Tape Storage Matrix Guide

Device#1	
Model	StoreEver Ultrium 232 SCSI (LTO1)
Vendor	Hewlett Packard Enterprise
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	P61D
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#2	
Model	StoreEver Ultrium 215 SCSI (LTO1)
Vendor	Hewlett Packard Enterprise
Device	Drives

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	N27D
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit
OS Notes	["001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.\n\n","002 - Entire Series/Family Supported","003 - Field Certified"]

Device#3	
Model	StoreEver Ultrium 230 SCSI (LTO1)
Vendor	Hewlett Packard Enterprise
Device	Drives

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	E32D
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#4	
Model	StoreEver Ultrium 448 SAS (LTO2)
Vendor	Hewlett Packard Enterprise
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	T65D
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#5	
Model	StoreEver Ultrium 448 SCSI (LTO2)
Vendor	Hewlett Packard Enterprise
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	S65D
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#6	
Model	StoreEver Ultrium 460 FC (LTO2)
Vendor	Hewlett Packard Enterprise
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.

Firmware	K42D
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#7	
Model	StoreEver Ultrium 460 SCSI (LTO2)
Vendor	Hewlett Packard Enterprise
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#29	
Model	StoreEver MSL 2024 (MSL G3 Series)
Vendor	Hewlett Packard Enterprise
Device	Libraries
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	7.02
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#30	
Model	MSL 6000 Series
Vendor	Hewlett Packard Enterprise
Device	Libraries
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. Device#122	
Model	QLA24xx Series
Vendor	QLogic
Device	HBAs
Notes	092 - Entire QLA24xx Series includes: QLA2440, QLA2460, QLA2462
Firmware	v8.01.02
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#123	
Model	QLA4010x
Vendor	QLogic
Device	HBAs
Firmware	3.0.0.18
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#124	
Model	QLA405x Series

Vendor	QLogic
Device	HBAs
Notes	097 - Entire QLA405x Series includes: QLA4050, QLA4052
Firmware	v1.15 (3.0.01.53)
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#125	
Model	QLE24xx Series
Vendor	QLogic
Device	HBAs
Notes	096 - Entire QLE24xx Series includes: QLE2440, QLE2460, QLE2462, QLE2464
Firmware	v8.01.02
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#126	
Model	QLE25xx Series
Vendor	QLogic
Device	HBAs
Notes	149 - Entire QLE25xx Series includes: QLE2560, QLE2562, QLE2564
Firmware	v8.01.02
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#127	
Model	QME2572
Vendor	QLogic
Device	HBAs
Notes	150 - Mezzanine version of QLE25xx Series.
Firmware	v2.12 (4.06.02)
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#128	
Model	QMI2572
Vendor	QLogic
Device	HBAs
Notes	150 - Mezzanine version of QLE25xx Series.
Firmware	v2.12 (4.06.02)
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#129	
Model	QMI3572
Vendor	QLogic
Device	HBAs
Notes	150 - Mezzanine version of QLE25xx Series.
Firmware	v2.12 (4.06.02)
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#130	
Model	PV35F (Crossroads)
Vendor	Dell
Device	Bridges
Firmware	C9913D
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#131	
Model	TL24iSCSIxSAS
Vendor	Dell
Device	Bridges
Notes	125 - The TL24iSCSIxSAS bridge is supported with the Dell TL2000/TL4000 library using software initiators. Supported OS: Win2k3, Win2k3 x64, Win2008 32-bit, Win2008 R2, Win2008 x64, Win2012, Win2012 R2, RH 4 & 5, SUSE 9&10; Supported drive types: LTO3, LTO4 & LTO5 SAS drives
Firmware	1.02.04
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#132	
Model	Magnum Tape Drive (LTO-2)
Vendor	Exabyte
Device	Drives

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	4.68
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#133	
Model	Mammoth
Vendor	Exabyte
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	A110
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#268	
Model	UHDL
Vendor	Tandberg
Device	Libraries
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. Firmware	V45
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#269	
Model	29160/39160
Vendor	Adaptec
Device	HBAs
Firmware	3.10.0
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#270	
Model	29320/39320
Vendor	Adaptec
Device	HBAs
Firmware	4.30.0
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#271	
Model	29320LPE
Vendor	Adaptec
Device	HBAs
Firmware	4.31.9
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#272	
Model	2944UW
Vendor	Adaptec
Device	HBAs
Firmware	2.20
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#273	
Model	ExpressSAS H3xx
Vendor	ATTO
Device	HBAs
Firmware	2010_6_23
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#274	
Model	FC-21PS

Vendor	ATTO
Device	HBAs
Notes	004 - Manufacturer Discontinued
Firmware	2007_11_13
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#275	
Model	FC-24XL
Vendor	ATTO
Device	HBAs
Notes	004 - Manufacturer Discontinued
Firmware	2006_12_08
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#276	
Model	FC-3322
Vendor	ATTO
Device	HBAs
Notes	004 - Manufacturer Discontinued
Firmware	2003_8_04
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#277	
Model	FC-41ES
Vendor	ATTO
Device	HBAs
Firmware	2010_7_30
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#278	
Model	FC-41XS
Vendor	ATTO
Device	HBAs
Notes	004 - Manufacturer Discontinued
Firmware	2010_7_30
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#279	
Model	FC-42ES
Vendor	ATTO
Device	HBAs

Firmware	2010_7_30
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#280	
Model	FCSW
Vendor	ATTO
Device	HBAs
Notes	004 - Manufacturer Discontinued
Firmware	2.40
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#281	
Model	UL3S
Vendor	ATTO
Device	HBAs
Notes	004 - Manufacturer Discontinued
Firmware	1.68
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#282	
Model	UL4D
Vendor	ATTO
Device	HBAs
Firmware	2009_4_10
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#283	
Model	UL4S
Vendor	ATTO
Device	HBAs
Notes	004 - Manufacturer Discontinued
Firmware	2009_4_10
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#284	
Model	UL5D
Vendor	ATTO
Device	HBAs
Firmware	2009_4_10
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#285	
Model	415/425 FC
Vendor	Brocade
Device	HBAs
Firmware	2.2.0.1
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#286	
Model	815/825 FC
Vendor	Brocade
Device	HBAs
Firmware	2.2.0.1
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#287	
Model	LP101-E
Vendor	Emulex
Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	1.92a1
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#288	
Model	LP10xxx Series
Vendor	Emulex
Device	HBAs
Notes	095 - Entire LP10xxx Series includes: LP10000, LP10000DC, LP1050, LP1050DC, LP10000ExDC, LP1050Ex
Firmware	1.92a5
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#289	
Model	LP11xxx Series
Vendor	Emulex
Device	HBAs
Notes	094 - Entire LP11xxx Series includes: LP11000, LP11002, LP1150
Firmware	2.82a4
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#290	
Model	LP8000
Vendor	Emulex
Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	3.93a0
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#291	
Model	LP850
Vendor	Emulex
Device	HBAs
Firmware	3.30a7; 3.93a0 (Dragon fly chip v2.00+)
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#292	
Model	LP9002
Vendor	Emulex
Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	WIN/Linux: 3.92a2; SOL: 3.93a0
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#293	
Model	LP9402DC
Vendor	Emulex
Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	3.93a0
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#294	
Model	LP952L
Vendor	Emulex
Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	3.93a0
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#295

Model	LP9802
Vendor	Emulex
Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	1.92a1
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#296	
Model	LP982
Vendor	Emulex
Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	1.92a1
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#297	
Model	LP9xxx Series
Vendor	Emulex
Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	1.92a1/3.93a0
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#298	
Model	LPe11xxx Series
Vendor	Emulex
Device	HBAs
Notes	093 - Entire LPe11xxx Series includes: LPe11000, LPe11002, LPe1150
Firmware	2.82a4
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#299	
Model	LPe12xxx Series
Vendor	Emulex
Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	2.02.a4
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#300

Model	157299-B21
Vendor	Hewlett Packard Enterprise
Device	HBAs
Notes	004 - Manufacturer Discontinued
Firmware	2.2
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#301	
Model	A7298A (LP982)
Vendor	Hewlett Packard Enterprise
Device	HBAs
Notes	143 - Please visit https://www.hpe.com/Storage/StoreOnceSupportMatrix or https://h20272.www2.hpe.com/SPOCK/Pages/spock2Html.aspx?htmlFile=hw_storeever.html to view the HPE Compatibility Matrix for most current supported firmware revisions for specific drive/library/hba combinations.
Firmware	1.01.a2
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#302	
Model	AB232A (LP9802)
Vendor	Hewlett Packard Enterprise
Device	HBAs
Notes	143 - Please visit https://www.hpe.com/Storage/StoreOnceSupportMatrix or https://h20272.www2.hpe.com/SPOCK/Pages/spock2Html.aspx?htmlFile=hw_storeever.html to view the HPE Compatibility Matrix for most current supported firmware revisions for specific drive/library/hba combinations.
Firmware	1.01a2
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#303	
Model	AJ764A (Qlogic QLE2562)
Vendor	Hewlett Packard Enterprise
Device	HBAs

Notes	143 - Please visit https://www.hpe.com/Storage/StoreOnceSupportMatrix or https://h20272.www2.hpe.com/SPOCK/Pages/spock2Html.aspx?htmlFile=hw_storeever.html to view the HPE Compatibility Matrix for most current supported firmware revisions for specific drive/library/hba combinations.
Firmware	Not posted
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#304	
Model	FCA2101 (LP952)
Vendor	Hewlett Packard Enterprise
Device	HBAs
Notes	027 - OEM from Emulex
Firmware	1.01a2
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#305	
Model	FCA2214 (QLA2340)
Vendor	Hewlett Packard Enterprise
Device	HBAs
Notes	143 - Please visit https://www.hpe.com/Storage/StoreOnceSupportMatrix or https://h20272.www2.hpe.com/SPOCK/Pages/spock2Html.aspx?htmlFile=hw_storeever.html to view the HPE Compatibility Matrix for most current supported firmware revisions for specific drive/library/hba combinations.
Firmware	1.33
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#306	
Model	FCA2355 (LP9002DC)
Vendor	Hewlett Packard Enterprise
Device	HBAs
Notes	027 - OEM from Emulex
Firmware	3.91a1
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#307

Model	FCA2404 (LP9802)
Vendor	Hewlett Packard Enterprise
Device	HBAs
Notes	027 - OEM from Emulex
Firmware	1.01a2
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#308	
Model	FCA2404DC (LP9802DC)
Vendor	Hewlett Packard Enterprise
Device	HBAs
Notes	027 - OEM from Emulex
Firmware	1.01a2
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#309	
Model	FCA2408 (LP982)
Vendor	Hewlett Packard Enterprise
Device	HBAs
Notes	027 - OEM from Emulex
Firmware	1.01a2
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#310	
Model	KGPSA-CB (LP8000)
Vendor	Hewlett Packard Enterprise
Device	HBAs
Firmware	3.82a1
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#311	
Model	SC44GE (LSI SAS3801x)
Vendor	Hewlett Packard Enterprise
Device	HBAs
Firmware	1.07.00.0
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#312	
Model	43W4324
Vendor	IBM
Device	HBAs

Firmware	4.30.02
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#313	
Model	LSI 20320-R
Vendor	LSI Logic
Device	HBAs
Firmware	1.05.01
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#314	
Model	LSI U320
Vendor	LSI Logic
Device	HBAs
Firmware	1.05.01
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#315	
Model	LSI 22915a
Vendor	LSI Logic
Device	HBAs
Firmware	4.19.00
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#316	
Model	LSI 44929
Vendor	LSI Logic
Device	HBAs
Firmware	1.00.09
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#317	
Model	LSI 7102XP
Vendor	LSI Logic
Device	HBAs
Firmware	1.05.06
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#318	
Model	LSI 7104XP

Vendor	LSI Logic
Device	HBAs
Firmware	1.05.06
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#319	
Model	LSI 7202XP
Vendor	LSI Logic
Device	HBAs
Firmware	1.05.06
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#320	
Model	LSI 7204XP
Vendor	LSI Logic
Device	HBAs
Firmware	1.05.06
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#321	
Model	LSI 7404XP
Vendor	LSI Logic
Device	HBAs
Firmware	1.05.06
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#322	
Model	LSI SAS3442x
Vendor	LSI Logic
Device	HBAs
Firmware	3.16.00
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#323	
Model	LSI SAS3801e
Vendor	LSI Logic
Device	HBAs
Firmware	3.16.00
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#324	
Model	LSI SAS3801x
Vendor	LSI Logic
Device	HBAs
Firmware	3.16.00
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#325	
Model	LSI SAS9200
Vendor	LSI Logic
Device	HBAs
Firmware	4.00.00.00
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#326	
Model	LSI SAS3041
Vendor	LSI Logic
Device	HBAs
Firmware	3.16.00
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#327	
Model	SATAII150 TX4
Vendor	Promise Technology
Device	HBAs
Notes	004 - Manufacturer Discontinued
Firmware	1.0.0.34/1.0
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#328	
Model	QLE2360 / QLE2362
Vendor	QLogic
Device	HBAs
Firmware	v1.05
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#329	
Model	PV 124T (LTO3-060 HH SAS, IBM)
Vendor	Dell
Device	Libraries

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	v90
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#330	
Model	StoreEver DAT160 SCSI
Vendor	Hewlett Packard Enterprise
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. Firmware	WP8A
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#331	
Model	Diamond VTL
Vendor	ATTO
Device	VTLs
Notes	004 - Manufacturer Discontinued
Firmware	0001
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#332	
Model	StoreWay Virtuo Family
Vendor	Bull
Device	VTLs
Firmware	7.1
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#333	
Model	TS7510
Vendor	IBM
Device	VTLs
Firmware	v1.1 Build 1143 (update-ve114311)
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#334	
Model	TS7520
Vendor	IBM
Device	VTLs
Firmware	update-ve1382upto34-SP06
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#335	
Model	TS7530
Vendor	IBM
Device	VTLs
Firmware	update-ve150715
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#336	
Model	TS7650
Vendor	IBM
Device	VTLs

Firmware	3.3.0; 3.4.0
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#337	
Model	NetApp VTL
Vendor	NetApp
Device	VTLs
Notes	102 - Supprt for the VTLs ShadowCopy functionality is added in Galaxy 7.0.
Firmware	5.6.3
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#338	
Model	S2100
Vendor	Sepaton
Device	VTLs
Firmware	2.0.4
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#339	
Model	230-HV
Vendor	ATTO
Device	Bridges
Notes	004 - Manufacturer Discontinued
Firmware	2.10
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#340	
Model	2300L
Vendor	ATTO
Device	Bridges
Notes	004 - Manufacturer Discontinued
Firmware	2.31
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#341	
Model	2400
Vendor	ATTO
Device	Bridges
Firmware	2.41
Supported version	10.0 and 11.0

Operating system	Windows 2003 32-bit

Device#342	
Model	10000
Vendor	Crossroads
Device	Bridges
Notes	002 - Entire Series/Family Supported
Firmware	4.03.1
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#343	
Model	4x50
Vendor	Crossroads
Device	Bridges
Notes	002 - Entire Series/Family Supported
Firmware	2009j
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#344	
Model	6000
Vendor	Crossroads
Device	Bridges
Notes	002 - Entire Series/Family Supported
Firmware	5.3.14
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#345	
Model	8000
Vendor	Crossroads
Device	Bridges
Notes	002 - Entire Series/Family Supported
Firmware	4.03AI
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#346	
Model	F-QIP
Vendor	Spectra Logic
Device	Bridges
Notes	029 - Internal FCO bridge designed for Spectralogic Gator Series libraries
Firmware	7.8.4.0
Supported version	10.0 and 11.0

Operating system	Windows 2003 32-bit

Device#347	
Model	DAT24 USB (C1537A)
Vendor	Hewlett Packard Enterprise
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Firmware	v19233204-600
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#417	
Model	FCR250
Vendor	ADIC
Device	Bridges
Notes	004 - Manufacturer Discontinued
Firmware	2009J
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#418	
Model	PL3000
Vendor	ADIC
Device	Bridges
Notes	004 - Manufacturer Discontinued
Firmware	4.10.09
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#419	
Model	SNC4000
Vendor	ADIC
Device	Bridges
Firmware	4.50.03
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#420	
Model	SNC5xxx
Vendor	ADIC
Device	Bridges
Firmware	4.45.18
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#421	
Model	SNC610x
Vendor	ADIC
Device	Bridges
Firmware	4.60.03
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#422	
Model	SNC6404
Vendor	ADIC
Device	Bridges
Firmware	4.70.02.22
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#423	
Model	FC-42XS
Vendor	ATTO
Device	HBAs
Notes	004 - Manufacturer Discontinued
Firmware	2010_7_30
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#424	
Model	FC-44ES
Vendor	ATTO
Device	HBAs

Firmware	2010_7_30
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#425	
Model	UL3D
Vendor	ATTO
Device	HBAs
Notes	004 - Manufacturer Discontinued
Firmware	1.68
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#426	
Model	3494
Vendor	IBM
Device	IP Controllers
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#427	
Model	TS7610
Vendor	IBM
Device	VTLs
Firmware	3.2.0; 3.3.0
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#428	
Model	TS7650 AP1
Vendor	IBM
Device	VTLs
Firmware	3.2.0; 3.3.0; 3.4.0
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#429	
Model	TS7650 G
Vendor	IBM
Device	VTLs
Firmware	3.2.0; 3.3.0; 3.4.0
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#430	
Model	Nissho VTLA Series

Vendor	Nissho Electronics
Device	VTLs
Firmware	3.2
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#431	
Model	Securitus VTL (Alacritus)
Vendor	NetApp
Device	VTLs
Notes	002 - Entire Series/Family Supported
Firmware	3.2
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#432	
Model	VTF Open (Dilligent Technologies)
Vendor	IBM
Device	VTLs
Firmware	1.4
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#433	
Model	AITe100-UL (SDX-460V)
Vendor	Sony
Device	Drives

Firmware	Z55S
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#494	
Model	LTO 6HH (HP)
Vendor	Oracle/SUN/STK
Device	Drives
Firmware	22GS
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#495	
Model	T120
Vendor	Spectra Logic
Device	Libraries
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	BlueScale12.7.03-20170726F
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#496	
Model	A8 T
Vendor	Imation
Device	VTLs

Firmware	1.33
Supported version	10.0 and 11.0
Operating system	Windows 2003 32-bit

Device#497	
Model	StoreEver Ultrium 6250 FC (LTO6 HH)
Vendor	Hewlett Packard Enterprise
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Operating system	Windows 2003 x64

Device#616	
Model	QLA4010x
Vendor	QLogic
Device	HBAs
Firmware	3.0.0.18
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#617	
Model	QLA405x Series
Vendor	QLogic
Device	HBAs
Notes	097 - Entire QLA405x Series includes: QLA4050, QLA4052
Firmware	v1.15 (3.0.01.53)
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#618	
Model	QLE24xx Series
Vendor	QLogic
Device	HBAs
Notes	096 - Entire QLE24xx Series includes: QLE2440, QLE2460, QLE2462, QLE2464
Firmware	v8.01.02
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#619	
Model	QLE25xx Series
Vendor	QLogic
Device	HBAs
Notes	149 - Entire QLE25xx Series includes: QLE2560, QLE2562, QLE2564
Firmware	v8.01.02
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#620	
Model	QME2572
Vendor	QLogic
Device	HBAs
Notes	150 - Mezzanine version of QLE25xx Series.
Firmware	v2.12 (4.06.02)
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#621	
Model	QMI2572
Vendor	QLogic
Device	HBAs
Notes	150 - Mezzanine version of QLE25xx Series.

Firmware	v2.12 (4.06.02)
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#622	
Model	QMI3572
Vendor	QLogic
Device	HBAs
Notes	150 - Mezzanine version of QLE25xx Series.
Firmware	v2.12 (4.06.02)
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#623	
Model	PV35F (Crossroads)
Vendor	Dell
Device	Bridges
Firmware	C9913D
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#624	
Model	TL24iSCSIxSAS
Vendor	Dell
Device	Bridges
Notes	125 - The TL24iSCSIxSAS bridge is supported with the Dell TL2000/TL4000 library using software initiators. Supported OS: Win2k3, Win2k3 x64, Win2008 32-bit, Win2008 R2, Win2008 x64, Win2012, Win2012 R2, RH 4 & 5, SUSE 9&10; Supported drive types: LTO3, LTO4 & LTO5 SAS drives
Firmware	1.02.04
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#625	
Model	Magnum Tape Drive (LTO-2)
Vendor	Exabyte
Device	Drives

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	4.68
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#626	
Model	Mammoth
Vendor	Exabyte
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	V41J
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#627	
Model	Mammoth 2
Vendor	Exabyte
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Vendor	Tandberg
Device	Libraries

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	4.60
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#757	
Model	StorageLoader 2U LTO
Vendor	Tandberg

Firmware	V45
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#761	
Model	29160/39160
Vendor	Adaptec
Device	HBAs
Firmware	3.10.0
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#762	
Model	29320/39320
Vendor	Adaptec
Device	HBAs
Firmware	4.30.0
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#763

Model	29320LPE
Vendor	Adaptec
Device	HBAs
Firmware	4.31.9
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#764	
Model	2944UW
Vendor	Adaptec
Device	HBAs
Firmware	2.20
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#765	
Model	ExpressSAS H3xx
Vendor	ATTO
Device	HBAs
Firmware	2010_6_23
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#766	
Model	FC-21PS
Vendor	ATTO
Device	HBAs
Notes	004 - Manufacturer Discontinued
Firmware	2007_11_13
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#767	
Model	FC-24XL
Vendor	ATTO
Device	HBAs
Notes	004 - Manufacturer Discontinued
Firmware	2006_12_08
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#768	
Model	FC-41ES
Vendor	ATTO
Device	HBAs
Firmware	2010_7_30

Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#769	
Model	FC-41XS
Vendor	ATTO
Device	HBAs
Notes	004 - Manufacturer Discontinued
Firmware	2010_7_30
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#770	
Model	FC-42ES
Vendor	ATTO
Device	HBAs
Firmware	2010_7_30
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#771	
Model	UL4D
Vendor	ATTO
Device	HBAs
Firmware	2009_4_10
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#772	
Model	UL4S
Vendor	ATTO
Device	HBAs
Notes	004 - Manufacturer Discontinued
Firmware	2009_4_10
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#773	
Model	UL5D
Vendor	ATTO
Device	HBAs
Firmware	2009_4_10
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#774

Model	415/425 FC
Vendor	Brocade
Device	HBAs
Firmware	2.2.0.1
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#775	
Model	815/825 FC
Vendor	Brocade
Device	HBAs
Firmware	2.2.0.1
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#776	
Model	LP101-E
Vendor	Emulex
Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	1.92a1
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#777	
Model	LP10xxx Series
Vendor	Emulex
Device	HBAs
Notes	095 - Entire LP10xxx Series includes: LP10000, LP10000DC, LP1050, LP1050DC, LP10000ExDC, LP1050Ex
Firmware	1.92a5
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#778	
Model	LP11xxx Series
Vendor	Emulex
Device	HBAs
Notes	094 - Entire LP11xxx Series includes: LP11000, LP11002, LP1150
Firmware	2.82a4
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#779

Model	LP8000
Vendor	Emulex
Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	3.93a0
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#780	
Model	LP9002
Vendor	Emulex
Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	WIN/Linux: 3.92a2; SOL: 3.93a0
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#781	
Model	LP9402DC
Vendor	Emulex
Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	3.93a0
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#782	
Model	LP952L
Vendor	Emulex
Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	3.93a0
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#783	
Model	LP9802
Vendor	Emulex
Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	1.92a1
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#784	
Model	LP982

Vendor	Emulex
Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	1.92a1
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#785	
Model	LP9xxx Series
Vendor	Emulex
Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	1.92a1/3.93a0
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#786	
Model	LPe11xxx Series
Vendor	Emulex
Device	HBAs
Notes	093 - Entire LPe11xxx Series includes: LPe11000, LPe11002, LPe1150
Firmware	2.82a4
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#787	
Model	LPe12xxx Series
Vendor	Emulex
Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	2.02.a4
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#788	
Model	AJ764A (Qlogic QLE2562)
Vendor	Hewlett Packard Enterprise
Device	HBAs

Notes	143 - Please visit https://www.hpe.com/Storage/StoreOnceSupportMatrix or https://h20272.www2.hpe.com/SPOCK/Pages/spock2Html.aspx?htmlFile=hw_storeever.html to view the HPE Compatibility Matrix for most current supported firmware revisions for specific drive/library/hba combinations.
Firmware	Not posted
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#789	
Model	FCA2101 (LP952)
Vendor	Hewlett Packard Enterprise
Device	HBAs
Notes	027 - OEM from Emulex
Firmware	1.01a2
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#790	
Model	FCA2214 (QLA2340)
Vendor	Hewlett Packard Enterprise
Device	HBAs
Notes	143 - Please visit https://www.hpe.com/Storage/StoreOnceSupportMatrix or https://h20272.www2.hpe.com/SPOCK/Pages/spock2Html.aspx?htmlFile=hw_storeever.html to view the HPE Compatibility Matrix for most current supported firmware revisions for specific drive/library/hba combinations.
Firmware	1.33
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#791	
Model	FCA2404 (LP9802)
Vendor	Hewlett Packard Enterprise
Device	HBAs
Notes	027 - OEM from Emulex
Firmware	1.01a2
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#792

Model	FCA2404DC (LP9802DC)
Vendor	Hewlett Packard Enterprise
Device	HBAs
Notes	027 - OEM from Emulex
Firmware	1.01a2
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#793	
Model	FCA2408 (LP982)
Vendor	Hewlett Packard Enterprise
Device	HBAs
Notes	027 - OEM from Emulex
Firmware	1.01a2
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#794	
Model	KGPSA-CB (LP8000)
Vendor	Hewlett Packard Enterprise
Device	HBAs
Firmware	3.82a1
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#795	
Model	SC44GE (LSI SAS3801x)
Vendor	Hewlett Packard Enterprise
Device	HBAs
Firmware	1.07.00.0
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#796	
Model	43W4324
Vendor	IBM
Device	HBAs
Firmware	4.30.02
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#797	
Model	LSI 20320-R
Vendor	LSI Logic
Device	HBAs
Firmware	1.05.01

Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#798	
Model	LSI U320
Vendor	LSI Logic
Device	HBAs
Firmware	1.05.01
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#799	
Model	LSI 44929
Vendor	LSI Logic
Device	HBAs
Firmware	1.00.09
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#800	
Model	LSI 7102XP
Vendor	LSI Logic
Device	HBAs
Firmware	1.05.06
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#801	
Model	LSI 7104XP
Vendor	LSI Logic
Device	HBAs
Firmware	1.05.06
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#802	
Model	LSI 7202XP
Vendor	LSI Logic
Device	HBAs
Firmware	1.05.06
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#803	
Model	LSI 7204XP
Vendor	LSI Logic

Device	HBAs
Firmware	1.05.06
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#804	
Model	LSI 7404XP
Vendor	LSI Logic
Device	HBAs
Firmware	1.05.06
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#805	
Model	LSI SAS3442x
Vendor	LSI Logic
Device	HBAs
Firmware	3.16.00
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#806	
Model	LSI SAS3801e
Vendor	LSI Logic
Device	HBAs
Firmware	3.16.00
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#807	
Model	LSI SAS3801x
Vendor	LSI Logic
Device	HBAs
Firmware	3.16.00
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#808	
Model	LSI SAS9200
Vendor	LSI Logic
Device	HBAs
Firmware	4.00.00.00
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#809

Model	LSI SAS3041
Vendor	LSI Logic
Device	HBAs
Firmware	3.16.00
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#810	
Model	SATAII150 TX4
Vendor	Promise Technology
Device	HBAs
Notes	004 - Manufacturer Discontinued
Firmware	1.0.0.34/1.0
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#811	
Model	QLE2360 / QLE2362
Vendor	QLogic
Device	HBAs
Firmware	v1.05
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#812	
Model	PV 124T (LTO3-060 HH SAS, IBM)
Vendor	Dell
Device	Libraries
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	v90

Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#813	
Model	StoreEver DAT160 SCSI
Vendor	Hewlett Packard Enterprise
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Firmware	WP8A
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#814	
Model	Diamond VTL
Vendor	ATTO
Device	VTLs
Notes	004 - Manufacturer Discontinued
Firmware	0001
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#815	
Model	StoreWay Virtuo Family
Vendor	Bull
Device	VTLs
Firmware	7.1
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#816

Model	TS7510
Vendor	IBM
Device	VTLs
Firmware	v1.1 Build 1143 (update-ve114311)
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#817	
Model	TS7520
Vendor	IBM
Device	VTLs
Firmware	update-ve1382upto34-SP06
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#818	
Model	TS7530
Vendor	IBM
Device	VTLs
Firmware	update-ve150715
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#819	
Model	TS7650
Vendor	IBM
Device	VTLs
Firmware	3.3.0; 3.4.0
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#820	
Model	NetApp VTL
Vendor	NetApp
Device	VTLs
Notes	102 - Supprt for the VTLs ShadowCopy functionality is added in Galaxy 7.0.
Firmware	5.6.3
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#821	
Model	S2100
Vendor	Sepaton
Device	VTLs
Firmware	2.0.4

Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#822	
Model	230-HV
Vendor	ATTO
Device	Bridges
Notes	004 - Manufacturer Discontinued
Firmware	2.10
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#823	
Model	2300L
Vendor	ATTO
Device	Bridges
Notes	004 - Manufacturer Discontinued
Firmware	2.31
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#824	
Model	2400
Vendor	ATTO
Device	Bridges
Firmware	2.41
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#825	
Model	10000
Vendor	Crossroads
Device	Bridges
Notes	002 - Entire Series/Family Supported
Firmware	4.03.1
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#826	
Model	4x50
Vendor	Crossroads
Device	Bridges
Notes	002 - Entire Series/Family Supported
Firmware	2009j
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#827	
Model	6000
Vendor	Crossroads
Device	Bridges
Notes	002 - Entire Series/Family Supported
Firmware	5.3.14
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#828	
Model	8000
Vendor	Crossroads
Device	Bridges
Notes	002 - Entire Series/Family Supported
Firmware	4.03AI
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#829	
Model	F-QIP
Vendor	Spectra Logic
Device	Bridges
Notes	029 - Internal FCO bridge designed for Spectralogic Gator Series libraries
Firmware	7.8.4.0
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#830	
Model	DAT24 USB (C1537A)
Vendor	Hewlett Packard Enterprise
Device	Drives

Firmware	v19233204-600
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#898	
Model	FCR250
Vendor	ADIC
Device	Bridges
Notes	004 - Manufacturer Discontinued
Firmware	2009J
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#899	
Model	PL3000
Vendor	ADIC
Device	Bridges
Notes	004 - Manufacturer Discontinued
Firmware	4.10.09
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#900	
Model	SNC4000
Vendor	ADIC
Device	Bridges
Firmware	4.50.03
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#901	
Model	SNC5xxx
Vendor	ADIC
Device	Bridges
Firmware	4.45.18
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#902	
Model	SNC610x
Vendor	ADIC
Device	Bridges
Firmware	4.60.03
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#903	
Model	SNC6404
Vendor	ADIC

Device	Bridges
Firmware	4.70.02.22
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#904	
Model	FC-42XS
Vendor	ATTO
Device	HBAs
Notes	004 - Manufacturer Discontinued
Firmware	2010_7_30
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#905	
Model	FC-44ES
Vendor	ATTO
Device	HBAs
Firmware	2010_7_30
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#906	
Model	3494
Vendor	IBM
Device	IP Controllers
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#907	
Model	TS7610
Vendor	IBM
Device	VTLs
Firmware	3.2.0; 3.3.0
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#908	
Model	TS7650 AP1
Vendor	IBM
Device	VTLs
Firmware	3.2.0; 3.3.0; 3.4.0
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#909

Model	TS7650 G
Vendor	IBM
Device	VTLs
Firmware	3.2.0; 3.3.0; 3.4.0
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#910	
Model	Nissho VTLA Series
Vendor	Nissho Electronics
Device	VTLs
Firmware	3.2
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#911	
Model	Securitus VTL (Alacritus)
Vendor	NetApp
Device	VTLs
Notes	002 - Entire Series/Family Supported
Firmware	3.2
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#912	
Model	VTF Open (Dilligent Technologies)
Vendor	IBM
Device	VTLs
Firmware	1.4
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#913	
Model	AITe100-UL (SDX-460V)
Vendor	Sony
Device	Drives

Firmware	BBNH
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#970	
Model	LTO 5HH (HP)
Vendor	Oracle/SUN/STK
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	Y5BS
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#971	
Model	LTO 5HH (HP) SAS
Vendor	Oracle/SUN/STK
Device	Drives

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	Z55S
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#972	
Model	LTO 6HH (HP)
Vendor	Oracle/SUN/STK
Device	Drives
Firmware	22GS
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#973	
Model	T120
Vendor	Spectra Logic
Device	Libraries
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	BlueScale12.7.03-20170726F
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#974	
Model	A8 T
Vendor	Imation
Device	VTLs

Firmware	1.33
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#975	
Model	StoreEver Ultrium 6250 FC (LTO6 HH)
Vendor	Hewlett Packard Enterprise
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	25MW
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#976	
Model	HH LTO6 FC
Vendor	Tandberg
Device	Drives

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	2319
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#977	
Model	HH LTO 5 FC
Vendor	Tandberg
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. Firmware	Y619
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#978	
Model	StoreEver Ultrium 6650 SAS (LTO6 FH)
Vendor	Hewlett Packard Enterprise
Device	Drives
Firmware	05ID
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#979	
Model	Virtual Storage Manager System 7
Vendor	Oracle/SUN/STK
Device	VTLs
Firmware	7.1.x
Supported version	10.0 and 11.0
Operating system	Windows 2003 x64

Device#980	
Model	StoreEver Ultrium 232 SCSI (LTO1)
Vendor	Hewlett Packard Enterprise
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Firmware	105
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit
OS Notes	["004 - Manufacturer Discontinued"]

Device#1078	
Model	SAS 5/e
Vendor	Dell
Device	HBAs
Notes	118 - OEM from LSI Logic.
Firmware	00.10.51.00
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1079	
Model	H200/SAS7 (6GB)
Vendor	Dell
Device	HBAs
Firmware	7.01.33.00
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1080	
Model	QLA231x Series
Vendor	QLogic
Device	HBAs
Notes	066 - Entire QLA231x Series includes the QLA2310x and QLA2312x.
Firmware	v1.54

Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1081	
Model	QLA234x Series
Vendor	QLogic
Device	HBAs
Notes	067 - Entire QLA234x Series includes the QLA2340x, QLA2342x and QLA2344x.
Firmware	v1.54
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1082	
Model	QLA24xx Series
Vendor	QLogic
Device	HBAs
Notes	092 - Entire QLA24xx Series includes: QLA2440, QLA2460, QLA2462
Firmware	v8.01.02
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1083	
Model	QLA405x Series
Vendor	QLogic
Device	HBAs
Notes	097 - Entire QLA405x Series includes: QLA4050, QLA4052
Firmware	v1.15 (3.0.01.53)
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1084	
Model	QLE24xx Series
Vendor	QLogic
Device	HBAs
Notes	096 - Entire QLE24xx Series includes: QLE2440, QLE2460, QLE2462, QLE2464
Firmware	v8.01.02
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1085	
Model	QLE25xx Series
Vendor	QLogic

Device	HBAs
Notes	149 - Entire QLE25xx Series includes: QLE2560, QLE2562, QLE2564
Firmware	v8.01.02
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1086	
Model	QME2572
Vendor	QLogic
Device	HBAs
Notes	150 - Mezzanine version of QLE25xx Series.
Firmware	v2.12 (4.06.02)
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1087	
Model	QMI2572
Vendor	QLogic
Device	HBAs
Notes	150 - Mezzanine version of QLE25xx Series.
Firmware	v2.12 (4.06.02)
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1088	
Model	QMI3572
Vendor	QLogic
Device	HBAs
Notes	150 - Mezzanine version of QLE25xx Series.
Firmware	v2.12 (4.06.02)
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1089	
Model	PV35F (Crossroads)
Vendor	Dell
Device	Bridges
Firmware	C9913D
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1090	
Model	TL24iSCSIxSAS

Vendor	Dell
Device	Bridges
Notes	125 - The TL24iSCSIxSAS bridge is supported with the Dell TL2000/TL4000 library using software initiators. Supported OS: Win2k3, Win2k3 x64, Win2008 32-bit, Win2008 R2, Win2008 x64, Win2012, Win2012 R2, RH 4 & 5, SUSE 9&10; Supported drive types: LTO3, LTO4 & LTO5 SAS drives
Firmware	1.02.04
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1091	
Model	Mammoth
Vendor	Exabyte
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. Firmware	V1B00
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1136	
Model	Magnum 224/448
Vendor	Exabyte
Device	Libraries
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.

Firmware	C284
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1137	
Model	Magnum 6x60 / Magnum 8x163
Vendor	Exabyte
Device	Libraries
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	2.6.4
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1138	
Model	PacketLoader 1x7
Vendor	Exabyte
Device	Libraries

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1205	
Model	STK L5500
Vendor	Oracle/SUN/STK
Device	Libraries
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	2.5.13
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1206	
Model	STK SL500
Vendor	Oracle/SUN/STK
Device	Libraries
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	1468; 1493
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1207	
Model	STK SL8500
Vendor	Oracle/SUN/STK
Device	Libraries
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Firmware	V45
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1223	
Model	29160/39160
Vendor	Adaptec
Device	HBAs
Firmware	3.10.0
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1224	
Model	29320/39320
Vendor	Adaptec
Device	HBAs
Firmware	4.30.0
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1225	
Model	29320LPE
Vendor	Adaptec
Device	HBAs
Firmware	4.31.9
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1226	
Model	2944UW
Vendor	Adaptec
Device	HBAs
Firmware	2.20
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1227	
Model	ExpressSAS H3xx
Vendor	ATTO
Device	HBAs
Firmware	2010_6_23
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1228	
Model	FC-41ES

Vendor	ATTO
Device	HBAs
Firmware	2010_7_30
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1229	
Model	FC-41XS
Vendor	ATTO
Device	HBAs
Notes	004 - Manufacturer Discontinued
Firmware	2010_7_30
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1230	
Model	FC-42ES
Vendor	ATTO
Device	HBAs
Firmware	2010_7_30
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1231	
Model	UL4D
Vendor	ATTO
Device	HBAs
Firmware	2009_4_10
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1232	
Model	UL4S
Vendor	ATTO
Device	HBAs
Notes	004 - Manufacturer Discontinued
Firmware	2009_4_10
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1233	
Model	UL5D
Vendor	ATTO
Device	HBAs
Firmware	2009_4_10
Supported version	10.0 and 11.0

Operating system	Windows 2008 32-bit

Device#1234	
Model	415/425 FC
Vendor	Brocade
Device	HBAs
Firmware	2.2.0.1
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1235	
Model	815/825 FC
Vendor	Brocade
Device	HBAs
Firmware	2.2.0.1
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1236	
Model	LP101-E
Vendor	Emulex
Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	1.92a1
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1237	
Model	LP10xxx Series
Vendor	Emulex
Device	HBAs
Notes	095 - Entire LP10xxx Series includes: LP10000, LP10000DC, LP1050, LP1050DC, LP10000ExDC, LP1050Ex
Firmware	1.92a5
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1238	
Model	LP11xxx Series
Vendor	Emulex
Device	HBAs
Notes	094 - Entire LP11xxx Series includes: LP11000, LP11002, LP1150
Firmware	2.82a4
Supported version	10.0 and 11.0

Operating system	Windows 2008 32-bit

Device#1239	
Model	LP9002
Vendor	Emulex
Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	WIN/Linux: 3.92a2; SOL: 3.93a0
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1240	
Model	LP9402DC
Vendor	Emulex
Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	3.93a0
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1241	
Model	LP952L
Vendor	Emulex
Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	3.93a0
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1242	
Model	LP9802
Vendor	Emulex
Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	1.92a1
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1243	
Model	LP982
Vendor	Emulex
Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	1.92a1
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1244	
Model	LP9xxx Series
Vendor	Emulex
Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	1.92a1/3.93a0
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1245	
Model	LPe11xxx Series
Vendor	Emulex
Device	HBAs
Notes	093 - Entire LPe11xxx Series includes: LPe11000, LPe11002, LPe1150
Firmware	2.82a4
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1246	
Model	LPe12xxx Series
Vendor	Emulex
Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	2.02.a4
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1247	
Model	AJ764A (Qlogic QLE2562)
Vendor	Hewlett Packard Enterprise
Device	HBAs
Notes	143 - Please visit https://www.hpe.com/Storage/StoreOnceSupportMatrix or https://h20272.www2.hpe.com/SPOCK/Pages/spock2Html.aspx?htmlFile=hw_storeever.html to view the HPE Compatibility Matrix for most current supported firmware revisions for specific drive/library/hba combinations.
Firmware	Not posted
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1248

Model	KGPSA-CB (LP8000)
Vendor	Hewlett Packard Enterprise
Device	HBAs
Firmware	3.82a1
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1249	
Model	SC44GE (LSI SAS3801x)
Vendor	Hewlett Packard Enterprise
Device	HBAs
Firmware	1.07.00.0
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1250	
Model	43W4324
Vendor	IBM
Device	HBAs
Firmware	4.30.02
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1251	
Model	LSI 20320-R
Vendor	LSI Logic
Device	HBAs
Firmware	1.05.01
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1252	
Model	LSI U320
Vendor	LSI Logic
Device	HBAs
Firmware	1.05.01
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1253	
Model	LSI 7102XP
Vendor	LSI Logic
Device	HBAs
Firmware	1.05.06
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1254	
Model	LSI 7104XP
Vendor	LSI Logic
Device	HBAs
Firmware	1.05.06
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1255	
Model	LSI 7202XP
Vendor	LSI Logic
Device	HBAs
Firmware	1.05.06
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1256	
Model	LSI 7204XP
Vendor	LSI Logic
Device	HBAs
Firmware	1.05.06
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1257	
Model	LSI 7404XP
Vendor	LSI Logic
Device	HBAs
Firmware	1.05.06
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1258	
Model	LSI SAS3442x
Vendor	LSI Logic
Device	HBAs
Firmware	3.16.00
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1259	
Model	LSI SAS3801e
Vendor	LSI Logic
Device	HBAs
Firmware	3.16.00

Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1260	
Model	LSI SAS3801x
Vendor	LSI Logic
Device	HBAs
Firmware	3.16.00
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1261	
Model	LSI SAS9200
Vendor	LSI Logic
Device	HBAs
Firmware	4.00.00.00
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1262	
Model	LSI SAS3041
Vendor	LSI Logic
Device	HBAs
Firmware	3.16.00
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1263	
Model	SATAII150 TX4
Vendor	Promise Technology
Device	HBAs
Notes	004 - Manufacturer Discontinued
Firmware	1.0.0.34/1.0
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1264	
Model	QLE2360 / QLE2362
Vendor	QLogic
Device	HBAs
Firmware	v1.05
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1265	
Model	PV 124T (LTO3-060 HH SAS, IBM)

Vendor	Dell
Device	Libraries
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	v90
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1266	
Model	StoreEver DAT160 SCSI
Vendor	Hewlett Packard Enterprise
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	WP8A
Supported version	10.0 and 11.0

Operating system	Windows 2008 32-bit

Device#1267	
Model	StoreWay Virtuo Family
Vendor	Bull
Device	VTLs
Firmware	7.1
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1268	
Model	TS7510
Vendor	IBM
Device	VTLs
Firmware	v1.1 Build 1143 (update-ve114311)
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1269	
Model	TS7520
Vendor	IBM
Device	VTLs
Firmware	update-ve1382upto34-SP06
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1270	
Model	TS7530
Vendor	IBM
Device	VTLs
Firmware	update-ve150715
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1271	
Model	TS7650
Vendor	IBM
Device	VTLs
Firmware	3.3.0; 3.4.0
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1272	
Model	NetApp VTL
Vendor	NetApp
Device	VTLs

Notes	102 - Supprt for the VTLs ShadowCopy functionality is added in Galaxy 7.0.
Firmware	5.6.3
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1273	
Model	S2100
Vendor	Sepaton
Device	VTLs
Firmware	2.0.4
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1274	
Model	230-HV
Vendor	ATTO
Device	Bridges
Notes	004 - Manufacturer Discontinued
Firmware	2.10
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1275	
Model	2300L
Vendor	ATTO
Device	Bridges
Notes	004 - Manufacturer Discontinued
Firmware	2.31
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1276	
Model	2400
Vendor	ATTO
Device	Bridges
Firmware	2.41
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1277	
Model	F-QIP
Vendor	Spectra Logic
Device	Bridges
Notes	029 - Internal FCO bridge designed for Spectralogic Gator Series libraries

Firmware	7.8.4.0
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1278	
Model	DAT24 USB (C1537A)
Vendor	Hewlett Packard Enterprise
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	XU5A
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1279	
Model	DAT40 (C5683A)
Vendor	Hewlett Packard Enterprise
Device	Drives

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. Firmware	S42R
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1331	
Model	CLL3200
Vendor	Certance
Device	Libraries
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	S42R
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1332	
Model	CLL6400
Vendor	Certance
Device	Libraries
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Firmware	v19233204-600
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1340	
Model	FCR250
Vendor	ADIC
Device	Bridges
Notes	004 - Manufacturer Discontinued
Firmware	2009J
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1341	
Model	PL3000
Vendor	ADIC
Device	Bridges
Notes	004 - Manufacturer Discontinued
Firmware	4.10.09
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1342	
Model	SNC4000
Vendor	ADIC
Device	Bridges
Firmware	4.50.03
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1343	
Model	SNC5xxx
Vendor	ADIC
Device	Bridges
Firmware	4.45.18
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1344	
Model	SNC610x
Vendor	ADIC
Device	Bridges
Firmware	4.60.03
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1345	
Model	SNC6404
Vendor	ADIC
Device	Bridges
Firmware	4.70.02.22
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1346	
Model	FC-42XS
Vendor	ATTO
Device	HBAs
Notes	004 - Manufacturer Discontinued
Firmware	2010_7_30
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1347	
Model	FC-44ES
Vendor	ATTO
Device	HBAs

Firmware	2010_7_30
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1348	
Model	TS7610
Vendor	IBM
Device	VTLs
Firmware	3.2.0; 3.3.0
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1349	
Model	TS7650 AP1
Vendor	IBM
Device	VTLs
Firmware	3.2.0; 3.3.0; 3.4.0
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1350	
Model	TS7650 G
Vendor	IBM
Device	VTLs
Firmware	3.2.0; 3.3.0; 3.4.0
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1351	
Model	AITe100-UL (SDX-460V)
Vendor	Sony
Device	Drives

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Operating system	Windows 2008 32-bit

Device#1370	
Model	NEO 2000/4000
Vendor	Overland Storage
Device	Libraries
Notes	004 - Manufacturer Discontinued
Firmware	616
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1371	
Model	NEO 2000e/4000e
Vendor	Overland Storage
Device	Libraries
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	2.0.518
Supported version	10.0 and 11.0
Operating system	Windows 2008 32-bit

Device#1372	
Model	HH LTO 5 SAS
Vendor	Tandberg

Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. Model	81E (Emulex LPe1200x)
Vendor	Hewlett Packard Enterprise
Device	HBAs
Notes	143 - Please visit https://www.hpe.com/Storage/StoreOnceSupportMatrix or https://h20272.www2.hpe.com/SPOCK/Pages/spock2Html.aspx?htmlFile=hw_storeever.html to view the HPE Compatibility Matrix for most current supported firmware revisions for specific drive/library/hba combinations.
Firmware	See note
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1476	
Model	82E (AH403A) Emulex LPe12002
Vendor	Hewlett Packard Enterprise
Device	HBAs
Notes	143 - Please visit https://www.hpe.com/Storage/StoreOnceSupportMatrix or https://h20272.www2.hpe.com/SPOCK/Pages/spock2Html.aspx?htmlFile=hw_storeever.html to view the HPE Compatibility Matrix for most current supported firmware revisions for specific drive/library/hba combinations.
Firmware	2.00a4
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1477	
Model	PowerVault LTO3-060 (Tandberg TS800)
Vendor	Dell
Device	Drives

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	4.09
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1478	
Model	PowerVault LTO3-060 (Quantum)
Vendor	Dell
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	2181
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1479	
Model	PowerVault LTO4-120HH (IBM)
Vendor	Dell
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. Firmware	105
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64
OS Notes	["004 - Manufacturer Discontinued"]

Device#1509	
Model	SAS 5/e
Vendor	Dell
Device	HBAs
Notes	118 - OEM from LSI Logic.
Firmware	00.10.51.00
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1510	
Model	H200/SAS7 (6GB)
Vendor	Dell
Device	HBAs
Firmware	7.01.33.00
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1511	
Model	QLA231x Series
Vendor	QLogic
Device	HBAs
Notes	066 - Entire QLA231x Series includes the QLA2310x and QLA2312x.
Firmware	v1.54

Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1512	
Model	QLA234x Series
Vendor	QLogic
Device	HBAs
Notes	067 - Entire QLA234x Series includes the QLA2340x, QLA2342x and QLA2344x.
Firmware	v1.54
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1513	
Model	QLA24xx Series
Vendor	QLogic
Device	HBAs
Notes	092 - Entire QLA24xx Series includes: QLA2440, QLA2460, QLA2462
Firmware	v8.01.02
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1514	
Model	QLA405x Series
Vendor	QLogic
Device	HBAs
Notes	097 - Entire QLA405x Series includes: QLA4050, QLA4052
Firmware	v1.15 (3.0.01.53)
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1515	
Model	QLE24xx Series
Vendor	QLogic
Device	HBAs
Notes	096 - Entire QLE24xx Series includes: QLE2440, QLE2460, QLE2462, QLE2464
Firmware	v8.01.02
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1516	
Model	QLE25xx Series
Vendor	QLogic

Device	HBAs
Notes	149 - Entire QLE25xx Series includes: QLE2560, QLE2562, QLE2564
Firmware	v8.01.02
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1517	
Model	QME2572
Vendor	QLogic
Device	HBAs
Notes	150 - Mezzanine version of QLE25xx Series.
Firmware	v2.12 (4.06.02)
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1518	
Model	QMI2572
Vendor	QLogic
Device	HBAs
Notes	150 - Mezzanine version of QLE25xx Series.
Firmware	v2.12 (4.06.02)
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1519	
Model	QMI3572
Vendor	QLogic
Device	HBAs
Notes	150 - Mezzanine version of QLE25xx Series.
Firmware	v2.12 (4.06.02)
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1520	
Model	3D Series
Vendor	EMC
Device	VTLs

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Firmware	1.1
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1521	
Model	PV35F (Crossroads)
Vendor	Dell
Device	Bridges
Firmware	C9913D
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1522	
Model	TL24iSCSIxSAS
Vendor	Dell
Device	Bridges
Notes	125 - The TL24iSCSIxSAS bridge is supported with the Dell TL2000/TL4000 library using software initiators. Supported OS: Win2k3, Win2k3 x64, Win2008 32-bit, Win2008 R2, Win2008 x64, Win2012, Win2012 R2, RH 4 & 5, SUSE 9&10; Supported drive types: LTO3, LTO4 & LTO5 SAS drives
Firmware	1.02.04
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1523	
Model	Mammoth

Vendor	Exabyte
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Device	Libraries
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.

Firmware	V45
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1625	
Model	29160/39160
Vendor	Adaptec
Device	HBAs
Firmware	3.10.0
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1626	
Model	29320/39320
Vendor	Adaptec
Device	HBAs
Firmware	4.30.0
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1627

Model	29320LPE
Vendor	Adaptec
Device	HBAs
Firmware	4.31.9
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1628	
Model	2944UW
Vendor	Adaptec
Device	HBAs
Firmware	2.20
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1629	
Model	ExpressSAS H3xx
Vendor	ATTO
Device	HBAs
Firmware	2010_6_23
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1630	
Model	FC-41ES
Vendor	ATTO
Device	HBAs
Firmware	2010_7_30
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1631	
Model	FC-41XS
Vendor	ATTO
Device	HBAs
Notes	004 - Manufacturer Discontinued
Firmware	2010_7_30
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1632	
Model	FC-42ES
Vendor	ATTO
Device	HBAs
Firmware	2010_7_30
Supported version	10.0 and 11.0

Operating system	Windows 2008 x64

Device#1633	
Model	UL4D
Vendor	ATTO
Device	HBAs
Firmware	2009_4_10
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1634	
Model	UL4S
Vendor	ATTO
Device	HBAs
Notes	004 - Manufacturer Discontinued
Firmware	2009_4_10
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1635	
Model	415/425 FC
Vendor	Brocade
Device	HBAs
Firmware	2.2.0.1
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1636	
Model	815/825 FC
Vendor	Brocade
Device	HBAs
Firmware	2.2.0.1
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1637	
Model	LP101-E
Vendor	Emulex
Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	1.92a1
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1638	
Model	LP10xxx Series

Vendor	Emulex
Device	HBAs
Notes	095 - Entire LP10xxx Series includes: LP10000, LP10000DC, LP1050, LP1050DC, LP10000ExDC, LP1050Ex
Firmware	1.92a5
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1639	
Model	LP11xxx Series
Vendor	Emulex
Device	HBAs
Notes	094 - Entire LP11xxx Series includes: LP11000, LP11002, LP1150
Firmware	2.82a4
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1640	
Model	LP850
Vendor	Emulex
Device	HBAs
Firmware	3.30a7; 3.93a0 (Dragon fly chip v2.00+)
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1641	
Model	LP9002
Vendor	Emulex
Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	WIN/Linux: 3.92a2; SOL: 3.93a0
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1642	
Model	LP9402DC
Vendor	Emulex
Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	3.93a0
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1643	
Model	LP952L
Vendor	Emulex
Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	3.93a0
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1644	
Model	LP9802
Vendor	Emulex
Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	1.92a1
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1645	
Model	LP982
Vendor	Emulex
Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	1.92a1
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1646	
Model	LP9xxx Series
Vendor	Emulex
Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	1.92a1/3.93a0
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1647	
Model	LPe11xxx Series
Vendor	Emulex
Device	HBAs
Notes	093 - Entire LPe11xxx Series includes: LPe11000, LPe11002, LPe1150
Firmware	2.82a4
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1648	
Model	LPe12xxx Series
Vendor	Emulex
Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	2.02.a4
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1649	
Model	AJ764A (Qlogic QLE2562)
Vendor	Hewlett Packard Enterprise
Device	HBAs
Notes	143 - Please visit https://www.hpe.com/Storage/StoreOnceSupportMatrix or https://h20272.www2.hpe.com/SPOCK/Pages/spock2Html.aspx?htmlFile=hw_storeever.html to view the HPE Compatibility Matrix for most current supported firmware revisions for specific drive/library/hba combinations.
Firmware	Not posted
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1650	
Model	KGPSA-CB (LP8000)
Vendor	Hewlett Packard Enterprise
Device	HBAs
Firmware	3.82a1
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1651	
Model	SC44GE (LSI SAS3801x)
Vendor	Hewlett Packard Enterprise
Device	HBAs
Firmware	1.07.00.0
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1652	
Model	LSI 20320-R
Vendor	LSI Logic
Device	HBAs
Firmware	1.05.01

Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1653	
Model	LSI U320
Vendor	LSI Logic
Device	HBAs
Firmware	1.05.01
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1654	
Model	LSI 7102XP
Vendor	LSI Logic
Device	HBAs
Firmware	1.05.06
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1655	
Model	LSI 7104XP
Vendor	LSI Logic
Device	HBAs
Firmware	1.05.06
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1656	
Model	LSI 7202XP
Vendor	LSI Logic
Device	HBAs
Firmware	1.05.06
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1657	
Model	LSI 7204XP
Vendor	LSI Logic
Device	HBAs
Firmware	1.05.06
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1658	
Model	LSI 7404XP
Vendor	LSI Logic

Device	HBAs
Firmware	1.05.06
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1659	
Model	LSI SAS3442x
Vendor	LSI Logic
Device	HBAs
Firmware	3.16.00
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1660	
Model	LSI SAS3801e
Vendor	LSI Logic
Device	HBAs
Firmware	3.16.00
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1661	
Model	LSI SAS3801x
Vendor	LSI Logic
Device	HBAs
Firmware	3.16.00
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1662	
Model	LSI SAS9200
Vendor	LSI Logic
Device	HBAs
Firmware	4.00.00.00
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1663	
Model	LSI SAS3041
Vendor	LSI Logic
Device	HBAs
Firmware	3.16.00
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1664

Model	QLE2360 / QLE2362
Vendor	QLogic
Device	HBAs
Firmware	v1.05
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1665	
Model	PV 124T (LTO3-060 HH SAS, IBM)
Vendor	Dell
Device	Libraries
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. Firmware	WP8A
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1667	
Model	StoreWay Virtuo Family
Vendor	Bull
Device	VTLs
Firmware	7.1
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1668	
Model	TS7510
Vendor	IBM
Device	VTLs
Firmware	v1.1 Build 1143 (update-ve114311)
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1669	
Model	TS7520
Vendor	IBM
Device	VTLs
Firmware	update-ve1382upto34-SP06
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1670

Model	TS7530
Vendor	IBM
Device	VTLs
Firmware	update-ve150715
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1671	
Model	TS7650
Vendor	IBM
Device	VTLs
Firmware	3.3.0; 3.4.0
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1672	
Model	NetApp VTL
Vendor	NetApp
Device	VTLs
Notes	102 - Supprt for the VTLs ShadowCopy functionality is added in Galaxy 7.0.
Firmware	5.6.3
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1673	
Model	S2100
Vendor	Sepaton
Device	VTLs
Firmware	2.0.4
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1674	
Model	230-HV
Vendor	ATTO
Device	Bridges
Notes	004 - Manufacturer Discontinued
Firmware	2.10
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1675	
Model	2300L
Vendor	ATTO
Device	Bridges

Notes	004 - Manufacturer Discontinued
Firmware	2.31
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1676	
Model	2400
Vendor	ATTO
Device	Bridges
Firmware	2.41
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1677	
Model	F-QIP
Vendor	Spectra Logic
Device	Bridges
Notes	029 - Internal FCO bridge designed for Spectralogic Gator Series libraries
Firmware	7.8.4.0
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1678	
Model	DAT24 USB (C1537A)
Vendor	Hewlett Packard Enterprise
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Firmware	C305
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1680	
Model	DAT40 USB (C5683A)
Vendor	Hewlett Packard Enterprise
Device	Drives

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	YU75
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1681	
Model	StoreEver DAT72
Vendor	Hewlett Packard Enterprise
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	ZPBC
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1682	
Model	StoreEver DAT72 USB
Vendor	Hewlett Packard Enterprise
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. Vendor	Hewlett Packard Enterprise
Device	Libraries
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	6.10
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64
OS Notes	["171 - LTO6 Advanced Failover Driver Feature for Windows requires a minimum of APF Driver version 1.0.6.3, Drive Code J3LZ, and HP Windows Driver 3.9.0.0"]

Device#1784	
Model	T10000D
Vendor	Oracle/SUN/STK
Device	Drives

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. Firmware	25MW
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1786	
Model	LibAttach
Vendor	Oracle/SUN/STK
Device	IP Controllers
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1787	
Model	PowerVault LTO7 (IBM SAS)
Vendor	Dell
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. Firmware	G341
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1788	
Model	StoreEver Ultrium 6650 SAS (LTO6 FH)
Vendor	Hewlett Packard Enterprise
Device	Drives
Firmware	05ID
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1789	
Model	QLE8100 Series 10GbE CNA
Vendor	QLogic
Device	HBAs

Notes	190 - Entire QLE8100 Series includes the QLE8140, QLE8142, QLE8150 and QLE8152.
Firmware	5.02.01
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1790	
Model	RDX
Vendor	Hewlett Packard Enterprise
Device	Drives
Firmware	0170 (USB int and ext), 2.27 (USB 3.0 int and ext)
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1791	
Model	Virtual Storage Manager System 7
Vendor	Oracle/SUN/STK
Device	VTLs
Firmware	7.1.x
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1792	
Model	TS4300
Vendor	IBM
Device	Libraries
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Firmware	1.5.0.0
Supported version	10.0 and 11.0

Operating system	Windows 2008 x64

Device#1793	
Model	Backup Appliance B4260
Vendor	Infinidat
Device	VTLs
Notes	193 - VTL functionality supported.
Firmware	1.3.3.1
Supported version	11.0
Operating system	Windows 2008 x64

Device#1794	
Model	HH LTO7 FC
Vendor	Tandberg
Device	Drives
Notes	076 - OEM from IBM.
Firmware	G9Q1
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64
OS Notes	["162 - To prevent multiple open handles per host, IBM \"exclusive\" install script must be used to install drivers for Ultrium Tape Drives."]

Device#1795	
Model	HH LTO7 SAS
Vendor	Tandberg
Device	Drives
Notes	076 - OEM from IBM.
Firmware	G9Q1
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64
OS Notes	["162 - To prevent multiple open handles per host, IBM \"exclusive\" install script must be used to install drivers for Ultrium Tape Drives."]

Device#1796	
Model	StoreEver Ultrium 30750 FC & SAS (LTO-8 HH)
Vendor	Hewlett Packard Enterprise
Device	Drives

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Firmware	HB87
Supported version	11.0
Operating system	Windows 2008 x64

Device#1797	
Model	SL4000
Vendor	Oracle/SUN/STK
Device	Libraries
Firmware	1.0.0.66
Supported version	10.0 and 11.0
Operating system	Windows 2008 x64

Device#1798	
Model	3584 (TS3500)
Vendor	IBM
Device	Libraries
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	G060
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#1799	
Model	StoreEver Ultrium 232 SCSI (LTO1)
Vendor	Hewlett Packard Enterprise
Device	Drives

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#1857	
Model	PV114T LTO4-120 (Quantum HH SAS)
Vendor	Dell
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	2210
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#1858	
Model	PV114T LTO-3 (IBM)
Vendor	Dell
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	93G6
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#1859	
Model	PV114T SDLT320
Vendor	Dell
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. Firmware	v90
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#1867	
Model	SAS 5/e
Vendor	Dell
Device	HBAs
Notes	118 - OEM from LSI Logic.
Firmware	00.10.51.00
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#1868	
Model	H200/SAS7 (6GB)
Vendor	Dell
Device	HBAs
Firmware	7.01.33.00
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#1869	
Model	QLA24xx Series
Vendor	QLogic

Device	HBAs
Notes	092 - Entire QLA24xx Series includes: QLA2440, QLA2460, QLA2462
Firmware	v8.01.02
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#1870	
Model	QLA405x Series
Vendor	QLogic
Device	HBAs
Notes	097 - Entire QLA405x Series includes: QLA4050, QLA4052
Firmware	v1.15 (3.0.01.53)
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#1871	
Model	QLE24xx Series
Vendor	QLogic
Device	HBAs
Notes	096 - Entire QLE24xx Series includes: QLE2440, QLE2460, QLE2462, QLE2464
Firmware	v8.01.02
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#1872	
Model	QLE25xx Series
Vendor	QLogic
Device	HBAs
Notes	149 - Entire QLE25xx Series includes: QLE2560, QLE2562, QLE2564
Firmware	v8.01.02
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#1873	
Model	QME2572
Vendor	QLogic
Device	HBAs
Notes	150 - Mezzanine version of QLE25xx Series.
Firmware	v2.12 (4.06.02)
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#1874	
Model	QMI2572
Vendor	QLogic
Device	HBAs
Notes	150 - Mezzanine version of QLE25xx Series.
Firmware	v2.12 (4.06.02)
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#1875	
Model	QMI3572
Vendor	QLogic
Device	HBAs
Notes	150 - Mezzanine version of QLE25xx Series.
Firmware	v2.12 (4.06.02)
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#1876	
Model	EMC Disk Library (EDL)
Vendor	EMC
Device	VTLs
Notes	058 - The EMC Disk Library series includes the following models: (EDL210_BA: FW 2.1.x); (EDL300, EDL310, EDL700, EDL710, EDL720, EDL740, EDL210_BA2: FW 3.1.x); (EDL4100, EDL4200, EDL4400, EDL4106, EDL4206, EDL4406: FW 3.2.x or 3.3.x); (EDL5100, EDL5200: FW 4.1.x)
Firmware	See Note for FW revisions.
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#1877	
Model	Mammoth
Vendor	Exabyte
Device	Drives

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	V41J
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#1878	
Model	Mammoth 2
Vendor	Exabyte
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. Firmware	V45
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2011	
Model	29160/39160
Vendor	Adaptec
Device	HBAs
Firmware	3.10.0
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2012	
Model	29320/39320
Vendor	Adaptec
Device	HBAs
Firmware	4.30.0
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2013

Model	29320LPE
Vendor	Adaptec
Device	HBAs
Firmware	4.31.9
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2014	
Model	2944UW
Vendor	Adaptec
Device	HBAs
Firmware	2.20
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2015	
Model	ExpressSAS H3xx
Vendor	ATTO
Device	HBAs
Firmware	2010_6_23
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2016	
Model	FC-41ES
Vendor	ATTO
Device	HBAs
Firmware	2010_7_30
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2017	
Model	FC-41XS
Vendor	ATTO
Device	HBAs
Notes	004 - Manufacturer Discontinued
Firmware	2010_7_30
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2018	
Model	FC-42ES
Vendor	ATTO
Device	HBAs
Firmware	2010_7_30
Supported version	10.0 and 11.0

Operating system	Windows 2008 R2

Device#2019	
Model	UL4D
Vendor	ATTO
Device	HBAs
Firmware	2009_4_10
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2020	
Model	UL4S
Vendor	ATTO
Device	HBAs
Notes	004 - Manufacturer Discontinued
Firmware	2009_4_10
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2021	
Model	UL5D
Vendor	ATTO
Device	HBAs
Firmware	2009_4_10
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2022	
Model	415/425 FC
Vendor	Brocade
Device	HBAs
Firmware	2.2.0.1
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2023	
Model	815/825 FC
Vendor	Brocade
Device	HBAs
Firmware	2.2.0.1
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2024	
Model	LP101-E
Vendor	Emulex

Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	1.92a1
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2025	
Model	LP10xxx Series
Vendor	Emulex
Device	HBAs
Notes	095 - Entire LP10xxx Series includes: LP10000, LP10000DC, LP1050, LP1050DC, LP10000ExDC, LP1050Ex
Firmware	1.92a5
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2026	
Model	LP11xxx Series
Vendor	Emulex
Device	HBAs
Notes	094 - Entire LP11xxx Series includes: LP11000, LP11002, LP1150
Firmware	2.82a4
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2027	
Model	LP9002
Vendor	Emulex
Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	WIN/Linux: 3.92a2; SOL: 3.93a0
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2028	
Model	LP9402DC
Vendor	Emulex
Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	3.93a0
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2029

Model	LP952L
Vendor	Emulex
Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	3.93a0
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2030	
Model	LP9802
Vendor	Emulex
Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	1.92a1
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2031	
Model	LP982
Vendor	Emulex
Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	1.92a1
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2032	
Model	LP9xxx Series
Vendor	Emulex
Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	1.92a1/3.93a0
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2033	
Model	LPe11xxx Series
Vendor	Emulex
Device	HBAs
Notes	093 - Entire LPe11xxx Series includes: LPe11000, LPe11002, LPe1150
Firmware	2.82a4
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2034

Model	LPe12xxx Series
Vendor	Emulex
Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	2.02.a4
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2035	
Model	LSI 20320-R
Vendor	LSI Logic
Device	HBAs
Firmware	1.05.01
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2036	
Model	LSI U320
Vendor	LSI Logic
Device	HBAs
Firmware	1.05.01
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2037	
Model	LSI 7102XP
Vendor	LSI Logic
Device	HBAs
Firmware	1.05.06
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2038	
Model	LSI 7104XP
Vendor	LSI Logic
Device	HBAs
Firmware	1.05.06
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2039	
Model	LSI 7202XP
Vendor	LSI Logic
Device	HBAs
Firmware	1.05.06
Supported version	10.0 and 11.0

Operating system	Windows 2008 R2

Device#2040	
Model	LSI SAS3442x
Vendor	LSI Logic
Device	HBAs
Firmware	3.16.00
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2041	
Model	LSI SAS3801e
Vendor	LSI Logic
Device	HBAs
Firmware	3.16.00
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2042	
Model	LSI SAS3801x
Vendor	LSI Logic
Device	HBAs
Firmware	3.16.00
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2043	
Model	FalconStor VTL
Vendor	FalconStor
Device	VTLs

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	5.00A
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Vendor	Hewlett Packard Enterprise
Device	VTLs

Notes	143 - Please visit https://www.hpe.com/Storage/StoreOnceSupportMatrix or https://h20272.www2.hpe.com/SPOCK/Pages/spock2Html.aspx?htmlFile=hw_storeever.html to view the HPE Compatibility Matrix for most current supported firmware revisions for specific drive/library/hba combinations.
Firmware	3.4.1.1
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2048	
Model	VLS 9x00 Series
Vendor	Hewlett Packard Enterprise
Device	VTLs
Notes	143 - Please visit https://www.hpe.com/Storage/StoreOnceSupportMatrix or https://h20272.www2.hpe.com/SPOCK/Pages/spock2Html.aspx?htmlFile=hw_storeever.html to view the HPE Compatibility Matrix for most current supported firmware revisions for specific drive/library/hba combinations.
Firmware	6.1.0
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2049	
Model	TS7510
Vendor	IBM
Device	VTLs
Firmware	v1.1 Build 1143 (update-ve114311)
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2050	
Model	TS7520
Vendor	IBM
Device	VTLs
Firmware	update-ve1382upto34-SP06
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2051	
Model	TS7530
Vendor	IBM

Device	VTLs
Firmware	update-ve150715
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2052	
Model	TS7650
Vendor	IBM
Device	VTLs
Firmware	3.3.0; 3.4.0
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2053	
Model	NetApp VTL
Vendor	NetApp
Device	VTLs
Notes	102 - Supprt for the VTLs ShadowCopy functionality is added in Galaxy 7.0.
Firmware	5.6.3
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2054	
Model	REO Series
Vendor	Overland Storage
Device	VTLs
Firmware	5.0.3.17
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2055	
Model	DX Series
Vendor	Quantum
Device	VTLs

Notes	145 - The following minimum firmware revisions are necessary on the VTL to correct performance issues for hardware deduplication when used with Simpana 8.0: DXi7500 DXi6500 The fix for those are in release 1.4 of the fw. DXi4500 The fix for those are in release 1.3.1 of the fw. DXi2500-D The fix for those are in release 1.1.1.4_25 DXi3500 DXi5500 The fix for those are in release 1.7.3.1 of the fw
Firmware	1.7.3.1
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2056	
Model	DXi 6700/6802 Series
Vendor	Quantum
Device	VTLs
Notes	145 - The following minimum firmware revisions are necessary on the VTL to correct performance issues for hardware deduplication when used with Simpana 8.0: DXi7500 DXi6500 The fix for those are in release 1.4 of the fw. DXi4500 The fix for those are in release 1.3.1 of the fw. DXi2500-D The fix for those are in release 1.1.1.4_25 DXi3500 DXi5500 The fix for those are in release 1.7.3.1 of the fw
Firmware	v2.2_68, v2.3.0
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2057	
Model	DXi 7500
Vendor	Quantum
Device	VTLs

Notes	145 - The following minimum firmware revisions are necessary on the VTL to correct performance issues for hardware deduplication when used with Simpana 8.0: DXi7500 DXi6500 The fix for those are in release 1.4 of the fw. DXi4500 The fix for those are in release 1.3.1 of the fw. DXi2500-D The fix for those are in release 1.1.1.4_25 DXi3500 DXi5500 The fix for those are in release 1.7.3.1 of the fw
Firmware	v2.1
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2058	
Model	DXi 3500/5500
Vendor	Quantum
Device	VTLs
Notes	145 - The following minimum firmware revisions are necessary on the VTL to correct performance issues for hardware deduplication when used with Simpana 8.0: DXi7500 DXi6500 The fix for those are in release 1.4 of the fw. DXi4500 The fix for those are in release 1.3.1 of the fw. DXi2500-D The fix for those are in release 1.1.1.4_25 DXi3500 DXi5500 The fix for those are in release 1.7.3.1 of the fw
Firmware	1.7.3.1
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2059	
Model	S2100
Vendor	Sepaton
Device	VTLs
Firmware	2.0.4
Supported version	10.0 and 11.0

Operating system	Windows 2008 R2

Device#2060	
Model	SUN VTL Plus 1.0 Family
Vendor	Oracle/SUN/STK
Device	VTLs
Firmware	Not posted
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2061	
Model	SUN VTL Plus 1.0 Family
Vendor	Oracle/SUN/STK
Device	VTLs
Firmware	Not posted
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2062	
Model	SUN VTL Plus 2.0 Family
Vendor	Oracle/SUN/STK
Device	VTLs
Firmware	Not posted
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2063	
Model	DPS1000 Series
Vendor	Tandberg
Device	VTLs
Firmware	1.5.1
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2064	
Model	230-HV
Vendor	ATTO
Device	Bridges
Notes	004 - Manufacturer Discontinued
Firmware	2.10
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2065	
Model	2300L
Vendor	ATTO

Device	Bridges
Notes	004 - Manufacturer Discontinued
Firmware	2.31
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2066	
Model	2400
Vendor	ATTO
Device	Bridges
Firmware	2.41
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2067	
Model	F-QIP
Vendor	Spectra Logic
Device	Bridges
Notes	029 - Internal FCO bridge designed for Spectralogic Gator Series libraries
Firmware	7.8.4.0
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2068	
Model	StoreEver DAT72
Vendor	Hewlett Packard Enterprise
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	ZPBC

Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2069	
Model	StoreEver DLT VS160
Vendor	Hewlett Packard Enterprise
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Device	Drives

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	A1BA
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2087	
Model	ULT3580-HH3
Vendor	IBM
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Notes	004 - Manufacturer Discontinued
Firmware	2010_7_30
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2150	
Model	FC-44ES
Vendor	ATTO
Device	HBAs
Firmware	2010_7_30
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2151	
Model	TS7610
Vendor	IBM
Device	VTLs
Firmware	3.2.0; 3.3.0
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2152	
Model	TS7650 AP1
Vendor	IBM
Device	VTLs
Firmware	3.2.0; 3.3.0; 3.4.0
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2153	
Model	TS7650 G
Vendor	IBM
Device	VTLs
Firmware	3.2.0; 3.3.0; 3.4.0
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2154	
Model	ULT3580-HH5
Vendor	IBM
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	H971
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2
OS Notes	["162 - To prevent multiple open handles per host, IBM \"exclusive\" install script must be used to install drivers for Ultrium Tape Drives."]

Device#2155	
Model	Ultrium-TD5
Vendor	IBM
Device	Drives

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	H970
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2
OS Notes	["162 - To prevent multiple open handles per host, IBM \"exclusive\" install script must be used to install drivers for Ultrium Tape Drives."]

Device#2156	
Model	SDX-500C
Vendor	Sony
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. Firmware	Z619
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2162	
Model	1045/1405
Vendor	Adaptec
Device	HBAs
Firmware	5.0.1.0
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2163	
Model	DXi 8500 Series
Vendor	Quantum
Device	VTLs
Firmware	V2.1.2_85, v2.3.0
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2164	
Model	nTier
Vendor	Spectra Logic
Device	VTLs
Firmware	5.2
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2165	
Model	PowerVault LTO4-120HH (IBM-V2 SAS)
Vendor	Dell
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Firmware	v3.4.0
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2225	
Model	DXi 6900 series
Vendor	Quantum
Device	VTLs
Firmware	v3.4.0
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2226	
Model	TL1000
Vendor	Dell
Device	Libraries
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	0130-3000
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2227	
Model	LibAttach
Vendor	Oracle/SUN/STK
Device	IP Controllers

Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2228	
Model	3584 (TS4500)
Vendor	IBM
Device	Libraries
Firmware	1.8.0.2-A00
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2
OS Notes	["162 - To prevent multiple open handles per host, IBM \"exclusive\" install script must be used to install drivers for Ultrium Tape Drives."]

Device#2229	
Model	PowerVault LTO7 (IBM SAS)
Vendor	Dell
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	G341
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2230	
Model	StoreEver Ultrium 15000 SAS (LTO7 HH)
Vendor	Hewlett Packard Enterprise
Device	Drives
Notes	181 - Support has been added as of Simpana 10.0 SP11 and forward.

Firmware	M571, N4Q1
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2
OS Notes	["183 - HPE LTO-7 Supported with vendor OS specific driver of 1.0.9.1 or later"]

Device#2231	
Model	StoreEver Ultrium 15750 FC (LTO7 FH)
Vendor	Hewlett Packard Enterprise
Device	Drives
Notes	181 - Support has been added as of Simpana 10.0 SP11 and forward.
Firmware	HB80
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2
OS Notes	["183 - HPE LTO-7 Supported with vendor OS specific driver of 1.0.9.1 or later"]

Device#2232	
Model	StoreEver Ultrium 15000 FC (LTO7 HH)
Vendor	Hewlett Packard Enterprise
Device	Drives
Notes	181 - Support has been added as of Simpana 10.0 SP11 and forward.
Firmware	M571, N4Q1
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2
OS Notes	["183 - HPE LTO-7 Supported with vendor OS specific driver of 1.0.9.1 or later"]

Device#2233	
Model	StoreEver Ultrium 6650 SAS (LTO6 FH)
Vendor	Hewlett Packard Enterprise
Device	Drives
Firmware	05ID
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2234	
Model	LTO 7 Half-Height
Vendor	Quantum
Device	Drives

Notes	181 - Support has been added as of Simpana 10.0 SP11 and forward.
Firmware	H5B3
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2235	
Model	3592 EH8/E08 (TS1150)
Vendor	IBM
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	460E
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2236	
Model	QLE8100 Series 10GbE CNA
Vendor	QLogic
Device	HBAs
Notes	190 - Entire QLE8100 Series includes the QLE8140, QLE8142, QLE8150 and QLE8152.
Firmware	5.02.01
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2237	
Model	RDX
Vendor	IBM
Device	Drives

Firmware	3043 (USB int and ext), 1.6 (USB 3.0 int and ext)
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2238	
Model	RDX
Vendor	Hewlett Packard Enterprise
Device	Drives
Firmware	0170 (USB int and ext), 2.27 (USB 3.0 int and ext)
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2239	
Model	Virtual Storage Manager System 7
Vendor	Oracle/SUN/STK
Device	VTLs
Firmware	7.1.x
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2240	
Model	DR4000 / DR4100 / DR6000
Vendor	Dell
Device	VTLs
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. Firmware	4.0
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2244	
Model	Backup Appliance B4260
Vendor	Infinidat
Device	VTLs
Notes	193 - VTL functionality supported.
Firmware	1.3.3.1
Supported version	11.0
Operating system	Windows 2008 R2

Device#2245	
Model	HH LTO7 FC
Vendor	Tandberg
Device	Drives
Notes	076 - OEM from IBM.
Firmware	G9Q1
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

OS Notes	["162 - To prevent multiple open handles per host, IBM \"exclusive\" install script must be used to install drivers for Ultrium Tape Drives."]

Device#2246	
Model	HH LTO7 SAS
Vendor	Tandberg
Device	Drives
Notes	076 - OEM from IBM.
Firmware	G9Q1
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2
OS Notes	["162 - To prevent multiple open handles per host, IBM \"exclusive\" install script must be used to install drivers for Ultrium Tape Drives."]

Device#2247	
Model	LTO 8 Half-Height
Vendor	Quantum
Device	Drives
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	HB83
Supported version	11.0
Operating system	Windows 2008 R2

Device#2248	
Model	SL4000
Vendor	Oracle/SUN/STK
Device	Libraries
Firmware	1.0.0.66
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2249	
Model	LTO 7HH (IBM)
Vendor	Oracle/SUN/STK
Device	Drives
Firmware	FA11
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2250

Model	ExpressSAS H12xx
Vendor	ATTO
Device	HBAs
Firmware	2018_11_2
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2251	
Model	12GB SAS
Vendor	Dell
Device	HBAs
Firmware	16.17.00.03
Supported version	10.0 and 11.0
Operating system	Windows 2008 R2

Device#2252	
Model	3584 (TS3500)
Vendor	IBM
Device	Libraries
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	G060
Supported version	10.0 and 11.0
Operating system	Linux
OS Notes	["084 - Supported on the following Linux platforms: RHEL 7.0 64-bit (x86_64) with kernel 3.10.x and glibc 2.17.x; RHEL 8.0 64-bit (x86_64) with kernel 4.18.x and glibc 2.28.x; SuSE Linux 11 Ent. Server 64-bit Edition with kernel 2.6.25 and glibc 2.9.x; SuSE Linux 12 Ent. Server 64-bit Edition with kernel 3.12.x and glibc 2.22.x; SuSE Linux 15 Ent. Server 64-bit Edition with kernel 4.12.x and glibc 2.28.x; Ubuntu 16.04LTS with kernel 5.11.x and glibc-2.23; Ubuntu 18.04LTS with kernel 5.15.x and glibc-2.31"]

Device#2253	
Model	StoreEver Ultrium 232 SCSI (LTO1)
Vendor	Hewlett Packard Enterprise
Device	Drives

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Device	Drives

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	U62W
Supported version	10.0 and 11.0
Operating system	Linux

Device#2268	
Model	StoreEver Ultrium 1760 SAS (LTO4 HH)
Vendor	Hewlett Packard Enterprise
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	U64D
Supported version	10.0 and 11.0
Operating system	Linux

Device#2269	
Model	StoreEver Ultrium 1840 SAS (LTO4)
Vendor	Hewlett Packard Enterprise
Device	Drives
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	H6FW
Supported version	10.0 and 11.0
Operating system	Linux

Device#2270	
Model	StoreEver Ultrium 1840 FC (LTO4 FH)
Vendor	Hewlett Packard Enterprise
Device	Drives

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. Notes	096 - Entire QLE24xx Series includes: QLE2440, QLE2460, QLE2462, QLE2464
Firmware	v8.01.02
Supported version	10.0 and 11.0
Operating system	Linux

Device#2370	
Model	QLE25xx Series
Vendor	QLogic
Device	HBAs
Notes	149 - Entire QLE25xx Series includes: QLE2560, QLE2562, QLE2564
Firmware	v8.01.02
Supported version	10.0 and 11.0
Operating system	Linux

Device#2371	
Model	3D Series
Vendor	EMC
Device	VTLs

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	1.1
Supported version	10.0 and 11.0
Operating system	Linux
OS Notes	["084 - Supported on the following Linux platforms: RHEL 7.0 64-bit (x86_64) with kernel 3.10.x and glibc 2.17.x; RHEL 8.0 64-bit (x86_64) with kernel 4.18.x and glibc 2.28.x; SuSE Linux 11 Ent. Server 64-bit Edition with kernel 2.6.25 and glibc 2.9.x; SuSE Linux 12 Ent. Server 64-bit Edition with kernel 3.12.x and glibc 2.22.x; SuSE Linux 15 Ent. Server 64-bit Edition with kernel 4.12.x and glibc 2.28.x; Ubuntu 16.04LTS with kernel 5.11.x and glibc-2.23; Ubuntu 18.04LTS with kernel 5.15.x and glibc-2.31"]

Device#2372	
Model	EMC Disk Library (EDL)
Vendor	EMC
Device	VTLs
Notes	058 - The EMC Disk Library series includes the following models: (EDL210_BA: FW 2.1.x); (EDL300, EDL310, EDL700, EDL710, EDL720, EDL740, EDL210_BA2: FW 3.1.x); (EDL4100, EDL4200, EDL4400, EDL4106, EDL4206, EDL4406: FW 3.2.x or 3.3.x); (EDL5100, EDL5200: FW 4.1.x)
Firmware	See Note for FW revisions.
Supported version	10.0 and 11.0
Operating system	Linux

OS Notes	["084 - Supported on the following Linux platforms: RHEL 7.0 64-bit (x86_64) with kernel 3.10.x and glibc 2.17.x; RHEL 8.0 64-bit (x86_64) with kernel 4.18.x and glibc 2.28.x; SuSE Linux 11 Ent. Server 64-bit Edition with kernel 2.6.25 and glibc 2.9.x; SuSE Linux 12 Ent. Server 64-bit Edition with kernel 3.12.x and glibc 2.22.x; SuSE Linux 15 Ent. Server 64-bit Edition with kernel 4.12.x and glibc 2.28.x; Ubuntu 16.04LTS with kernel 5.11.x and glibc-2.23; Ubuntu 18.04LTS with kernel 5.15.x and glibc-2.31"]

Device#2373	
Model	TL24iSCSIxSAS
Vendor	Dell
Device	Bridges
Notes	125 - The TL24iSCSIxSAS bridge is supported with the Dell TL2000/TL4000 library using software initiators. Supported OS: Win2k3, Win2k3 x64, Win2008 32-bit, Win2008 R2, Win2008 x64, Win2012, Win2012 R2, RH 4 & 5, SUSE 9&10; Supported drive types: LTO3, LTO4 & LTO5 SAS drives
Firmware	1.02.04
Supported version	10.0 and 11.0
Operating system	Linux
OS Notes	["084 - Supported on the following Linux platforms: RHEL 7.0 64-bit (x86_64) with kernel 3.10.x and glibc 2.17.x; RHEL 8.0 64-bit (x86_64) with kernel 4.18.x and glibc 2.28.x; SuSE Linux 11 Ent. Operating system	Linux
OS Notes	["084 - Supported on the following Linux platforms: RHEL 7.0 64-bit (x86_64) with kernel 3.10.x and glibc 2.17.x; RHEL 8.0 64-bit (x86_64) with kernel 4.18.x and glibc 2.28.x; SuSE Linux 11 Ent. Server 64-bit Edition with kernel 2.6.25 and glibc 2.9.x; SuSE Linux 12 Ent. Server 64-bit Edition with kernel 3.12.x and glibc 2.22.x; SuSE Linux 15 Ent. Server 64-bit Edition with kernel 4.12.x and glibc 2.28.x; Ubuntu 16.04LTS with kernel 5.11.x and glibc-2.23; Ubuntu 18.04LTS with kernel 5.15.x and glibc-2.31"]

Device#2437	
Model	ETERNUS LT20/40/60 S2
Vendor	Fujitsu
Device	Libraries
Notes	196 - LTO8 drives are supported as of v11 SP10. Note: LTO8 drives have Read/Write capability for LTO8 and LTO7 media. LTO8 drives do NOT have Read capability for LTO6 and lower.
Firmware	LT20 S2: v2.20, LT40/LT60 S2: v5.0
Supported version	10.0 and 11.0
Operating system	Linux

Device#2438

Model	ITL-340i
Vendor	Grau
Device	Libraries
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	Not posted
Supported version	10.0 and 11.0
Operating system	Linux

Device#2439	
Model	ITL-64
Vendor	Grau
Device	Libraries
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. Device#2547	
Model	LP9402DC
Vendor	Emulex
Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	3.93a0
Supported version	10.0 and 11.0
Operating system	Linux
OS Notes	["084 - Supported on the following Linux platforms: RHEL 7.0 64-bit (x86_64) with kernel 3.10.x and glibc 2.17.x; RHEL 8.0 64-bit (x86_64) with kernel 4.18.x and glibc 2.28.x; SuSE Linux 11 Ent. Server 64-bit Edition with kernel 2.6.25 and glibc 2.9.x; SuSE Linux 12 Ent. Server 64-bit Edition with kernel 3.12.x and glibc 2.22.x; SuSE Linux 15 Ent. Server 64-bit Edition with kernel 4.12.x and glibc 2.28.x; Ubuntu 16.04LTS with kernel 5.11.x and glibc-2.23; Ubuntu 18.04LTS with kernel 5.15.x and glibc-2.31"]

Device#2548	
Model	LP952L
Vendor	Emulex
Device	HBAs
Notes	002 - Entire Series/Family Supported
Firmware	3.93a0
Supported version	10.0 and 11.0
Operating system	Linux

OS Notes	["084 - Supported on the following Linux platforms: RHEL 7.0 64-bit (x86_64) with kernel 3.10.x and glibc 2.17.x; RHEL 8.0 64-bit (x86_64) with kernel 4.18.x and glibc 2.28.x; SuSE Linux 11 Ent. Device#2554	
Model	FCA2214 (QLA2340)
Vendor	Hewlett Packard Enterprise
Device	HBAs
Notes	143 - Please visit https://www.hpe.com/Storage/StoreOnceSupportMatrix or https://h20272.www2.hpe.com/SPOCK/Pages/spock2Html.aspx?htmlFile=hw_storeever.html to view the HPE Compatibility Matrix for most current supported firmware revisions for specific drive/library/hba combinations.
Firmware	1.33
Supported version	10.0 and 11.0

Operating system	Linux

Device#2555	
Model	SC44GE (LSI SAS3801x)
Vendor	Hewlett Packard Enterprise
Device	HBAs
Firmware	1.07.00.0
Supported version	10.0 and 11.0
Operating system	Linux

Device#2556	
Model	43W4324
Vendor	IBM
Device	HBAs
Firmware	4.30.02
Supported version	10.0 and 11.0
Operating system	Linux
OS Notes	["084 - Supported on the following Linux platforms: RHEL 7.0 64-bit (x86_64) with kernel 3.10.x and glibc 2.17.x; RHEL 8.0 64-bit (x86_64) with kernel 4.18.x and glibc 2.28.x; SuSE Linux 11 Ent. Device#2557	
Model	LSI SAS3442x
Vendor	LSI Logic
Device	HBAs
Firmware	3.16.00
Supported version	10.0 and 11.0
Operating system	Linux

Device#2558	
Model	LSI SAS3801e
Vendor	LSI Logic
Device	HBAs
Firmware	3.16.00
Supported version	10.0 and 11.0
Operating system	Linux

Device#2559

Model	LSI SAS3801x
Vendor	LSI Logic
Device	HBAs
Firmware	3.16.00
Supported version	10.0 and 11.0
Operating system	Linux

Device#2560	
Model	SATAII150 TX4
Vendor	Promise Technology
Device	HBAs
Notes	004 - Manufacturer Discontinued
Firmware	1.0.0.34/1.0
Supported version	10.0 and 11.0
Operating system	Linux

Device#2561	
Model	FalconStor VTL
Vendor	FalconStor
Device	VTLs
Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	5.00A
Supported version	10.0 and 11.0
Operating system	Linux

OS Notes	["084 - Supported on the following Linux platforms: RHEL 7.0 64-bit (x86_64) with kernel 3.10.x and glibc 2.17.x; RHEL 8.0 64-bit (x86_64) with kernel 4.18.x and glibc 2.28.x; SuSE Linux 11 Ent. Server 64-bit Edition with kernel 4.12.x and glibc 2.28.x; Ubuntu 16.04LTS with kernel 5.11.x and glibc-2.23; Ubuntu 18.04LTS with kernel 5.15.x and glibc-2.31"]

Device#2632	
Model	HH LTO Gen 2
Vendor	IBM
Device	Drives

Notes	001 - LTO9 Note: If this library contains LTO9 drives (supported as of 11.24), the Tape Characterization feature may cause the first job on each new tape to time out. Please refer to BOL (Expert) for required steps to extend time out. "https://documentation.commvault.com/11.24/expert/146394_setting_timeout_durations_to_support_lto9_drive_characterization.html" **Note: LTO9 drives have Read/Write capability for LTO9 and LTO8 media. The drives do not support LTO8M media and no Read Only capability for LTO7 and lower. ***Libraries and Drives are separate entities for certification purposes. While a particular drive is listed with a tested library any certified drive installed by the library manufacturer can be considered certified with the library.
Firmware	v0192
Supported version	10.0 and 11.0
Operating system	Linux
OS Notes	["084 - Supported on the following Linux platforms: RHEL 7.0 64-bit (x86_64) with kernel 3.10.x and glibc 2.17.x; RHEL 8.0 64-bit (x86_64) with kernel 4.18.x and glibc 2.28.x; SuSE Linux 11 Ent.
