreEver MSL 3040
Vendor	Hewlett Packard Enterprise
Device	Libraries
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	3020
Supported version	11.0
Operating system	AIX

Device#4333	
Model	LTO 8 Half-Height
Vendor	Quantum
Device	Drives
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	HB83
Supported version	11.0
Operating system	AIX

Device#4334	
Model	PowerVault LTO8 (IBM SAS)
Vendor	Dell
Device	Drives
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	H9E3
Supported version	11.0
Operating system	AIX

Device#4335

Model	HH LTO Gen 8
Vendor	IBM
Device	Drives
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	N9M1
Supported version	11.0
Operating system	AIX

Device#4336	
Model	Ultrium-TD8
Vendor	IBM
Device	Drives
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	HB83
Supported version	11.0
Operating system	AIX

Device#4337	
Model	ULT3580-HH8
Vendor	IBM
Device	Drives
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	J4D1
Supported version	11.0
Operating system	AIX

Device#4338	
Model	ULT3580-TD8
Vendor	IBM
Device	Drives
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	HB83

Supported version	11.0
Operating system	AIX

Device#4339	
Model	Ultrium-HH8
Vendor	IBM
Device	Drives
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	J4D1
Supported version	11.0
Operating system	AIX

Device#4340	
Model	StoreEver Ultrium 30750 FC & SAS (LTO-8 HH)
Vendor	Hewlett Packard Enterprise
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	HB87
Supported version	11.0
Operating system	AIX

Device#4341	
Model	MultiStor
Vendor	BDT
Device	Libraries

Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	1.1.1-0000
Supported version	10.0 and 11.0
Operating system	AIX

Device#4342	
Model	NEOxl 40
Vendor	Overland-Tandberg
Device	Libraries
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. Firmware	1.4.0.0-A07
Supported version	10.0 and 11.0
Operating system	AIX

Device#4344	
Model	SL4000
Vendor	Oracle/SUN/STK
Device	Libraries
Firmware	1.0.0.66
Supported version	10.0 and 11.0
Operating system	AIX

Device#4345	
Model	LTO 7HH (IBM)
Vendor	Oracle/SUN/STK
Device	Drives
Firmware	FA11
Supported version	10.0 and 11.0
Operating system	AIX

Device#4346	
Model	StoreOnce 4xxx Series
Vendor	Hewlett Packard Enterprise
Device	VTLs

Notes	143 - Please visit https://www.hpe.com/Storage/StoreOnceSupportMatrix or https://h20272.www2.hpe.com/SPOCK/Pages/spock2Html.aspx?htmlFile=hw_storeever.html to view the HPE Compatibility Matrix for most current supported firmware revisions for specific drive/library/hba combinations.
Firmware	3.18.5
Supported version	11.0
Operating system	AIX

Device#4347	
Model	StoreOnce G4 Series
Vendor	Hewlett Packard Enterprise
Device	VTLs
Notes	143 - Please visit https://www.hpe.com/Storage/StoreOnceSupportMatrix or https://h20272.www2.hpe.com/SPOCK/Pages/spock2Html.aspx?htmlFile=hw_storeever.html to view the HPE Compatibility Matrix for most current supported firmware revisions for specific drive/library/hba combinations.
Firmware	4.1.0, 4.1.3
Supported version	11.0
Operating system	AIX

Device#4348	
Model	InfiniGuard B Series
Vendor	Infinidat
Device	VTLs
Notes	193 - VTL functionality supported.
Firmware	4.0.0
Supported version	11.0
Operating system	AIX

Device#4349	
Model	DXi 4800
Vendor	Quantum
Device	VTLs
Firmware	v4.1
Supported version	11.0
Operating system	AIX

Device#4350	
Model	3592 60F (TS1160)

Vendor	IBM
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. Firmware	544F
Supported version	11.0
Operating system	AIX

Device#4351	
Model	DXi 9000
Vendor	Quantum
Device	VTLs
Firmware	v4.1
Supported version	11.0
Operating system	AIX

Device#4352	
Model	ETERNUS LT140
Vendor	Fujitsu
Device	Libraries
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	1.0.0-A000
Supported version	10.0 and 11.0
Operating system	AIX

Device#4353	
Model	Spectra Stack

Vendor	Spectra Logic
Device	Libraries
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	BlueVision1.80-20181123F
Supported version	11.0
Operating system	AIX

Device#4354	
Model	HH LTO Gen 9
Vendor	IBM
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Firmware	P371
Supported version	11.0
Operating system	AIX

Device#4361	
Model	VTL 2.0
Vendor	Commvault
Device	VTLs
Notes	208 - Supported as of v11.24. Commvault VTL 2.0 is a disk-based library, hosted on a standalone Linux server, that emulates traditional tape devices. Refer to BOL, Expert Documentation, for details to deploy.
Firmware	3.0.50.45
Supported version	11.0
Operating system	AIX

Device#4362	
Model	3584 (TS3500)
Vendor	IBM
Device	Libraries
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	G060
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4363	
Model	StoreEver Ultrium 232 SCSI (LTO1)
Vendor	Hewlett Packard Enterprise
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. Notes	004 - Manufacturer Discontinued
Firmware	310_005
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4535	
Model	3583
Vendor	IBM
Device	Libraries
Notes	004 - Manufacturer Discontinued
Firmware	3.30.08; 6.13.0002
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4536	
Model	4560-SLX
Vendor	IBM
Device	Libraries
Notes	004 - Manufacturer Discontinued
Firmware	4.29
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4537	
Model	7337
Vendor	IBM
Device	Libraries
Notes	004 - Manufacturer Discontinued
Firmware	1.71
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4538	
Model	FrankeNAS
Vendor	Idealstor
Device	Libraries

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	Not posted
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4539	
Model	LL009F
Vendor	NEC
Device	Libraries
Notes	203 - Certified drive FW/driver revisions: IBM Ultrium-HH4 BBH5, Ultrium-HH5 F997, Ultrium-HH6 F9A7, Ultrium-HH7 H5B5

Firmware	Not posted
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4608	
Model	A6795A
Vendor	Hewlett Packard Enterprise
Device	HBAs
Notes	143 - Please visit https://www.hpe.com/Storage/StoreOnceSupportMatrix or https://h20272.www2.hpe.com/SPOCK/Pages/spock2Html.aspx?htmlFile=hw_storeever.html to view the HPE Compatibility Matrix for most current supported firmware revisions for specific drive/library/hba combinations.
Firmware	1.10
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4609	
Model	A6826A
Vendor	Hewlett Packard Enterprise

Device	HBAs
Notes	143 - Please visit https://www.hpe.com/Storage/StoreOnceSupportMatrix or https://h20272.www2.hpe.com/SPOCK/Pages/spock2Html.aspx?htmlFile=hw_storeever.html to view the HPE Compatibility Matrix for most current supported firmware revisions for specific drive/library/hba combinations.
Firmware	Not posted
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4610	
Model	FalconStor VTL
Vendor	FalconStor
Device	VTLs
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	5.00A
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4611	
Model	StoreEver DAT160 SCSI
Vendor	Hewlett Packard Enterprise
Device	Drives

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	WP8A
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4612	
Model	Diamond VTL
Vendor	ATTO
Device	VTLs
Notes	004 - Manufacturer Discontinued
Firmware	0001
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4613	
Model	StoreWay Virtuo Family
Vendor	Bull
Device	VTLs
Firmware	7.1
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4614	
Model	Data Domain VTL
Vendor	Dell EMC Data Domain
Device	VTLs
Notes	115 - DataDomain VTL Software option is supported on the follwing platorms: DDX Array Series, Appliance Series, Gateway Series.
Firmware	6.1.x.x, 6.2.x.x , 7.1.x.x

Supported version	10.0 and 11.0
Operating system	HPUX

Device#4615	
Model	StoreOnce G3 Series
Vendor	Hewlett Packard Enterprise
Device	VTLs
Notes	143 - Please visit https://www.hpe.com/Storage/StoreOnceSupportMatrix or https://h20272.www2.hpe.com/SPOCK/Pages/spock2Html.aspx?htmlFile=hw_storeever.html to view the HPE Compatibility Matrix for most current supported firmware revisions for specific drive/library/hba combinations.
Firmware	3.13.x
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4616	
Model	VLS 12x00 Series
Vendor	Hewlett Packard Enterprise
Device	VTLs
Notes	143 - Please visit https://www.hpe.com/Storage/StoreOnceSupportMatrix or https://h20272.www2.hpe.com/SPOCK/Pages/spock2Html.aspx?htmlFile=hw_storeever.html to view the HPE Compatibility Matrix for most current supported firmware revisions for specific drive/library/hba combinations.
Firmware	6.1.0
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4617	
Model	VLS 6x00 Series
Vendor	Hewlett Packard Enterprise
Device	VTLs
Notes	143 - Please visit https://www.hpe.com/Storage/StoreOnceSupportMatrix or https://h20272.www2.hpe.com/SPOCK/Pages/spock2Html.aspx?htmlFile=hw_storeever.html to view the HPE Compatibility Matrix for most current supported firmware revisions for specific drive/library/hba combinations.

Firmware	3.4.1.1
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4618	
Model	VLS 9x00 Series
Vendor	Hewlett Packard Enterprise
Device	VTLs
Notes	143 - Please visit https://www.hpe.com/Storage/StoreOnceSupportMatrix or https://h20272.www2.hpe.com/SPOCK/Pages/spock2Html.aspx?htmlFile=hw_storeever.html to view the HPE Compatibility Matrix for most current supported firmware revisions for specific drive/library/hba combinations.
Firmware	6.1.0
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4619	
Model	TS7510
Vendor	IBM
Device	VTLs
Firmware	v1.1 Build 1143 (update-ve114311)
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4620	
Model	TS7520
Vendor	IBM
Device	VTLs
Firmware	update-ve1382upto34-SP06
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4621	
Model	TS7530
Vendor	IBM
Device	VTLs
Firmware	update-ve150715
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4622	
Model	TS7650

Vendor	IBM
Device	VTLs
Firmware	3.3.0; 3.4.0
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4623	
Model	NetApp VTL
Vendor	NetApp
Device	VTLs
Notes	102 - Supprt for the VTLs ShadowCopy functionality is added in Galaxy 7.0.
Firmware	5.6.3
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4624	
Model	REO Series
Vendor	Overland Storage
Device	VTLs
Firmware	5.0.3.17
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4625	
Model	DX Series
Vendor	Quantum
Device	VTLs
Notes	145 - The following minimum firmware revisions are necessary on the VTL to correct performance issues for hardware deduplication when used with Simpana 8.0: DXi7500 DXi6500 The fix for those are in release 1.4 of the fw. DXi4500 The fix for those are in release 1.3.1 of the fw. DXi2500-D The fix for those are in release 1.1.1.4_25 DXi3500 DXi5500 The fix for those are in release 1.7.3.1 of the fw
Firmware	1.7.3.1
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4626	
Model	DXi 6700/6802 Series
Vendor	Quantum
Device	VTLs
Notes	145 - The following minimum firmware revisions are necessary on the VTL to correct performance issues for hardware deduplication when used with Simpana 8.0: DXi7500 DXi6500 The fix for those are in release 1.4 of the fw. DXi4500 The fix for those are in release 1.3.1 of the fw. DXi2500-D The fix for those are in release 1.1.1.4_25 DXi3500 DXi5500 The fix for those are in release 1.7.3.1 of the fw
Firmware	v2.2_68, v2.3.0
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4627	
Model	DXi 7500
Vendor	Quantum
Device	VTLs
Notes	145 - The following minimum firmware revisions are necessary on the VTL to correct performance issues for hardware deduplication when used with Simpana 8.0: DXi7500 DXi6500 The fix for those are in release 1.4 of the fw. DXi4500 The fix for those are in release 1.3.1 of the fw. DXi2500-D The fix for those are in release 1.1.1.4_25 DXi3500 DXi5500 The fix for those are in release 1.7.3.1 of the fw
Firmware	v2.1
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4628

Model	DXi 3500/5500
Vendor	Quantum
Device	VTLs
Notes	145 - The following minimum firmware revisions are necessary on the VTL to correct performance issues for hardware deduplication when used with Simpana 8.0: DXi7500 DXi6500 The fix for those are in release 1.4 of the fw. Firmware	1.7.3.1
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4629	
Model	S2100
Vendor	Sepaton
Device	VTLs
Firmware	2.0.4
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4630	
Model	DPS1000 Series
Vendor	Tandberg
Device	VTLs
Firmware	1.5.1
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4631	
Model	230-HV
Vendor	ATTO
Device	Bridges
Notes	004 - Manufacturer Discontinued
Firmware	2.10
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4632	
Model	2300L
Vendor	ATTO
Device	Bridges
Notes	004 - Manufacturer Discontinued
Firmware	2.31
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4633	
Model	2400
Vendor	ATTO
Device	Bridges
Firmware	2.41
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4634	
Model	4x50
Vendor	Crossroads
Device	Bridges
Notes	002 - Entire Series/Family Supported
Firmware	2009j
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4635	
Model	F-QIP
Vendor	Spectra Logic
Device	Bridges
Notes	029 - Internal FCO bridge designed for Spectralogic Gator Series libraries
Firmware	7.8.4.0
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4636	
Model	StoreEver DAT72
Vendor	Hewlett Packard Enterprise
Device	Drives

While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.

Firmware	V911D
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4710	
Model	Viper 2000
Vendor	Certance
Device	Libraries
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	NA
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4711	
Model	DAT72 (Seagate DAT72)
Vendor	Certance
Device	Drives

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. Firmware	5.2
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4750	
Model	FibreCAT TX Series
Vendor	Fujitsu
Device	Libraries

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	v1.50
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4751	
Model	T10000C
Vendor	Oracle/SUN/STK
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	1.53
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4752	
Model	FlexStor II
Vendor	BDT
Device	Libraries
Notes	188 - Minimum library firmware revision 5.20 required for IBM LTO8 drive support.
Firmware	5.20
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4753	
Model	ESL G3
Vendor	Hewlett Packard Enterprise
Device	Libraries
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	(MCB Ver. 1) 656H_GS10801, (MCB Ver. 2) 751H.GS10500
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4754	
Model	3592 E07 (TS1140)
Vendor	IBM
Device	Drives

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	6A5
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4755	
Model	RLS-85
Vendor	Qualstar
Device	Libraries
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	001E
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4756	
Model	ETERNUS CS High End / CS8000 Series
Vendor	Fujitsu
Device	VTLs
Notes	002 - Entire Series/Family Supported
Firmware	5.0, 5.1, 6.0A
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4757	
Model	TS7620
Vendor	IBM
Device	VTLs
Firmware	3.2.0; 3.3.0
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4758	
Model	StoreOnce 6xxx Series
Vendor	Hewlett Packard Enterprise
Device	VTLs
Notes	143 - Please visit https://www.hpe.com/Storage/StoreOnceSupportMatrix or https://h20272.www2.hpe.com/SPOCK/Pages/spock2Html.aspx?htmlFile=hw_storeever.html to view the HPE Compatibility Matrix for most current supported firmware revisions for specific drive/library/hba combinations.
Firmware	3.18.x(6600 and 6500)
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4759	
Model	SL150
Vendor	Oracle/SUN/STK
Device	Libraries

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	2.01; 2.25; 2.60
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4760	
Model	ULT3580-TD6
Vendor	IBM
Device	Drives
Firmware	J450
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4761	
Model	Ultrium-TD6
Vendor	IBM
Device	Drives
Firmware	J450
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4762	
Model	StoreEver Ultrium 6650 FC (LTO6 FH)
Vendor	Hewlett Packard Enterprise
Device	Drives

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	J5SW
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4763	
Model	StoreEver Ultrium 6250 SAS (LTO6 HH)
Vendor	Hewlett Packard Enterprise
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	35PW
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4764	
Model	Ultrium-HH6
Vendor	IBM
Device	Drives
Firmware	J451
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4765	
Model	ULT3580-HH6
Vendor	IBM
Device	Drives
Firmware	J451
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4766	
Model	HH LTO Gen 6
Vendor	IBM
Device	Drives
Firmware	K4M1
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4767	
Model	HH LTO6 SAS
Vendor	Tandberg
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. Firmware	3579
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4768	
Model	LTO 6 Half-Height
Vendor	Quantum
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	V4142, , G9P5 (Model C)
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4769	
Model	LTO 4 (HP Utrium)
Vendor	Oracle/SUN/STK
Device	Drives

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	B63S
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4770	
Model	LTO 5 (HP Ultrium)
Vendor	Oracle/SUN/STK
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. Firmware	Y5BS
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4775	
Model	LTO 6HH (HP)
Vendor	Oracle/SUN/STK
Device	Drives
Firmware	22GS
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4776	
Model	D2D G1 StoreOnce Series
Vendor	Hewlett Packard Enterprise
Device	VTLs
Notes	143 - Please visit https://www.hpe.com/Storage/StoreOnceSupportMatrix or https://h20272.www2.hpe.com/SPOCK/Pages/spock2Html.aspx?htmlFile=hw_storeever.html to view the HPE Compatibility Matrix for most current supported firmware revisions for specific drive/library/hba combinations.
Firmware	1.2.19
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4777

Model	D2D G2 StoreOnce Series
Vendor	Hewlett Packard Enterprise
Device	VTLs
Notes	143 - Please visit https://www.hpe.com/Storage/StoreOnceSupportMatrix or https://h20272.www2.hpe.com/SPOCK/Pages/spock2Html.aspx?htmlFile=hw_storeever.html to view the HPE Compatibility Matrix for most current supported firmware revisions for specific drive/library/hba combinations.
Firmware	2.3.0 / 3.6.5
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4778	
Model	T120
Vendor	Spectra Logic
Device	Libraries
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	BlueScale12.7.03-20170726F
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4779	
Model	Data Domain DD4xx VTL Series
Vendor	Dell EMC Data Domain
Device	VTLs
Notes	168 - All DataDomain emulated device types for this family of VTL are supported.
Firmware	4.3.3, 4.9.4.5
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4780	
Model	StoreEver MSL 6480
Vendor	Hewlett Packard Enterprise
Device	Libraries

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	6.10
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4781	
Model	T10000D
Vendor	Oracle/SUN/STK
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. Firmware	Y619
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4785	
Model	DXi 4700 Series
Vendor	Quantum
Device	VTLs
Firmware	v3.4.0
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4786	
Model	DXi 6900 series
Vendor	Quantum
Device	VTLs
Firmware	v3.4.0
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4787	
Model	MultiStak
Vendor	BDT
Device	Libraries
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.

Supported version	10.0 and 11.0
Operating system	HPUX

Device#4792	
Model	T30A / T60A
Vendor	NEC
Device	Libraries
Notes	177 - Certified drive FW/driver revisions: IBM Ultrium-HH4 G9N7, Ultrium-HH5 G9N7, Ultrium-HH6 H4T5, Ultrium-HH7 H5B5
Firmware	0005
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4793	
Model	ETERNUS LT270 S2
Vendor	Fujitsu
Device	Libraries
Firmware	V10L26
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4794	
Model	3584 (TS4500)
Vendor	IBM
Device	Libraries
Firmware	1.8.0.2-A00
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4795	
Model	StoreEver Ultrium 15000 SAS (LTO7 HH)
Vendor	Hewlett Packard Enterprise
Device	Drives
Notes	181 - Support has been added as of Simpana 10.0 SP11 and forward.
Firmware	M571, N4Q1
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4796	
Model	StoreEver Ultrium 15750 FC (LTO7 FH)
Vendor	Hewlett Packard Enterprise
Device	Drives
Notes	181 - Support has been added as of Simpana 10.0 SP11 and forward.
Firmware	HB80

Supported version	10.0 and 11.0
Operating system	HPUX

Device#4797	
Model	StoreEver Ultrium 15000 FC (LTO7 HH)
Vendor	Hewlett Packard Enterprise
Device	Drives
Notes	181 - Support has been added as of Simpana 10.0 SP11 and forward.
Firmware	M571, N4Q1
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4798	
Model	StoreEver Ultrium 6650 SAS (LTO6 FH)
Vendor	Hewlett Packard Enterprise
Device	Drives
Firmware	05ID
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4799	
Model	LTO 7 Half-Height
Vendor	Quantum
Device	Drives
Notes	181 - Support has been added as of Simpana 10.0 SP11 and forward.
Firmware	H5B3
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4800	
Model	StoreOnce 5xxx Series
Vendor	Hewlett Packard Enterprise
Device	VTLs
Notes	143 - Please visit https://www.hpe.com/Storage/StoreOnceSupportMatrix or https://h20272.www2.hpe.com/SPOCK/Pages/spock2Html.aspx?htmlFile=hw_storeever.html to view the HPE Compatibility Matrix for most current supported firmware revisions for specific drive/library/hba combinations.
Firmware	3.18.x
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4801	
Model	3592 EH8/E08 (TS1150)
Vendor	IBM
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	460E
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4802	
Model	StoreOnce 3xxx Series
Vendor	Hewlett Packard Enterprise
Device	VTLs
Notes	143 - Please visit https://www.hpe.com/Storage/StoreOnceSupportMatrix or https://h20272.www2.hpe.com/SPOCK/Pages/spock2Html.aspx?htmlFile=hw_storeever.html to view the HPE Compatibility Matrix for most current supported firmware revisions for specific drive/library/hba combinations.
Firmware	3.18.x
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4803	
Model	Scalar i3
Vendor	Quantum
Device	Libraries

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	278G.GS041
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4804	
Model	Scalar i6
Vendor	Quantum
Device	Libraries
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Firmware	1.5.0.0
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4807	
Model	Backup Appliance B4260
Vendor	Infinidat
Device	VTLs
Notes	193 - VTL functionality supported.
Firmware	1.3.3.1
Supported version	11.0
Operating system	HPUX

Device#4808	
Model	HH LTO7 FC
Vendor	Tandberg
Device	Drives
Notes	076 - OEM from IBM.
Firmware	G9Q1
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4809	
Model	HH LTO7 SAS
Vendor	Tandberg
Device	Drives
Notes	076 - OEM from IBM.
Firmware	G9Q1
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4810	
Model	StoreEver MSL 3040
Vendor	Hewlett Packard Enterprise
Device	Libraries
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	3020
Supported version	11.0
Operating system	HPUX

Device#4811	
Model	LTO 8 Half-Height

Vendor	Quantum
Device	Drives
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	HB83
Supported version	11.0
Operating system	HPUX

Device#4812	
Model	PowerVault LTO8 (IBM SAS)
Vendor	Dell
Device	Drives
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	H9E3
Supported version	11.0
Operating system	HPUX

Device#4813	
Model	HH LTO Gen 8
Vendor	IBM
Device	Drives
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	N9M1
Supported version	11.0
Operating system	HPUX

Device#4814	
Model	Ultrium-TD8
Vendor	IBM
Device	Drives
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	HB83
Supported version	11.0

Operating system	HPUX

Device#4815	
Model	ULT3580-HH8
Vendor	IBM
Device	Drives
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	J4D1
Supported version	11.0
Operating system	HPUX

Device#4816	
Model	ULT3580-TD8
Vendor	IBM
Device	Drives
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	HB83
Supported version	11.0
Operating system	HPUX

Device#4817	
Model	Ultrium-HH8
Vendor	IBM
Device	Drives
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	J4D1
Supported version	11.0
Operating system	HPUX

Device#4818	
Model	StoreEver Ultrium 30750 FC & SAS (LTO-8 HH)
Vendor	Hewlett Packard Enterprise
Device	Drives

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. Firmware	1.4.0.0-A07
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4822	
Model	SL4000
Vendor	Oracle/SUN/STK
Device	Libraries
Firmware	1.0.0.66
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4823	
Model	LTO 7HH (IBM)
Vendor	Oracle/SUN/STK
Device	Drives
Firmware	FA11
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4824	
Model	StoreOnce 4xxx Series
Vendor	Hewlett Packard Enterprise
Device	VTLs
Notes	143 - Please visit https://www.hpe.com/Storage/StoreOnceSupportMatrix or https://h20272.www2.hpe.com/SPOCK/Pages/spock2Html.aspx?htmlFile=hw_storeever.html to view the HPE Compatibility Matrix for most current supported firmware revisions for specific drive/library/hba combinations.
Firmware	3.18.5
Supported version	11.0
Operating system	HPUX

Device#4825	
Model	StoreOnce G4 Series
Vendor	Hewlett Packard Enterprise
Device	VTLs
Notes	143 - Please visit https://www.hpe.com/Storage/StoreOnceSupportMatrix or https://h20272.www2.hpe.com/SPOCK/Pages/spock2Html.aspx?htmlFile=hw_storeever.html to view the HPE Compatibility Matrix for most current supported firmware revisions for specific drive/library/hba combinations.
Firmware	4.1.0, 4.1.3
Supported version	11.0

Operating system	HPUX

Device#4826	
Model	InfiniGuard B Series
Vendor	Infinidat
Device	VTLs
Notes	193 - VTL functionality supported.
Firmware	4.0.0
Supported version	11.0
Operating system	HPUX

Device#4827	
Model	DXi 4800
Vendor	Quantum
Device	VTLs
Firmware	v4.1
Supported version	11.0
Operating system	HPUX

Device#4828	
Model	3592 60F (TS1160)
Vendor	IBM
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Firmware	544F
Supported version	11.0
Operating system	HPUX

Device#4829	
Model	DXi 9000

Vendor	Quantum
Device	VTLs
Firmware	v4.1
Supported version	11.0
Operating system	HPUX

Device#4830	
Model	ETERNUS LT140
Vendor	Fujitsu
Device	Libraries
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	1.0.0-A000
Supported version	10.0 and 11.0
Operating system	HPUX

Device#4831	
Model	Spectra Stack
Vendor	Spectra Logic
Device	Libraries
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	BlueVision1.80-20181123F
Supported version	11.0
Operating system	HPUX

Device#4832	
Model	HH LTO Gen 9
Vendor	IBM
Device	Drives

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Firmware	P371
Supported version	11.0
Operating system	HPUX

Device#4839	
Model	VTL 2.0
Vendor	Commvault
Device	VTLs
Notes	208 - Supported as of v11.24. Commvault VTL 2.0 is a disk-based library, hosted on a standalone Linux server, that emulates traditional tape devices. Refer to BOL, Expert Documentation, for details to deploy.
Firmware	3.0.50.45
Supported version	11.0
Operating system	HPUX

Device#4840	
Model	Library Station
Vendor	Oracle/SUN/STK
Device	IP Controllers
Supported version	10.0 and 11.0
Operating system	MVS

Device#4841	
Model	3584 (TS3500)
Vendor	IBM
Device	Libraries
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	G060
Supported version	10.0 and 11.0
Operating system	Windows 2012

Device#4842	
Model	StoreEver Ultrium 920 SCSI (LTO3 HH)
Vendor	Hewlett Packard Enterprise
Device	Drives

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Vendor	Spectra Logic
Device	Libraries
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	BlueScale12.8.02-20191210F
Supported version	10.0 and 11.0
Operating system	Windows 2012

Device#4908	
Model	T50e
Vendor	Spectra Logic
Device	Libraries
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	BlueScale12.7.03-20170726F
Supported version	10.0 and 11.0
Operating system	Windows 2012

Device#4909	
Model	T-finity
Vendor	Spectra Logic
Device	Libraries
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	BlueScale12.7.00.07-20170906F
Supported version	10.0 and 11.0
Operating system	Windows 2012

Device#4910	
Model	STK SL500
Vendor	Oracle/SUN/STK
Device	Libraries

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	1468; 1493
Supported version	10.0 and 11.0
Operating system	Windows 2012

Device#4911	
Model	STK SL8500
Vendor	Oracle/SUN/STK
Device	Libraries
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Firmware	4.60
Supported version	10.0 and 11.0
Operating system	Windows 2012

Device#4915	
Model	FC-41ES
Vendor	ATTO
Device	HBAs
Firmware	2010_7_30
Supported version	10.0 and 11.0
Operating system	Windows 2012

Device#4916	
Model	FC-42ES
Vendor	ATTO
Device	HBAs
Firmware	2010_7_30
Supported version	10.0 and 11.0
Operating system	Windows 2012

Device#4917	
Model	LP11xxx Series
Vendor	Emulex
Device	HBAs
Notes	094 - Entire LP11xxx Series includes: LP11000, LP11002, LP1150
Firmware	2.82a4
Supported version	10.0 and 11.0
Operating system	Windows 2012

Device#4918	
Model	LPe11xxx Series
Vendor	Emulex
Device	HBAs
Notes	093 - Entire LPe11xxx Series includes: LPe11000, LPe11002, LPe1150
Firmware	2.82a4
Supported version	10.0 and 11.0
Operating system	Windows 2012

Device#4919	
Model	LPe12xxx Series
Vendor	Emulex
Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	2.02.a4
Supported version	10.0 and 11.0
Operating system	Windows 2012

Device#4920	
Model	LSI SAS9200
Vendor	LSI Logic
Device	HBAs
Firmware	4.00.00.00
Supported version	10.0 and 11.0
Operating system	Windows 2012

Device#4921	
Model	StoreEver DAT160 SCSI
Vendor	Hewlett Packard Enterprise
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	HB87
Supported version	11.0
Operating system	Windows 2012

Device#5022	
Model	MultiStor
Vendor	BDT
Device	Libraries
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.

Firmware	1.1.1-0000
Supported version	10.0 and 11.0
Operating system	Windows 2012

Device#5023	
Model	NEOxl 40
Vendor	Overland-Tandberg
Device	Libraries
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	1.4.0
Supported version	10.0 and 11.0
Operating system	Windows 2012
OS Notes	["162 - To prevent multiple open handles per host, IBM \"exclusive\" install script must be used to install drivers for Ultrium Tape Drives.","207 - WIN drivers (\"Exclusive\" version supported): WIN2022, WIN2019 & WIN2016 - v7.0.0.8, WIN2012 R2 - v6.2.6.8 (supports LTO7 only)."]

Device#5024	
Model	Dell EMC ML3/ML3e
Vendor	Dell
Device	Libraries

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Firmware	1.4.0.0-A07
Supported version	10.0 and 11.0
Operating system	Windows 2012

Device#5025	
Model	SL4000
Vendor	Oracle/SUN/STK
Device	Libraries
Firmware	1.0.0.66
Supported version	10.0 and 11.0
Operating system	Windows 2012

Device#5026	
Model	ExpressSAS H12xx
Vendor	ATTO
Device	HBAs
Firmware	2018_11_2
Supported version	10.0 and 11.0
Operating system	Windows 2012

Device#5027	
Model	12GB SAS
Vendor	Dell
Device	HBAs
Firmware	16.17.00.03
Supported version	10.0 and 11.0
Operating system	Windows 2012

Device#5028

Model	ETERNUS LT140
Vendor	Fujitsu
Device	Libraries
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	1.0.0-A000
Supported version	10.0 and 11.0
Operating system	Windows 2012

Device#5029	
Model	Spectra Stack
Vendor	Spectra Logic
Device	Libraries
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	BlueVision1.80-20181123F
Supported version	11.0
Operating system	Windows 2012

Device#5030	
Model	LPe16xxx Series
Vendor	Emulex
Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	12.2.299.11
Supported version	10.0 and 11.0
Operating system	Windows 2012

Device#5031	
Model	LPe31xxx Series
Vendor	Emulex
Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	12.2.299.14
Supported version	10.0 and 11.0
Operating system	Windows 2012

Device#5032	
Model	LPe35xxx Series
Vendor	Emulex
Device	HBAs

Notes	084 - Supported on the following Linux platforms: RHEL 7.0 64-bit (x86_64) with kernel 3.10.x and glibc 2.17.x; RHEL 8.0 64-bit (x86_64) with kernel 4.18.x and glibc 2.28.x; SuSE Linux 11 Ent. Server 64-bit Edition with kernel 2.6.25 and glibc 2.9.x; SuSE Linux 12 Ent. Server 64-bit Edition with kernel 3.12.x and glibc 2.22.x; SuSE Linux 15 Ent. Server 64-bit Edition with kernel 4.12.x and glibc 2.28.x; Ubuntu 16.04LTS with kernel 5.11.x and glibc-2.23; Ubuntu 18.04LTS with kernel 5.15.x and glibc-2.31
Firmware	12.2.299.14
Supported version	10.0 and 11.0
Operating system	Windows 2012

Device#5033	
Model	LPe32xxx Series
Vendor	Emulex
Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	12.2.299.14
Supported version	10.0 and 11.0
Operating system	Windows 2012

Device#5034	
Model	RDX QuikStor
Vendor	Overland-Tandberg
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Firmware	3.61; 4.00
Supported version	10.0 and 11.0
Operating system	Windows 2012 R2

Device#5104	
Model	LPe11xxx Series
Vendor	Emulex
Device	HBAs
Notes	093 - Entire LPe11xxx Series includes: LPe11000, LPe11002, LPe1150
Firmware	2.82a4
Supported version	10.0 and 11.0
Operating system	Windows 2012 R2

Device#5105	
Model	LPe12xxx Series
Vendor	Emulex
Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	2.02.a4
Supported version	10.0 and 11.0
Operating system	Windows 2012 R2

Device#5106	
Model	LSI SAS9200
Vendor	LSI Logic
Device	HBAs
Firmware	4.00.00.00
Supported version	10.0 and 11.0
Operating system	Windows 2012 R2

Device#5107	
Model	FalconStor VTL
Vendor	FalconStor
Device	VTLs

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Firmware	5.00A
Supported version	10.0 and 11.0
Operating system	Windows 2012 R2

Device#5108	
Model	Data Domain VTL
Vendor	Dell EMC Data Domain
Device	VTLs
Notes	115 - DataDomain VTL Software option is supported on the follwing platorms: DDX Array Series, Appliance Series, Gateway Series.
Firmware	6.1.x.x, 6.2.x.x , 7.1.x.x
Supported version	10.0 and 11.0
Operating system	Windows 2012 R2

Device#5109	
Model	StoreOnce G3 Series
Vendor	Hewlett Packard Enterprise
Device	VTLs
Notes	143 - Please visit https://www.hpe.com/Storage/StoreOnceSupportMatrix or https://h20272.www2.hpe.com/SPOCK/Pages/spock2Html.aspx?htmlFile=hw_storeever.html to view the HPE Compatibility Matrix for most current supported firmware revisions for specific drive/library/hba combinations.
Firmware	3.13.x
Supported version	10.0 and 11.0

Operating system	Windows 2012 R2

Device#5110	
Model	VLS 12x00 Series
Vendor	Hewlett Packard Enterprise
Device	VTLs
Notes	143 - Please visit https://www.hpe.com/Storage/StoreOnceSupportMatrix or https://h20272.www2.hpe.com/SPOCK/Pages/spock2Html.aspx?htmlFile=hw_storeever.html to view the HPE Compatibility Matrix for most current supported firmware revisions for specific drive/library/hba combinations.
Firmware	6.1.0
Supported version	10.0 and 11.0
Operating system	Windows 2012 R2

Device#5111	
Model	VLS 9x00 Series
Vendor	Hewlett Packard Enterprise
Device	VTLs
Notes	143 - Please visit https://www.hpe.com/Storage/StoreOnceSupportMatrix or https://h20272.www2.hpe.com/SPOCK/Pages/spock2Html.aspx?htmlFile=hw_storeever.html to view the HPE Compatibility Matrix for most current supported firmware revisions for specific drive/library/hba combinations.
Firmware	6.1.0
Supported version	10.0 and 11.0
Operating system	Windows 2012 R2

Device#5112	
Model	TS7650
Vendor	IBM
Device	VTLs
Firmware	3.3.0; 3.4.0
Supported version	10.0 and 11.0
Operating system	Windows 2012 R2

Device#5113	
Model	DX Series
Vendor	Quantum
Device	VTLs

Notes	145 - The following minimum firmware revisions are necessary on the VTL to correct performance issues for hardware deduplication when used with Simpana 8.0: DXi7500 DXi6500 The fix for those are in release 1.4 of the fw. DXi4500 The fix for those are in release 1.3.1 of the fw. DXi2500-D The fix for those are in release 1.1.1.4_25 DXi3500 DXi5500 The fix for those are in release 1.7.3.1 of the fw
Firmware	1.7.3.1
Supported version	10.0 and 11.0
Operating system	Windows 2012 R2

Device#5114	
Model	DXi 6700/6802 Series
Vendor	Quantum
Device	VTLs
Notes	145 - The following minimum firmware revisions are necessary on the VTL to correct performance issues for hardware deduplication when used with Simpana 8.0: DXi7500 DXi6500 The fix for those are in release 1.4 of the fw. DXi4500 The fix for those are in release 1.3.1 of the fw. DXi2500-D The fix for those are in release 1.1.1.4_25 DXi3500 DXi5500 The fix for those are in release 1.7.3.1 of the fw
Firmware	v2.2_68, v2.3.0
Supported version	10.0 and 11.0
Operating system	Windows 2012 R2

Device#5115	
Model	DXi 7500
Vendor	Quantum
Device	VTLs

Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	Z55S
Supported version	10.0 and 11.0
Operating system	Windows 2012 R2

Device#5194	
Model	LTO 6HH (HP)
Vendor	Oracle/SUN/STK
Device	Drives
Firmware	22GS
Supported version	10.0 and 11.0
Operating system	Windows 2012 R2

Device#5195	
Model	D2D G2 StoreOnce Series
Vendor	Hewlett Packard Enterprise
Device	VTLs
Notes	143 - Please visit https://www.hpe.com/Storage/StoreOnceSupportMatrix or https://h20272.www2.hpe.com/SPOCK/Pages/spock2Html.aspx?htmlFile=hw_storeever.html to view the HPE Compatibility Matrix for most current supported firmware revisions for specific drive/library/hba combinations.
Firmware	2.3.0 / 3.6.5
Supported version	10.0 and 11.0
Operating system	Windows 2012 R2

Device#5196	
Model	T120
Vendor	Spectra Logic
Device	Libraries
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	BlueScale12.7.03-20170726F
Supported version	10.0 and 11.0
Operating system	Windows 2012 R2

Device#5197	
Model	QLE26xx Series
Vendor	QLogic
Device	HBAs
Notes	166 - Entire QLE26xx Series includes: QLE2670, QLE2672
Firmware	v8.03.06
Supported version	10.0 and 11.0
Operating system	Windows 2012 R2

Device#5198	
Model	Data Domain DD4xx VTL Series
Vendor	Dell EMC Data Domain
Device	VTLs
Notes	168 - All DataDomain emulated device types for this family of VTL are supported.
Firmware	4.3.3, 4.9.4.5
Supported version	10.0 and 11.0
Operating system	Windows 2012 R2

Device#5199	
Model	OceanStor VTL6900
Vendor	HuaWei
Device	VTLs
Firmware	V100R005
Supported version	10.0 and 11.0
Operating system	Windows 2012 R2

Device#5200	
Model	StoreEver MSL 6480
Vendor	Hewlett Packard Enterprise
Device	Libraries
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. Firmware	Y619
Supported version	10.0 and 11.0
Operating system	Windows 2012 R2

Device#5205	
Model	DXi 4700 Series
Vendor	Quantum
Device	VTLs
Firmware	v3.4.0
Supported version	10.0 and 11.0
Operating system	Windows 2012 R2

Device#5206	
Model	DXi 6900 series
Vendor	Quantum
Device	VTLs
Firmware	v3.4.0
Supported version	10.0 and 11.0
Operating system	Windows 2012 R2

Device#5207	
Model	MultiStak
Vendor	BDT
Device	Libraries

Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	2.80
Supported version	10.0 and 11.0
Operating system	Windows 2012 R2

Device#5208	
Model	TL1000
Vendor	Dell
Device	Libraries
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. Model	ETERNUS LT140
Vendor	Fujitsu
Device	Libraries
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.

Firmware	1.0.0-A000
Supported version	10.0 and 11.0
Operating system	Windows 2012 R2

Device#5267	
Model	Spectra Stack
Vendor	Spectra Logic
Device	Libraries
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	BlueVision1.80-20181123F
Supported version	11.0
Operating system	Windows 2012 R2

Device#5268	
Model	LPe16xxx Series
Vendor	Emulex
Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	12.2.299.11
Supported version	10.0 and 11.0
Operating system	Windows 2012 R2

Device#5269	
Model	LPe31xxx Series
Vendor	Emulex
Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	12.2.299.14
Supported version	10.0 and 11.0
Operating system	Windows 2012 R2

Device#5270	
Model	LPe35xxx Series
Vendor	Emulex
Device	HBAs

Notes	084 - Supported on the following Linux platforms: RHEL 7.0 64-bit (x86_64) with kernel 3.10.x and glibc 2.17.x; RHEL 8.0 64-bit (x86_64) with kernel 4.18.x and glibc 2.28.x; SuSE Linux 11 Ent. Server 64-bit Edition with kernel 2.6.25 and glibc 2.9.x; SuSE Linux 12 Ent. Server 64-bit Edition with kernel 3.12.x and glibc 2.22.x; SuSE Linux 15 Ent. Server 64-bit Edition with kernel 4.12.x and glibc 2.28.x; Ubuntu 16.04LTS with kernel 5.11.x and glibc-2.23; Ubuntu 18.04LTS with kernel 5.15.x and glibc-2.31
Firmware	12.2.299.14
Supported version	10.0 and 11.0
Operating system	Windows 2012 R2

Device#5271	
Model	LPe32xxx Series
Vendor	Emulex
Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	12.2.299.14
Supported version	10.0 and 11.0
Operating system	Windows 2012 R2

Device#5272	
Model	RDX QuikStor
Vendor	Overland-Tandberg
Device	Drives

Firmware	2039
Supported version	10.0 and 11.0
Operating system	Windows 2016

Device#5292	
Model	PowerVault ML6000 Series
Vendor	Dell
Device	Libraries
Notes	103 - ML6000 FW 710G.GS007 (A35) supports the following Drive FW revisions: LTO3: 93GM, LTO4: C7QH, LTO5: H970, LTO6: J450, LTO7: J4D0, LTO8: J4D0 **WIN driver (install_exclusive.exe): In-Box driver for WIN2022, v7.0.0.8 for WIN2019 & WIN2016, v6.2.6.8 WIN2012 (supports LTO6 and higher), v6.2.5.2 for WIN2k8 (up to LTO6, no LTO7 or greater supported on WIN2k8).
Firmware	A35: 710G.GS007
Supported version	10.0 and 11.0
Operating system	Windows 2016

Device#5293	
Model	TL2000/TL4000
Vendor	Dell
Device	Libraries

Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	F.11
Supported version	10.0 and 11.0
Operating system	Windows 2016

Device#5294	
Model	QLE24xx Series
Vendor	QLogic
Device	HBAs
Notes	096 - Entire QLE24xx Series includes: QLE2440, QLE2460, QLE2462, QLE2464
Firmware	v8.01.02
Supported version	10.0 and 11.0
Operating system	Windows 2016

Device#5295	
Model	QLE25xx Series
Vendor	QLogic
Device	HBAs
Notes	149 - Entire QLE25xx Series includes: QLE2560, QLE2562, QLE2564
Firmware	v8.01.02
Supported version	10.0 and 11.0
Operating system	Windows 2016

Device#5296	
Model	LTO 4 Half-Height
Vendor	Quantum
Device	Drives

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	FRS 6.01;8.01; 8.31
Supported version	10.0 and 11.0
Operating system	Windows 2016

Device#5317	
Model	StorEdge L8
Vendor	Oracle/SUN/STK
Device	Libraries
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.

Firmware	G12R
Supported version	10.0 and 11.0
Operating system	Windows 2016

Device#5318	
Model	SL3000
Vendor	Oracle/SUN/STK
Device	Libraries
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	3.61; 4.00
Supported version	10.0 and 11.0
Operating system	Windows 2016

Device#5319	
Model	LPe12xxx Series
Vendor	Emulex
Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	2.02.a4
Supported version	10.0 and 11.0
Operating system	Windows 2016

Device#5320	
Model	FalconStor VTL
Vendor	FalconStor
Device	VTLs

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	5.00A
Supported version	10.0 and 11.0
Operating system	Windows 2016

Device#5321	
Model	Data Domain VTL
Vendor	Dell EMC Data Domain
Device	VTLs
Notes	115 - DataDomain VTL Software option is supported on the follwing platorms: DDX Array Series, Appliance Series, Gateway Series.
Firmware	6.1.x.x, 6.2.x.x , 7.1.x.x
Supported version	10.0 and 11.0
Operating system	Windows 2016

Device#5322	
Model	StoreOnce G3 Series
Vendor	Hewlett Packard Enterprise
Device	VTLs
Notes	143 - Please visit https://www.hpe.com/Storage/StoreOnceSupportMatrix or https://h20272.www2.hpe.com/SPOCK/Pages/spock2Html.aspx?htmlFile=hw_storeever.html to view the HPE Compatibility Matrix for most current supported firmware revisions for specific drive/library/hba combinations.
Firmware	3.13.x
Supported version	10.0 and 11.0

Operating system	Windows 2016

Device#5323	
Model	TS7650
Vendor	IBM
Device	VTLs
Firmware	3.3.0; 3.4.0
Supported version	10.0 and 11.0
Operating system	Windows 2016

Device#5324	
Model	DX Series
Vendor	Quantum
Device	VTLs
Notes	145 - The following minimum firmware revisions are necessary on the VTL to correct performance issues for hardware deduplication when used with Simpana 8.0: DXi7500 DXi6500 The fix for those are in release 1.4 of the fw. DXi4500 The fix for those are in release 1.3.1 of the fw. DXi2500-D The fix for those are in release 1.1.1.4_25 DXi3500 DXi5500 The fix for those are in release 1.7.3.1 of the fw
Firmware	1.7.3.1
Supported version	10.0 and 11.0
Operating system	Windows 2016

Device#5325	
Model	DXi 6700/6802 Series
Vendor	Quantum
Device	VTLs

Notes	145 - The following minimum firmware revisions are necessary on the VTL to correct performance issues for hardware deduplication when used with Simpana 8.0: DXi7500 DXi6500 The fix for those are in release 1.4 of the fw. DXi4500 The fix for those are in release 1.3.1 of the fw. DXi2500-D The fix for those are in release 1.1.1.4_25 DXi3500 DXi5500 The fix for those are in release 1.7.3.1 of the fw
Firmware	v2.2_68, v2.3.0
Supported version	10.0 and 11.0
Operating system	Windows 2016

Device#5326	
Model	DXi 7500
Vendor	Quantum
Device	VTLs
Notes	145 - The following minimum firmware revisions are necessary on the VTL to correct performance issues for hardware deduplication when used with Simpana 8.0: DXi7500 DXi6500 The fix for those are in release 1.4 of the fw. DXi4500 The fix for those are in release 1.3.1 of the fw. DXi2500-D The fix for those are in release 1.1.1.4_25 DXi3500 DXi5500 The fix for those are in release 1.7.3.1 of the fw
Firmware	v2.1
Supported version	10.0 and 11.0
Operating system	Windows 2016

Device#5327	
Model	DXi 3500/5500
Vendor	Quantum
Device	VTLs

Notes	145 - The following minimum firmware revisions are necessary on the VTL to correct performance issues for hardware deduplication when used with Simpana 8.0: DXi7500 DXi6500 The fix for those are in release 1.4 of the fw. DXi4500 The fix for those are in release 1.3.1 of the fw. DXi2500-D The fix for those are in release 1.1.1.4_25 DXi3500 DXi5500 The fix for those are in release 1.7.3.1 of the fw
Firmware	1.7.3.1
Supported version	10.0 and 11.0
Operating system	Windows 2016

Device#5328	
Model	3590 B1A/E1A/H1A
Vendor	IBM
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. Vendor	IBM
Device	Drives
Notes	179 - Supported IBM LTO7 firmware revisions: Stand-alone (bridgebox): FA10 FH, FA11 HH Within libraries: TS4500 (3584): F981 TS3500 (3584): F981 TS3310 (3576): FA11 TS3200 (3573): FA11 TS3100 (3573): FA11 TS2900 (3572): FA11
Firmware	K4K1
Supported version	10.0 and 11.0
Operating system	Windows 2016

Device#5398	
Model	ULT3580-HH7
Vendor	IBM
Device	Drives
Notes	179 - Supported IBM LTO7 firmware revisions: Stand-alone (bridgebox): FA10 FH, FA11 HH Within libraries: TS4500 (3584): F981 TS3500 (3584): F981 TS3310 (3576): FA11 TS3200 (3573): FA11 TS3100 (3573): FA11 TS2900 (3572): FA11
Firmware	J4D1
Supported version	10.0 and 11.0
Operating system	Windows 2016

Device#5399	
Model	ULT3580-TD7
Vendor	IBM
Device	Drives
Notes	179 - Supported IBM LTO7 firmware revisions: Stand-alone (bridgebox): FA10 FH, FA11 HH Within libraries: TS4500 (3584): F981 TS3500 (3584): F981 TS3310 (3576): FA11 TS3200 (3573): FA11 TS3100 (3573): FA11 TS2900 (3572): FA11
Firmware	FA10
Supported version	10.0 and 11.0
Operating system	Windows 2016

Device#5400	
Model	Ultrium-TD7
Vendor	IBM
Device	Drives
Notes	179 - Supported IBM LTO7 firmware revisions: Stand-alone (bridgebox): FA10 FH, FA11 HH Within libraries: TS4500 (3584): F981 TS3500 (3584): F981 TS3310 (3576): FA11 TS3200 (3573): FA11 TS3100 (3573): FA11 TS2900 (3572): FA11
Firmware	FA10
Supported version	10.0 and 11.0
Operating system	Windows 2016

Device#5401	
Model	Ultrium-HH7
Vendor	IBM
Device	Drives

Notes	179 - Supported IBM LTO7 firmware revisions: Stand-alone (bridgebox): FA10 FH, FA11 HH Within libraries: TS4500 (3584): F981 TS3500 (3584): F981 TS3310 (3576): FA11 TS3200 (3573): FA11 TS3100 (3573): FA11 TS2900 (3572): FA11
Firmware	J4D1
Supported version	10.0 and 11.0
Operating system	Windows 2016

Device#5402	
Model	StoreEver Ultrium 15000 SAS (LTO7 HH)
Vendor	Hewlett Packard Enterprise
Device	Drives
Notes	181 - Support has been added as of Simpana 10.0 SP11 and forward.
Firmware	M571, N4Q1
Supported version	10.0 and 11.0
Operating system	Windows 2016

Device#5403	
Model	StoreEver Ultrium 15750 FC (LTO7 FH)
Vendor	Hewlett Packard Enterprise
Device	Drives
Notes	181 - Support has been added as of Simpana 10.0 SP11 and forward.
Firmware	HB80
Supported version	10.0 and 11.0
Operating system	Windows 2016

Device#5404	
Model	StoreEver Ultrium 15000 FC (LTO7 HH)
Vendor	Hewlett Packard Enterprise
Device	Drives
Notes	181 - Support has been added as of Simpana 10.0 SP11 and forward.
Firmware	M571, N4Q1
Supported version	10.0 and 11.0
Operating system	Windows 2016

Device#5405

Model	StoreEver Ultrium 6650 SAS (LTO6 FH)
Vendor	Hewlett Packard Enterprise
Device	Drives
Firmware	05ID
Supported version	10.0 and 11.0
Operating system	Windows 2016

Device#5406	
Model	LTO 7 Half-Height
Vendor	Quantum
Device	Drives
Notes	181 - Support has been added as of Simpana 10.0 SP11 and forward.
Firmware	H5B3
Supported version	10.0 and 11.0
Operating system	Windows 2016

Device#5407	
Model	StoreOnce 5xxx Series
Vendor	Hewlett Packard Enterprise
Device	VTLs
Notes	143 - Please visit https://www.hpe.com/Storage/StoreOnceSupportMatrix or https://h20272.www2.hpe.com/SPOCK/Pages/spock2Html.aspx?htmlFile=hw_storeever.html to view the HPE Compatibility Matrix for most current supported firmware revisions for specific drive/library/hba combinations.
Firmware	3.18.x
Supported version	11.0
Operating system	Windows 2016

Device#5408	
Model	3592 EH8/E08 (TS1150)
Vendor	IBM
Device	Drives

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	460E
Supported version	10.0 and 11.0
Operating system	Windows 2016

Device#5409	
Model	StoreOnce 3xxx Series
Vendor	Hewlett Packard Enterprise
Device	VTLs
Notes	143 - Please visit https://www.hpe.com/Storage/StoreOnceSupportMatrix or https://h20272.www2.hpe.com/SPOCK/Pages/spock2Html.aspx?htmlFile=hw_storeever.html to view the HPE Compatibility Matrix for most current supported firmware revisions for specific drive/library/hba combinations.
Firmware	3.18.x
Supported version	10.0 and 11.0
Operating system	Windows 2016

Device#5410	
Model	RDX
Vendor	IBM
Device	Drives
Firmware	3043 (USB int and ext), 1.6 (USB 3.0 int and ext)
Supported version	10.0 and 11.0
Operating system	Windows 2016

Device#5411

Model	RDX
Vendor	Hewlett Packard Enterprise
Device	Drives
Firmware	0170 (USB int and ext), 2.27 (USB 3.0 int and ext)
Supported version	10.0 and 11.0
Operating system	Windows 2016

Device#5412	
Model	DR4000 / DR4100 / DR6000
Vendor	Dell
Device	VTLs
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Model	ETERNUS LT140
Vendor	Fujitsu
Device	Libraries
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.

Firmware	1.0.0-A000
Supported version	10.0 and 11.0
Operating system	Windows 2016

Device#5444	
Model	Spectra Stack
Vendor	Spectra Logic
Device	Libraries
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	BlueVision1.80-20181123F
Supported version	11.0
Operating system	Windows 2016

Device#5445	
Model	LPe16xxx Series
Vendor	Emulex
Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	12.2.299.11
Supported version	10.0 and 11.0
Operating system	Windows 2016

Device#5446	
Model	LPe31xxx Series
Vendor	Emulex
Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	12.2.299.14
Supported version	10.0 and 11.0
Operating system	Windows 2016

Device#5447	
Model	LPe35xxx Series
Vendor	Emulex
Device	HBAs

Notes	084 - Supported on the following Linux platforms: RHEL 7.0 64-bit (x86_64) with kernel 3.10.x and glibc 2.17.x; RHEL 8.0 64-bit (x86_64) with kernel 4.18.x and glibc 2.28.x; SuSE Linux 11 Ent. Server 64-bit Edition with kernel 2.6.25 and glibc 2.9.x; SuSE Linux 12 Ent. Server 64-bit Edition with kernel 3.12.x and glibc 2.22.x; SuSE Linux 15 Ent. Server 64-bit Edition with kernel 4.12.x and glibc 2.28.x; Ubuntu 16.04LTS with kernel 5.11.x and glibc-2.23; Ubuntu 18.04LTS with kernel 5.15.x and glibc-2.31
Firmware	12.2.299.14
Supported version	10.0 and 11.0
Operating system	Windows 2016

Device#5448	
Model	LPe32xxx Series
Vendor	Emulex
Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	12.2.299.14
Supported version	10.0 and 11.0
Operating system	Windows 2016

Device#5449	
Model	RDX QuikStor
Vendor	Overland-Tandberg
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	USB3 0283; SATA III 0253

Supported version	11.0
Operating system	Windows 2016

Device#5450	
Model	RDX QuikStation 4
Vendor	Overland-Tandberg
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	2.008.00
Supported version	11.0
Operating system	Windows 2016

Device#5451	
Model	RDX QuikStation 8
Vendor	Overland-Tandberg
Device	Drives

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Firmware	P371
Supported version	11.0
Operating system	Windows 2016

Device#5459	
Model	VTL 2.0
Vendor	Commvault
Device	VTLs
Notes	208 - Supported as of v11.24. Commvault VTL 2.0 is a disk-based library, hosted on a standalone Linux server, that emulates traditional tape devices. Refer to BOL, Expert Documentation, for details to deploy.
Firmware	3.0.50.45
Supported version	11.0
Operating system	Windows 2016

Device#5460	
Model	3584 (TS3500)
Vendor	IBM
Device	Libraries

Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	G060
Supported version	11.0
Operating system	Windows 2019

Device#5461	
Model	StoreEver Ultrium 1760 SCSI (LTO4 HH)
Vendor	Hewlett Packard Enterprise
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	U62W
Supported version	11.0
Operating system	Windows 2019

Device#5462	
Model	StoreEver Ultrium 1760 SAS (LTO4 HH)
Vendor	Hewlett Packard Enterprise
Device	Drives

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	0130
Supported version	11.0
Operating system	Windows 2019

Device#5482	
Model	3573-TL (TS3100-TS3200)
Vendor	IBM
Device	Libraries
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	F.01
Supported version	11.0
Operating system	Windows 2019

Device#5483	
Model	3576-MTL (TS3310)
Vendor	IBM
Device	Libraries
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	710G.GS007
Supported version	11.0
Operating system	Windows 2019

Device#5484	
Model	LL009F
Vendor	NEC
Device	Libraries
Notes	203 - Certified drive FW/driver revisions: IBM Ultrium-HH4 BBH5, Ultrium-HH5 F997, Ultrium-HH6 F9A7, Ultrium-HH7 H5B5
Firmware	0005
Supported version	11.0
Operating system	Windows 2019

Device#5485	
Model	Scalar i40/80
Vendor	Quantum
Device	Libraries
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Firmware	3.61; 4.00
Supported version	11.0
Operating system	Windows 2019

Device#5491	
Model	LPe12xxx Series
Vendor	Emulex
Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	2.02.a4
Supported version	11.0
Operating system	Windows 2019

Device#5492	
Model	FalconStor VTL
Vendor	FalconStor
Device	VTLs

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. Firmware	5.00A
Supported version	11.0
Operating system	Windows 2019

Device#5493	
Model	Data Domain VTL
Vendor	Dell EMC Data Domain
Device	VTLs
Notes	115 - DataDomain VTL Software option is supported on the follwing platorms: DDX Array Series, Appliance Series, Gateway Series.
Firmware	6.1.x.x, 6.2.x.x , 7.1.x.x
Supported version	11.0
Operating system	Windows 2019

Device#5494	
Model	StoreOnce G3 Series
Vendor	Hewlett Packard Enterprise
Device	VTLs
Notes	143 - Please visit https://www.hpe.com/Storage/StoreOnceSupportMatrix or https://h20272.www2.hpe.com/SPOCK/Pages/spock2Html.aspx?htmlFile=hw_storeever.html to view the HPE Compatibility Matrix for most current supported firmware revisions for specific drive/library/hba combinations.
Firmware	3.13.x
Supported version	11.0

Operating system	Windows 2019

Device#5495	
Model	DX Series
Vendor	Quantum
Device	VTLs
Notes	145 - The following minimum firmware revisions are necessary on the VTL to correct performance issues for hardware deduplication when used with Simpana 8.0: DXi7500 DXi6500 The fix for those are in release 1.4 of the fw. DXi4500 The fix for those are in release 1.3.1 of the fw. DXi2500-D The fix for those are in release 1.1.1.4_25 DXi3500 DXi5500 The fix for those are in release 1.7.3.1 of the fw
Firmware	1.7.3.1
Supported version	11.0
Operating system	Windows 2019

Device#5496	
Model	DXi 6700/6802 Series
Vendor	Quantum
Device	VTLs
Notes	145 - The following minimum firmware revisions are necessary on the VTL to correct performance issues for hardware deduplication when used with Simpana 8.0: DXi7500 DXi6500 The fix for those are in release 1.4 of the fw. DXi4500 The fix for those are in release 1.3.1 of the fw. DXi2500-D The fix for those are in release 1.1.1.4_25 DXi3500 DXi5500 The fix for those are in release 1.7.3.1 of the fw
Firmware	v2.2_68, v2.3.0
Supported version	11.0
Operating system	Windows 2019

Device#5497	
Model	DXi 7500
Vendor	Quantum
Device	VTLs
Notes	145 - The following minimum firmware revisions are necessary on the VTL to correct performance issues for hardware deduplication when used with Simpana 8.0: DXi7500 DXi6500 The fix for those are in release 1.4 of the fw. DXi4500 The fix for those are in release 1.3.1 of the fw. DXi2500-D The fix for those are in release 1.1.1.4_25 DXi3500 DXi5500 The fix for those are in release 1.7.3.1 of the fw
Firmware	v2.1
Supported version	11.0
Operating system	Windows 2019

Device#5498	
Model	DXi 3500/5500
Vendor	Quantum
Device	VTLs
Notes	145 - The following minimum firmware revisions are necessary on the VTL to correct performance issues for hardware deduplication when used with Simpana 8.0: DXi7500 DXi6500 The fix for those are in release 1.4 of the fw. Notes	179 - Supported IBM LTO7 firmware revisions: Stand-alone (bridgebox): FA10 FH, FA11 HH Within libraries: TS4500 (3584): F981 TS3500 (3584): F981 TS3310 (3576): FA11 TS3200 (3573): FA11 TS3100 (3573): FA11 TS2900 (3572): FA11
Firmware	J4D1
Supported version	11.0
Operating system	Windows 2019

Device#5564	
Model	StoreEver Ultrium 15000 SAS (LTO7 HH)
Vendor	Hewlett Packard Enterprise
Device	Drives
Notes	181 - Support has been added as of Simpana 10.0 SP11 and forward.
Firmware	M571, N4Q1
Supported version	11.0
Operating system	Windows 2019

Device#5565	
Model	StoreEver Ultrium 15750 FC (LTO7 FH)
Vendor	Hewlett Packard Enterprise
Device	Drives
Notes	181 - Support has been added as of Simpana 10.0 SP11 and forward.
Firmware	HB80
Supported version	11.0
Operating system	Windows 2019

Device#5566	
Model	StoreEver Ultrium 15000 FC (LTO7 HH)
Vendor	Hewlett Packard Enterprise
Device	Drives
Notes	181 - Support has been added as of Simpana 10.0 SP11 and forward.
Firmware	M571, N4Q1
Supported version	11.0
Operating system	Windows 2019

Device#5567

Model	StoreEver Ultrium 6650 SAS (LTO6 FH)
Vendor	Hewlett Packard Enterprise
Device	Drives
Firmware	05ID
Supported version	11.0
Operating system	Windows 2019

Device#5568	
Model	StoreOnce 5xxx Series
Vendor	Hewlett Packard Enterprise
Device	VTLs
Notes	143 - Please visit https://www.hpe.com/Storage/StoreOnceSupportMatrix or https://h20272.www2.hpe.com/SPOCK/Pages/spock2Html.aspx?htmlFile=hw_storeever.html to view the HPE Compatibility Matrix for most current supported firmware revisions for specific drive/library/hba combinations.
Firmware	3.18.x
Supported version	11.0
Operating system	Windows 2019

Device#5569	
Model	3592 EH8/E08 (TS1150)
Vendor	IBM
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	460E
Supported version	11.0

Operating system	Windows 2019

Device#5570	
Model	StoreOnce 3xxx Series
Vendor	Hewlett Packard Enterprise
Device	VTLs
Notes	143 - Please visit https://www.hpe.com/Storage/StoreOnceSupportMatrix or https://h20272.www2.hpe.com/SPOCK/Pages/spock2Html.aspx?htmlFile=hw_storeever.html to view the HPE Compatibility Matrix for most current supported firmware revisions for specific drive/library/hba combinations.
Firmware	3.18.x
Supported version	11.0
Operating system	Windows 2019

Device#5571	
Model	RDX
Vendor	IBM
Device	Drives
Firmware	3043 (USB int and ext), 1.6 (USB 3.0 int and ext)
Supported version	11.0
Operating system	Windows 2019

Device#5572	
Model	RDX
Vendor	Hewlett Packard Enterprise
Device	Drives
Firmware	0170 (USB int and ext), 2.27 (USB 3.0 int and ext)
Supported version	11.0
Operating system	Windows 2019

Device#5573	
Model	DR4000 / DR4100 / DR6000
Vendor	Dell
Device	VTLs

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Operating system	Windows 2019

Device#5608	
Model	StoreEver Ultrium 45000 FC & SAS (LTO-9 HH)
Vendor	Hewlett Packard Enterprise
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	NCA1
Supported version	11.0
Operating system	Windows 2019

Device#5609	
Model	LTO 9 Half-Height
Vendor	Quantum
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	P371
Supported version	11.0
Operating system	Windows 2019

Device#5610	
Model	VTL 2.0
Vendor	Commvault
Device	VTLs
Notes	208 - Supported as of v11.24. Commvault VTL 2.0 is a disk-based library, hosted on a standalone Linux server, that emulates traditional tape devices. Refer to BOL, Expert Documentation, for details to deploy.
Firmware	3.0.50.45
Supported version	11.0
Operating system	Windows 2019

Device#5611	
Model	3584 (TS3500)
Vendor	IBM
Device	Libraries

Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	G060
Supported version	11.0
Operating system	Windows 2022

Device#5612	
Model	PowerVault ML6000 Series
Vendor	Dell
Device	Libraries
Notes	103 - ML6000 FW 710G.GS007 (A35) supports the following Drive FW revisions: LTO3: 93GM, LTO4: C7QH, LTO5: H970, LTO6: J450, LTO7: J4D0, LTO8: J4D0 **WIN driver (install_exclusive.exe): In-Box driver for WIN2022, v7.0.0.8 for WIN2019 & WIN2016, v6.2.6.8 WIN2012 (supports LTO6 and higher), v6.2.5.2 for WIN2k8 (up to LTO6, no LTO7 or greater supported on WIN2k8).
Firmware	A35: 710G.GS007
Supported version	11.0
Operating system	Windows 2022

Device#5613	
Model	TL2000/TL4000
Vendor	Dell
Device	Libraries
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	F.11
Supported version	11.0
Operating system	Windows 2022

Device#5614	
Model	ETERNUS LT20/40/60 S2
Vendor	Fujitsu
Device	Libraries
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.

Firmware	LT20 S2: v2.20, LT40/LT60 S2: v5.0
Supported version	11.0
Operating system	Windows 2022

Device#5615	
Model	3572-TL (TS2900)
Vendor	IBM
Device	Libraries
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	0130
Supported version	11.0
Operating system	Windows 2022

Device#5616	
Model	3573-TL (TS3100-TS3200)
Vendor	IBM
Device	Libraries
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	F.01
Supported version	11.0
Operating system	Windows 2022

Device#5617	
Model	3576-MTL (TS3310)
Vendor	IBM
Device	Libraries

Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	710G.GS007
Supported version	11.0
Operating system	Windows 2022

Device#5618	
Model	LL009F
Vendor	NEC
Device	Libraries
Notes	203 - Certified drive FW/driver revisions: IBM Ultrium-HH4 BBH5, Ultrium-HH5 F997, Ultrium-HH6 F9A7, Ultrium-HH7 H5B5
Firmware	0005
Supported version	11.0
Operating system	Windows 2022

Device#5619	
Model	Scalar i6000
Vendor	Quantum
Device	Libraries
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	656Q.GS01501(i10.5),800Q.GS25700 (i13.x)
Supported version	11.0
Operating system	Windows 2022

Device#5620	
Model	SL3000
Vendor	Oracle/SUN/STK
Device	Libraries
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	3.61; 4.00
Supported version	11.0
Operating system	Windows 2022

Device#5621	
Model	FalconStor VTL
Vendor	FalconStor
Device	VTLs
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.

Firmware	5.00A
Supported version	11.0
Operating system	Windows 2022

Device#5622	
Model	Data Domain VTL
Vendor	Dell EMC Data Domain
Device	VTLs
Notes	115 - DataDomain VTL Software option is supported on the follwing platorms: DDX Array Series, Appliance Series, Gateway Series.
Firmware	6.1.x.x, 6.2.x.x , 7.1.x.x
Supported version	11.0
Operating system	Windows 2022

Device#5623	
Model	StoreOnce G3 Series
Vendor	Hewlett Packard Enterprise
Device	VTLs
Notes	143 - Please visit https://www.hpe.com/Storage/StoreOnceSupportMatrix or https://h20272.www2.hpe.com/SPOCK/Pages/spock2Html.aspx?htmlFile=hw_storeever.html to view the HPE Compatibility Matrix for most current supported firmware revisions for specific drive/library/hba combinations.
Firmware	3.13.x
Supported version	11.0
Operating system	Windows 2022

Device#5624	
Model	DX Series
Vendor	Quantum
Device	VTLs

Notes	145 - The following minimum firmware revisions are necessary on the VTL to correct performance issues for hardware deduplication when used with Simpana 8.0: DXi7500 DXi6500 The fix for those are in release 1.4 of the fw. DXi4500 The fix for those are in release 1.3.1 of the fw. DXi2500-D The fix for those are in release 1.1.1.4_25 DXi3500 DXi5500 The fix for those are in release 1.7.3.1 of the fw
Firmware	1.7.3.1
Supported version	11.0
Operating system	Windows 2022

Device#5625	
Model	DXi 6700/6802 Series
Vendor	Quantum
Device	VTLs
Notes	145 - The following minimum firmware revisions are necessary on the VTL to correct performance issues for hardware deduplication when used with Simpana 8.0: DXi7500 DXi6500 The fix for those are in release 1.4 of the fw. DXi4500 The fix for those are in release 1.3.1 of the fw. DXi2500-D The fix for those are in release 1.1.1.4_25 DXi3500 DXi5500 The fix for those are in release 1.7.3.1 of the fw
Firmware	v2.2_68, v2.3.0
Supported version	11.0
Operating system	Windows 2022

Device#5626	
Model	DXi 7500
Vendor	Quantum
Device	VTLs

Notes	145 - The following minimum firmware revisions are necessary on the VTL to correct performance issues for hardware deduplication when used with Simpana 8.0: DXi7500 DXi6500 The fix for those are in release 1.4 of the fw. DXi4500 The fix for those are in release 1.3.1 of the fw. DXi2500-D The fix for those are in release 1.1.1.4_25 DXi3500 DXi5500 The fix for those are in release 1.7.3.1 of the fw
Firmware	v2.1
Supported version	11.0
Operating system	Windows 2022

Device#5627	
Model	DXi 3500/5500
Vendor	Quantum
Device	VTLs
Notes	145 - The following minimum firmware revisions are necessary on the VTL to correct performance issues for hardware deduplication when used with Simpana 8.0: DXi7500 DXi6500 The fix for those are in release 1.4 of the fw. DXi4500 The fix for those are in release 1.3.1 of the fw. DXi2500-D The fix for those are in release 1.1.1.4_25 DXi3500 DXi5500 The fix for those are in release 1.7.3.1 of the fw
Firmware	1.7.3.1
Supported version	11.0
Operating system	Windows 2022

Device#5628	
Model	3590 B1A/E1A/H1A
Vendor	IBM
Device	Drives

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	E350
Supported version	11.0
Operating system	Windows 2022

Device#5629	
Model	3592 E05 (TS1120)
Vendor	IBM
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. Firmware	1.5.0.0
Supported version	11.0
Operating system	Windows 2022

Device#5691	
Model	HH LTO Gen 8
Vendor	IBM
Device	Drives
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	N9M1
Supported version	11.0
Operating system	Windows 2022

Device#5692	
Model	Ultrium-TD8
Vendor	IBM
Device	Drives

Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	HB83
Supported version	11.0
Operating system	Windows 2022

Device#5693	
Model	ULT3580-HH8
Vendor	IBM
Device	Drives
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	J4D1
Supported version	11.0
Operating system	Windows 2022

Device#5694	
Model	ULT3580-TD8
Vendor	IBM
Device	Drives
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	HB83
Supported version	11.0
Operating system	Windows 2022

Device#5695	
Model	Ultrium-HH8
Vendor	IBM
Device	Drives
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	J4D1
Supported version	11.0
Operating system	Windows 2022

Device#5696	
Model	NEOxl 40
Vendor	Overland-Tandberg
Device	Libraries
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. Firmware	1.4.0.0-A07
Supported version	11.0
Operating system	Windows 2022

Device#5698	
Model	SL4000
Vendor	Oracle/SUN/STK
Device	Libraries
Firmware	1.0.0.66
Supported version	11.0
Operating system	Windows 2022

Device#5699	
Model	StoreOnce 4xxx Series
Vendor	Hewlett Packard Enterprise
Device	VTLs
Notes	143 - Please visit https://www.hpe.com/Storage/StoreOnceSupportMatrix or https://h20272.www2.hpe.com/SPOCK/Pages/spock2Html.aspx?htmlFile=hw_storeever.html to view the HPE Compatibility Matrix for most current supported firmware revisions for specific drive/library/hba combinations.
Firmware	3.18.5
Supported version	11.0
Operating system	Windows 2022

Device#5700

Model	StoreOnce G4 Series
Vendor	Hewlett Packard Enterprise
Device	VTLs
Notes	143 - Please visit https://www.hpe.com/Storage/StoreOnceSupportMatrix or https://h20272.www2.hpe.com/SPOCK/Pages/spock2Html.aspx?htmlFile=hw_storeever.html to view the HPE Compatibility Matrix for most current supported firmware revisions for specific drive/library/hba combinations.
Firmware	4.1.0, 4.1.3
Supported version	11.0
Operating system	Windows 2022

Device#5701	
Model	DXi 4800
Vendor	Quantum
Device	VTLs
Firmware	v4.1
Supported version	11.0
Operating system	Windows 2022

Device#5702	
Model	3592 60F (TS1160)
Vendor	IBM
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Firmware	P371
Supported version	11.0
Operating system	Windows 2022

Device#5711	
Model	VTL 2.0
Vendor	Commvault
Device	VTLs
Notes	208 - Supported as of v11.24. Commvault VTL 2.0 is a disk-based library, hosted on a standalone Linux server, that emulates traditional tape devices. Refer to BOL, Expert Documentation, for details to deploy.
Firmware	3.0.50.45
Supported version	11.0
Operating system	Windows 2022
